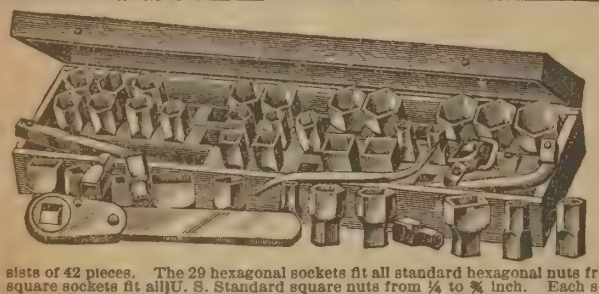
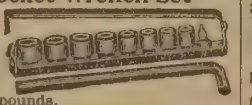
42-Piece Set — $6.98



Have you ever seen such a complete Socket Wrench Set offered at this low price? We don't believe you have! This set is the highest quality and the most complete socket wrench set we have ever offered. It consists of 42 pieces. The 29 hexagonal sockets fit all standard hexagonal nuts from 5/16 to 1¼ inches. The 8 square sockets fit all U. S. Standard square nuts from ¼ to ⅞ inch. Each socket is made of cold rolled steel with extra heavy walls, and hardened. A drop forged universal joint makes it possible to reach nuts in the most out-of-way places. The cold rolled steel extension bar is interchangeable with sockets and wrenches in turning nuts hard to reach. The rachet wrench enables one to use any of the above sockets in any position, turning the nut without removing the socket. A drop forged offset handle for use in very close places and a cotter pin remover are also included. Finished in white nickel in strong wood box. Shipping weight, per set, 8 pounds.
84 E 7463—Complete set.....**$6.98**

10-Piece Socket Wrench Set



Made of drop forged steel, carefully heat-treated. Consists of 8 sockets, 7/16 to 15/16 in. and 1 screw driver. Shipping weight, 2 pounds.
84 E 7460.....**$1.00**

84 E 4299..... **98¢**

Lakeside Church, School, Factory Bells

$10.95 20-Inch Size

Lakeside Church Bells are made of a special composition metal, producing a clear, rich, mellow sound. The larger the bell, the deeper and richer the tone, which improves as the bell ages. Large, clear sounding bells for less money than smaller brass bells would cost.

Lakeside Church Bells produce a clear, deep, mellow tone that can be heard a great distance. Are complete with tolling hammer.

Lakeside School and Factory Bells are of the same quality as our Church Bells but do not have a tolling hammer and are designed for schools, courthouses and small churches.

Note: We will replace free any Lakeside Bell which breaks within five years.

Prices are for bells complete with wood sills and iron wheels. Sizes over 36 inches have wood wheels. Fitted with smooth, easy running bearings.

284 E 4645—

School or Factory Bells. Complete with clapper but without tolling hammer.

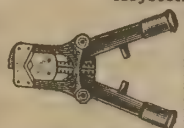
Keystone Dehorners

Improved Keystone Dehorner

The improved Keystone is the largest and most effective dehorning knife made. In strength, cutting service and durability, it cannot be excelled. The taper rack and handles, which have eccentric gears, give the knives their greatest cutting power at the beginning of the stroke, where it is most needed. Handles are of malleable iron and the knives of fine tempered steel. Total length, 46 inches. Blades, open, 3½ inches. Complete, with cattle leader and rope, extra set of blades and screws. Shipping weight, 20 pounds.

484 E 6249.....$17.25

Keystone Dehorner



With Leader and Rope. Has two V-shaped steel blades, which come together, giving four cutting blades. Easily clips any horn clean and smooth. Total length, 44 inches; blades, open, 3½ inches. Complete, with leader and rope, extra set of blades and screws. Shipping weight, 21 pounds.

484 E 6247.....$15.25

Improved Convex Dehorner

With Leader and Rope. Consists of two castings and one steel cutting knife. Makes clean cut on any size or shape of horn. Has hardwood handles. Blade may be replaced if damaged. Total length, 40 inches. Blades, open, 3 inches. Complete, with leader and rope and one extra blade. Shipping weight, 19 pounds.

484 E 6245.....$11.95

AJAX—The Greatest Fence Value

No sagging or crumpling—because the stay wires in AJAX Fences run continuous from top to bottom; are properly spaced, and made of the correct weight and material to give absolute up and down rigidity.

No rusting or corrosion can eat away the metal and shorten its life, because every inch is heavily galvanized by a perfected process which rustproofs the entire fence against years of exposure to the elements.

No holes or openings can be broken into an AJAX Fence by stock—thanks to the scientific spacing of stay and line wires; the use of heavy top and bottom wires; and the ring knot construction at all intersections (instead of hinge joints) which maintains every rod of fence upright and rigid.

The finest fence wire obtainable goes into every foot of AJAX. No other material equals basic open-hearth steel, as it is called, for toughness, strength, elasticity and durability. That unique Ring Knot ties cross wires and line wires tightly and pennanently together (see illustration) and the exact spacing of every wire has been calculated by experts to give AJAX Fence a design equal to its materials. Machine crimping at intersections provides for expansion and contraction due to heat and cold. AJAX Fence keeps live stock in and prowlers out; needs no repairs; stays strong, true and upright, and lasts for years.

[Prices Subject to Market Changes

Read What an Ajax Owner Says

"It is with pleasure that I c write of the splendid service your Ajax Farm Fence. I ha used it for several years and sure of the fact that it can n be duplicated for the mon The high carbon wire has res tance and flexibility not found soft wire fence.

"Put up 80 rods of your fen along the road last spring and dozen men called it the nic fence they had seen and want to know where I got it. When soft wire fence is bent, it sta bent, sags and stays becom loose. Stiff wire in Ajax com back in position. We have so Ajax that has been up 5 yea and is tighter than a soft w fence put up last autumn."

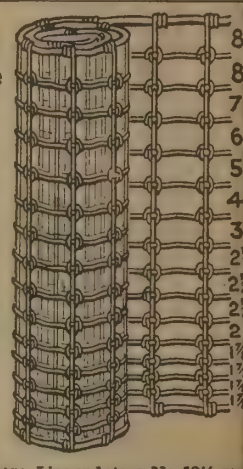
Ajax Stock and Poultry Fence



59¢ A Rod | **46-Inch**

Made in two weights: Stock and Extra Heavy Poultry Fence and Light Stock and Heavy Poultry Fence. The stock and extra heavy poultry fence is made for stock, but the meshes are small enough to keep in small chickens.

The light stock and heavy poultry fence will hold cattle and is woven small enough to hold small chickens. It is only 1½ gauges lighter than regular Ajax Fencing but is 5 gauges heavier than ordinary poultry netting.

The spacing on both styles of fencing is the same. Bottom mesh, 1⅓-inch; top mesh, 8-inch; stays, 8 inches apart.

Wire gauge for Ajax Stock and Extra Heavy Poultry Fence: Top and bottom wires, No. 9½ gauge Line and stays, No. 12½ gau Wire gauges for Ajax Light Stock and Heavy Poultry Fence: T and bottom, No. 11 gauge. Line and stay wires, No. 14 gauge.

184 E 5654—.....$1.88

Galvanized Steel on Hard Maple Fence Posts

Made of well seasoned hard maple, saturated with creosote and then covered with 18-gauge galvanized steel. The steel covering is shaped around the wood under a very heavy pressure thus preventing the collection of moisture between the two surfaces. The Fence Post thus acquires the good qualities of both steel and wood posts. Being protected from the weather by the steel covering and the creosote, this Fence Post will give long service. The Post has a greater strength than most posts; the bending point being ten pounds higher than that claimed by a nationally advertised post costing much more money. The edges of the metal are punched so that staples to hold fencing may be driven directly into the wood. A gap is left between the edges of the metal so that small staples may be used for fastening netting or light fencing. The end of the post is sharpened to make driving easy. The outside diameter of the post is 1 by 1¼ inches.

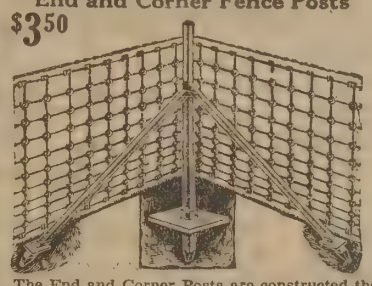
Steel Covered Hard Maple End and Corner Fence Posts

$3.50



The End and Corner Posts are constructed the same as the line posts described above. The posts are 2 by 2⅛ inches by 8 feet long and are covered with 16-gauge galvanized steel. A 6 by 6-inch, 12-gauge, galvanized steel anchor plate on the bottom prevents the post from being forced out of the ground. The end post has one brace and the corner post two, set in 12-gauge galvanized steel brackets. The braces are 8 feet long and the same dimensions and materials as the posts. They have 6 by 6-inch anchor plates the same as the posts. Fence posts of this type will give you long service because they are protected from the weather by the steel covering and the creosote.

Number	Style	Ship. wt.	Each

484 E 5638	8 inches	1.75
484 E 5639	9 inches	1.90

Steel Fence Anchor

The top lug holds the bottom wire close to the ground and thus prevents hogs from rooting under the fence; also necessary on rough ground or on hillsides. The bottom fin being set at an angle keeps the anchor from drawing out of the ground. Made of angle steel, ⅝ by 1 by 15 inches. Shipping weight, ¾ pound.

Combines staple puller, double wire cutter, double hammer, wire splicer, pincers and wrench. Forged steel, well finished. Length, 10 inches. Shipping weight, 2½ pounds.

284 E 2231.....$1.20

Fireproof—and a Protection Against Lightning

Metal Roofing and Siding

PROTECTION from weather, protection from fire, protection from lightning! You get them all when you use our Metal Roofing and Siding. And you save a lot or good money because our prices are surprisingly low and because you can do the work yourself—easily—all you need is a ladder, a hammer, and a pair of tinner's shears. Nail it on right over old sheathing, shingles, or on the studding itself. Takes only a little time to reroof or reside a building and you have a weathertight, fireproof and lightning-proof protection that is both permanent and economical.

Only fine open hearth sheet steel is used in our roofing and siding. Every sheet is full width from end to end. The corrugations and crimps are full depth, not shallow,—giving our roofing and siding the strength and rigidity you want. There is no skimping in the gauges, weights, galvanizing or painting of our roofing and siding. We always recommend the heaviest gauge and galvanized, as it costs only a trifle more to begin with, costs NO more to put on, and will last about twice as long. Get better roofing here for less.

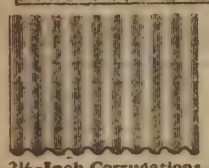
Galvanized

The heavy coating of zinc applied by an electric process to **both** sides of each sheet makes it rustproof and thoroughly weather resisting. Galvanizing will not chip or peel.

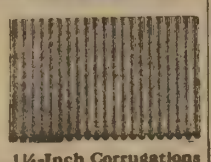
Painted

We use only the best quality of red mineral paint. Each sheet is painted on **both** sides. Repainting as needed will keep the sheets attractive and in perfect condition.

Corrugated



2½-Inch Corrugations



1¼-Inch Corrugations

Each sheet of this roofing is actually 26 inches wide but covers only 24 inches because of the side lap. A square will cover on the average 90 square feet of surface (without allowing for end laps). Every sheet is full length and full width with full depth corrugations.

$3.72 Per 100 Square Feet

We recommend the 1¼-inch for roofing and the 2½-inch for siding. The 26 gauge galvanized is heaviest and cheapest in the long run. Order 1 pound 1¾-inch roofing nails for each 100 square feet of roofing and include ridge roll and lead washers in your order. **Read "How to Order Metal Roofing and Siding" and be sure to allow for end lap and side lap.**

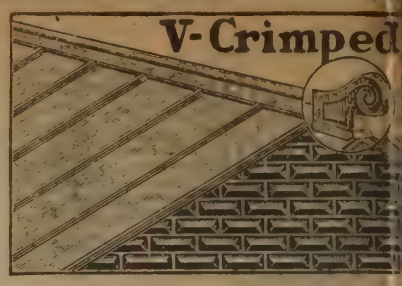
How to Order Metal Roofing and Siding

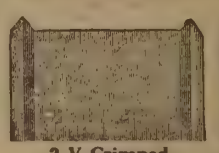
Always state the length of sheets wanted, and the number of sheets wanted of each length. We quote prices per 100 square feet for your convenience in comparing our low prices with others, but since we do not cut sheets, metal roofing and siding should always be ordered by the sheet—not by the square.

How to Figure the Number of Sheets Needed—Suppose you want to cover a space 10 feet high and 23 feet wide. Each sheet, either corrugated or V-crimped, actually covers a 24-inch width, so you would need 12 sheets or strips to cover the 23-foot width; you would therefore order 12 of the 10-foot sheets. When more than one sheet is needed to reach from top to bottom of the space to be covered, be sure to allow 2 inches for end lap on siding and from 4 to 6 inches for roofing, depending on the pitch of the roof. If you are not sure of the number and length of sheets you will need, send us a rough sketch showing the dimensions of the space to be covered and we will gladly figure it for you.

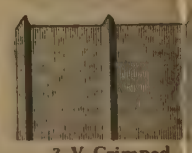
Be sure to include ridge roll, roofing nails and lead washers in your order.

V-Crimped





2 V-Crimped



3 V-Crimped

$3.82 Per 100 Square Feet

Each sheet of this roofing actu measures 24 inches from center center of outside crimps so no all ance need be made for side laps. square actually covers a square surface (without allowing end laps). Every sheet is length and width with full de crimps. We always recommend galvanized. Order 1½ pounds of inch roofing nails for each 100 square feet of 2-V 3 pounds for 3-V. Also include ridge roll, lead wash and wood V-strip. **Read "How to Order Metal Ro ing and Siding" and be sure to allow for end only—no allowance need be made for side la**

Eaves Trough Ten Feet 45¢ Best Grade Steel Galvanized Down Spout Ten Feet 50¢

A slip joint makes it easy for anyone to put up this Trough. Simply push sections together. No tinner needed. Makes a neat, tight job and requires no soldering at the joint. Always state whether right or left-hand trough is wanted, or send sketch showing position of outlets. Right hand means that, as you face the building, the water in trough will flow to the right. We recommend the extra heavy 26 gauge. Costs no more to put up, lasts twice as long as standard gauge and at our prices will give you a big saving. **Prices subject to market changes.**

Galvanized Eaves Troughs

Made of best grade galvanized sheet steel in 10-foot lengths without a seam. One end of each length is made with a slip-joint; quickly put together; requires no soldering. **Not mailable.** Shipping weights per 10-foot length: 4 to 9 pounds.

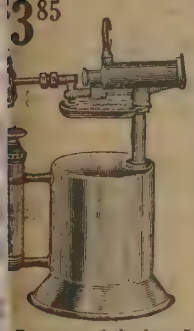
Complete line of Builders' Hardware shown on Pages 642 and 643

Highest Grade Blow Torches and Gasoline Furnaces

Gasoline or Kerosene Blow Torch

$3.85

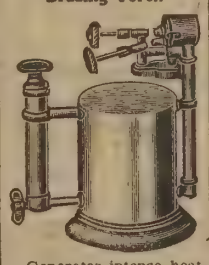


A specially designed Torch which produces 400 degrees more heat than ordinary torches. New type burner of special composition bronze metal designed to burn low grades of gasoline and kerosene. Will operate successfully indoors or out. Produces a steady blue flame of intense heat or low fuel consumption. Tank of heavy seamless brass, bottom shaped to form funnel. Hook for soldering copper.

Recommended for Linemen, Electricians, Plasterers, Plumbers, Mechanics or any one who desires a high grade torch at a low price.

84 E 5220—Capacity, 1 pint. Height, 7 inches. Shipping weight, 3 pounds **$3.85**
84 E 5221—Capacity, 1 quart. Height, 9 inches. Shipping weight, 4 pounds **$4.25**

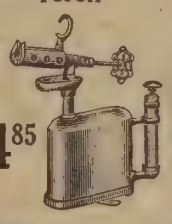
Double Jet Gasoline Brazing Torch



Generates intense heat of about 3000 degrees (Fahrenheit). Will produce large or small, pointed flame. Fine for brazing or tempering. Made of heavy brass and bronze. Pump is in handle. Capacity of tank, 1 quart. Height over all, 9 inches. Directions included. Shipping weight, 4 pounds.
84 E 5226 . . . **$8.75**

Gasoline Auto Torch

$4.85



Brass body, flat oval shape for use in narrow places. Powerful burner, produces intensely hot flame. Folding support on bottom prevents tipping over. Fitted with soldering iron holder. Pump is contained in the handle. Fits nicely into tool kit. Capacity, 1 pint; height over all, 9 inches. Shipping weight, 4 pounds.
84 E 5224 . . . **$4.85**

Gasoline Torch and Sprayer

$4.50

Burner gives hot flame. Separate nozzle throws fine stream of gasoline for cleaning machinery, destroying vermin and similar uses. Bottom of tank is shaped to form funnel for ease in filling. Fitted with holder for soldering coppers. Well made and finely finished. Capacity, 1 quart. Height, 9 inches. Shipping weight, 5½ pounds.
84 E 5222 . . . **$4.50**

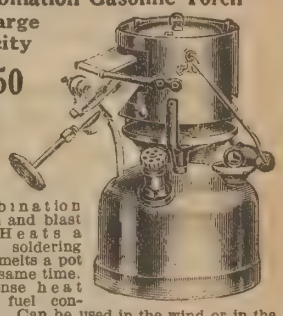
Gasoline Furnace

Produces a very hot flame. Has shield to hold melting pot. Melting pot not included. Heavy galvanized iron tank. Rubber pressure bulb. Malleable iron and brass casting. Burner is extra heavy copper pipe. Rigidly and compactly built. May be used as hot-plate or stove. Consumption, 1 pint of gasoline per hour. Height over all, 17¾ inches. Diameter, 8¼ inches. Ship. wt., 10 lbs.
484 E 5232 . . . **$4.95**

Combination Gasoline Torch

Has Large Capacity

$9.50



A combination blow torch and blast furnace. Heats a pair of soldering irons and melts a pot of lead at same time. Gives intense heat with low fuel consumption. Can be used in the wind or in the coldest weather. Is recommended by electricians, linemen and plumbers. Has swivel joint so it can be turned to horizontal or vertical position without changing position of furnace. Made of heavy drawn steel. A heavy rim projects ½ inch below the bottom of the tank for protection. Has brass pump and filler cap. Cap., 3 qts. Height, over all, 12 in. Diameter, 8¼ in. Ship. wt., 12 lbs
484 E 5234 . . . . . **$9.50**

Soldering Coppers

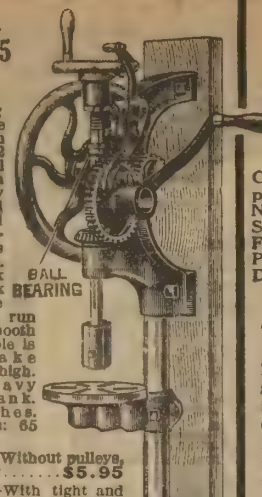
Self Feed Post Drill $5.95



A ball bearing Drill that will bore holes up to ¾ inch to center of 12 inch circle. Ball bearings run in races accurately cut from solid steel. Fly wheel and spindle speeded up by means of back-gear drive. Never-slip chuck holds round shank drills. Spindle has up and down run of 3 inches. Smooth lathe turned table is adjustable to take work 8 inches high. Mounted on heavy hardwood plank. Height, 34 inches. Shipping weights: 65 and 72 pounds.

184 E 6628—Without pulleys, for hand use only..... **$5.95**

184 E 6629—With tight and loose pulleys for power. Pulleys, 2 by 6 inches. Speed, 250 revolutions per minute..... **$9.70**

Sets of Drills for Post Drills

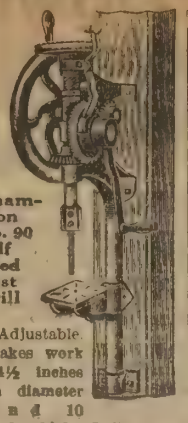
Set of 4 Cleveland drills, ¼, 5/16, ⅜, ½ inch. Shipping weight, per set, 12 ounces.

84 E 1058—Per set..... **$1.30**

Set of 8 Cleveland drills, ⅛, 3/16, ¼, 5/16, ⅜, ½, 5/8, ¾ inch. Shipping weight, per set, 1½ pounds.

84 E 1059—Per set..... **$2.95**

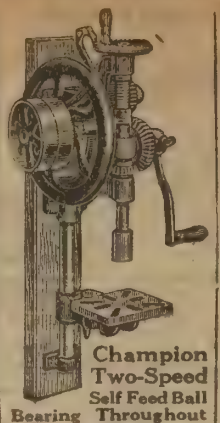
Champion No. 90 Self Feed Post Drill



Adjustable. Takes work 14½ inches in diameter and 10 inches high. Drills holes up to 1 inch. Never-slip Chuck, and easy running ball bearing spindle which save 20 to 50% in power. Diameter of spindle, 1⅛ inches with a run of 3½ inches. Bearings accurately ground from solid metal. No babbitt used. Adjustable crank. Planed, slotted adjustable table. Mounted on heavy plank. Height, 43 inches. With lag screws for fastening to post. Shipping weight, 96 pounds.

184 E 6626..... **$13.90**

Champion Two-Speed Self Feed Ball Bearing Throughout

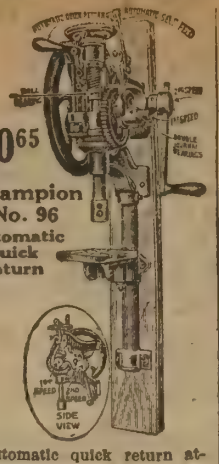


Takes work up to 15 inches in diameter and 10 inches high. Drills holes up to 1¼ inches; ½-inch never-slip chuck. Easy running ball bearing. Spindle diameter, 1⅛ inches; run, 3½ inches. Bearings ground from solid metal; adjustable slotted table. Mounted on heavy plank. With lag screws for fastening. Shipping weights, 117 and 110 pounds.

184 E 6619—With tight and loose pulleys for power. Pulleys, 2 by 6 inches. Speed, 250 r.p.m. **$18.50**

184 E 6620—Without pulleys, for hand use only..... **$14.75**

$20.65 Champion No. 96 Automatic Quick Return

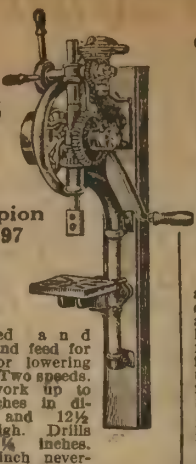


Automatic quick return attachment draws bit out of work quickly. Speed ratios, 1.53 to 1 and 3.5 to 1.

Takes work, 15½ inches in diameter and 9¾ inches high. Drills holes up to 1½ inches. Has ½-inch never-slip chuck. Has easy-running, ball bearing spindle, diameter 1⅛ inches; run, 3 inches. Bearings ground from solid metal. Smooth gears. Adjustable crank and slotted table. Mounted on heavy plank. Total height, 46 inches. With lag screws for fastening to post. Shipping weight, 130 pounds.

184 E 6634..... **$20.65**

$23.95 Champion No. 97 Heavy Duty Power Drill



Self-feed and wheel hand feed for raising or lowering drill bit. Two speeds. Takes work up to 16½ inches in diameter and 12½ inches high. Drills holes 1¼ inches. Has ½-inch never-slip chuck with ball thrust bearing. Diameter of spindle, 1⅛ inches; with a run of 5½ inches. Smooth gears. Adjustable slotted table. Mounted on heavy plank, height, 50 inches.

184 E 6638 — Tight and loose pulleys for power. Size, 6 by 2-inch face. Speed, 250 revolutions per minute. With lag screws for fastening to post. Ship. weight, 184 lbs.. **$26.75**

184 E 6639—For hand use with adjustable crank. No pulleys. Lag screws for fastening to post are included. Ship. weight, 175 pounds.. **$23.95**

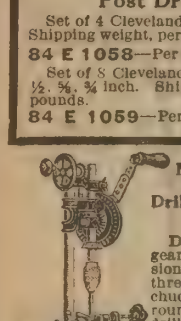
Champion No. 7 Two-Speed Self Feed Post Drill $41.90

Adjustable; quick acting lever feed for reaming, countersinking, wood boring and similar work. Serves also as quick return for drill. Speed ratio 2.4 to 1 and 8 to 1. Takes work up to 21 inches in diameter and 19 inches high. Has ⅝-inch chuck. Ball thrust bearing. Diameter spindle, 1½ inches run, 5½ inches. Drills holes up to 1½ inches. Solid ground bearings. Machine cut gears. Total height, 65 inches.

184 E 6644—With tight and loose pulleys for power. Size, 11 by 2½-inch face. Speed, 80 revolutions per minute. Crank and lag screws for fastening to post are included. Shipping weight, 4... pounds..... **$46.5**

184 E 6645—With adjustable crank; no pulleys. Lag screws included. Shipping weight, 430 pounds.. **$41.9**

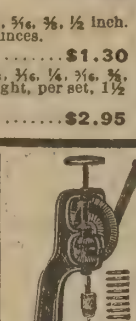
Miller Falls Drill Press



Double gears, extension handle, three-jawed chuck, taking round shank drills up to ½ inch. Bench clamp vise rest and frame all clamped to main standard and fully adjustable. Total height, 24 inches. Vise hung off center giving variety of positions. With hand clamp for fastening to bench. Shipping weight, 30 pounds.

484 E 6674..... **$11.75**

Goodell-Pratt Bench Drill



Iron frame, cut gears. Two easily shifted speeds. Steel feed screw. Adjustable table. 18 inches high. Eight fluted drill bits. Three-jawed chuck, capacity 0 to ⅜ in. With hand clamp for fastening to bench. Shipping weight, 22 pounds.

484 E 6662.... **$8.98**

Bench Drill Vise

Drill Vise. Used in place of table. Jaws open 2 inches. Shipping weight, 4½ pounds.

84 E 6663... **$2.45**

Champion Power Bench Drill

Sensitive Drill for light and rapid drilling. Belt driven. Cone pulleys for two speeds. Belt shifter. Adjustable spindle stop. End thrust ball bearing. Three-jawed chuck holds drills up to ½ in. Tight and loose pulley, 4 by 1½ inches. Table 8 inches diameter. Speed of drive pulley, 550 revolutions per minute. Height, 27½ inches. With lag screws for fastening to bench. Shipping weight, 72 pounds.

184 E 6675..... **$24.90**

Special Forge Bargain

A Strong High Grade Gear Driven Forge at Less Than Most Dealers Pay for Forges of Equal Quality

$8.90

Hood Style

By going to large factories during the dull season and buying thousands of these Forges, we can offer you this unusual bargain at a price much less than you would usually pay.

Much time is lost by taking repairs to distant points and you might just as well make your own repairs right in your own shop. The time saved mending one break during the harvest season will more than pay the low cost of one of these forges.

This forge is large enough to handle all ordinary repairs, yet it is easily moved from place to place. The diameter of the hearth is 18 inches. Blower is driven with helical gears, cut from high carbon steel, which insures smooth running and noiseless operation. It produces a strong, steady, hot blast which enters the hearth direct. Nothing to get out of order or cause trouble. Blower crank is placed at a convenient height to do away with stooping—a big advantage. Gear case is oil and dust proof. Burns soft coal, coke or charcoal. Forge is made either with hood or shield. Suitable for farm shops, garages and repair shops.

$7.90

Shield Style

184 E 6518—Forge with sheet steel hood. Total height, 51 inches. Diameter of hearth, 18 inches. Shipping weight, 80 pounds. **$8.90**

Champion High Grade Gear-Driven Forge

A very strong, compact, well constructed Forge. High grade gear driven blower with 8-inch fan. This type of blower gives constant blast and crank may be turned either forward or backward. Gears are finest grade steel, machine cut. There are fewer parts to this forge than to the ordinary pump lever type. Hearth is of extra heavy steel, 19 inches by 15 inches by 2¾ inches deep. The three legs are made of steel pipe, and securely braced. The entire f is nicely painted.

Genuine Champion Eureka Forge

For Blacksmiths and Large Repair Shops

$11.95

Many shops have work which requires a larger, heavier Forge. This Champion Forge with its big 22-inch hearth and 8-inch blower fan will heat 3-inch round iron to a white heat in less than ten minutes, or a plowshare in two minutes. It is smooth running and practically noiseless, due to the helical cut gears, enclosed in a dust and oil proof case. The gear ratio gives 48 revolutions of the fan to one turn of the crank, making a strong steady blast. Burns soft coal, coke or charcoal. Three strong pipe legs hold the forge rigid. The blower is placed at just the right height for the average man to operate it comfortably. Made in two styles, with hood and with shield.

$10.95

184 E 6507—Champion No. 148 Forge with heavy sheet steel hood. Total height, 54 inches. Shipping weight, 90 pounds.....**$11.95**

Oxy-Acetylene Welding Outfit

Complete High Grade Portable Outfit for Welding or Cutting

At Extremely Low Cost

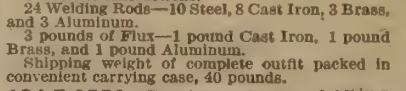
The Lakeside Welding Outfit is indispensable for blacksmiths, sheetmetal workers, plumbers, and farmers who do their own repair work. Also for use in garages, repair shops, sawmills, junk yards, and factories. At this low price you get a welding outfit capable of welding any metal from the lightest up to the heaviest.

It also will remove carbon from a gasoline engine in a few minutes. For cutting steel up to 2 inches thick use Cutting Tip No. 84 E 6552 (below) with this set.

Set consists of the following:
1 Lakeside Welding Torch, 6 welding tips.
1 Carbon Removing Torch.
1 Safety Torch Lighter.
1 Oxygen Regulator with one 3,000-pound gauge and one 300-pound gauge.
1 Acetylene Regulator with one 300-pound gauge and one 50-pound gauge.
2 lengths of 5-ply Hose (12 feet each), with 4 Hose Clamps to fit.
1 Adapter.
1 Pair of Welding Goggles.
1 Book of Instructions.
24 Welding Rods—10 Steel, 8 Cast Iron, 3 Brass, and 3 Aluminum.
3 pounds of Flux—1 pound Cast Iron, 1 pound Brass, and 1 pound Aluminum.

Shipping weight of complete outfit packed in convenient carrying case, 40 pounds.

184 E 6550—Complete outfit.....**$45.75**



Lakeside Cutting Torch

One of the most efficient cutting torches manufactured. Cuts steel from the thinnest up to 8 inches in thickness. Furnished with 3 cutting tips, packed in box. Shipping weight, 6 pounds.

84 E 6554.....**$21.00**

Lakeside Cutting Tip

May be used with 184 E 6550 outfits. Will cut steel up to 2 inches thick. Shipping weight, 5 ounces.

84 E 6552.....**$4.75**

Lakeside Welding Flux

For cast iron, brass, or aluminum. **State kind wanted.** Airtight containers. Shipping weight, 18 ounces.

Rigidly Constructed Power Grindstone

May Be Used for All Grinding or Sharpening

$8.95

An excellent Grindstone for garage, farm or shop, especially valuable in butcher shops or other places where fine edge tools are sharpened. Best quality Ohio grindstone runs in water and will not burn too while being sharpened.

Well made, durable frame of 1½ by 1½-inch angle iron, ⅛ inch thick. Legs have double crossed braces which give rigidity to frame. Legs split at bottom and drilled to take lag screws or bolts for fastening grindstone to floor. Shaft runs on ball bearings, thus reducing wear. Pan or trough of heavy galvanized iron. Steel shaft with pulley, 6 inches in diameter and 3 inches wide. Wheel, 22 by 2½ inches of high quality, fine, even grit. This style grindstone will not burn thin or fine edged tools and can therefore be more generally used than emery or corundum. Especially adapted to sharpening thin knives, ensilage cutter knives, scythes, etc. Total height, 40 inches. Shipping weight, 144 pounds.

184 E 6785.....**$8.95**

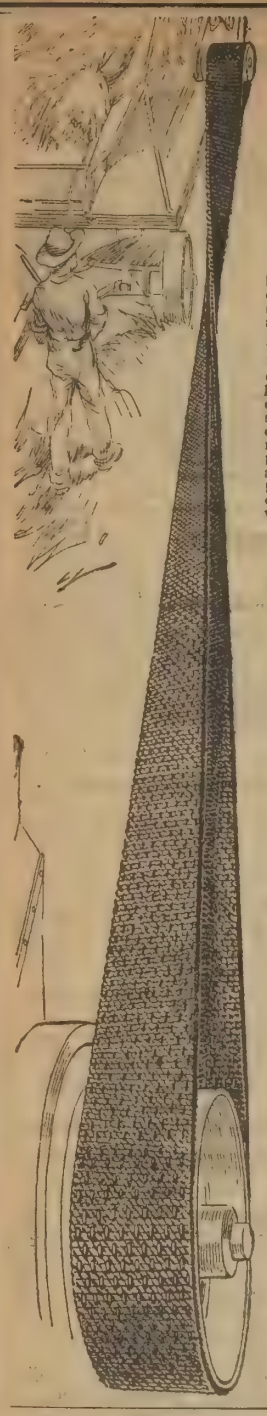
Canvas—Belting—Leather



8¢ A Foot Canvas Belting — Red Stitched

Our Stitched Canvas Belting is not affected by atmospheric changes or injured by water or steam, and may be subjected to a degree of heat that would be ruinous to many other kinds of belting. It is therefore the best belting for outdoor use and for damp or hot places. Made of long fiber selected cotton duck, carefully and closely stitched, stretched and inspected. Thoroughly saturated in oil, which makes it permanently water proof and flexible. Covered with a special waterproofing compound which gives the belt an excellent non-slipping surface. Always flexible in hot or cold weather.

Endless Canvas Thresher Belts

Made in the same manner as our red stitched canvas belting of long fiber selected cotton duck. Especially adapted for threshers, saw mills, stone crushers and similar severe uses. It requires three feet to make the lap, therefore in measuring, each belt will be just three feet short. For example, the actual net length of a 100-foot belt will be 97 feet. We carry in stock for prompt shipment, the following standard lengths and sizes. Shipping weight, per foot, 6-inch, 11 ounces; 7-inch, 12 ounces; 8-inch, 14 ounces.

184 E 7700—Four-Ply Belts.

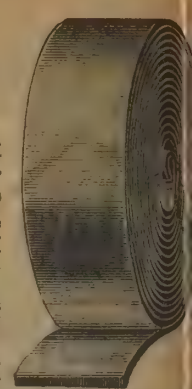
8¢ A Foot Durable Leather Belting



Standard Grade is of medium quality and will give satisfaction. For ordinary mill, factory and farm machinery.

Extra Standard Grade is made from select, short lap, oak tanned stock, cut from the center of the hide. Recommended for thresher belts, high-speed pulleys, and for hard factory or mill usage.

If belts are wanted endless, state actual length of belt wanted after spliced, and allow price of 3 feet of belt extra for lap and labor of splicing.

Notice—In very damp or wet places, use rubber or stitched canvas belting.

84 E 7704—Standard Grade. Ship. wt., per foot, 5 to 10 ounces.

84 E 7705—Extra Standard Grade. Ship. wt., per foot, 5 to 18 ounces.

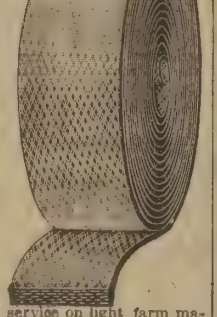
Rubber Belting

5¢ A Foot Standard Grade

Ward's Standard Grade Rubber Belting is of high quality and made to give long service on light work. The layers of duck are heavier than those in the ordinary standard grade belt. The rubber used in cover and between layers is of fine quality. Canvas layers and cover are vulcanised together by the latest process which prevents internal wear and holds layers firmly together.



This belt will give excellent service on light farm machinery such as gas engines, cream separators, washing machines, or where the pull is not too heavy. It is not suitable for Endless Thresher Belts.

84 E 7680—2-Ply. Ship. weight, foot, 5 to 9 ounces.

84 E 7681—3-Ply. Ship. weight, foot, 8 to 18 ounces.

Rubber Belting

Extra Standard Grade

6¢ A Foot

This belting is made of strong, long fiber, 28 ounce cotton duck layers vulcanized together, thus preventing internal wear. Highest quality rubber is used in both cover and between layers. The cover is made by a new process giving it a friction surface which prevents slipping and lengthens the life of belt. This belting will give long, reliable wear and is suitable for any kind of hard service on conveyors or power transmission lines.

Red Friction Surface Rubber Belting — 19¢ A Foot

Our "Red-Man" brand is the very finest grade of rubber belting. Use this belt for heavy duty, high speeds and on small diameter pulleys. It will get longer, better and more economical service than any other kind of belting. The belting is red in color to distinguish it from ordinary belting and is sold with our full guarantee, to give entire satisfaction under the most severe usage. It is constructed of a tough and closely woven cotton duck, with a high grade friction between the plies and a friction surface which takes hold of the pulleys with a full contact from edge to edge. The friction compound is forced into the fabric under great pressu the plies will not separate, and all the undesirable stretch taken out of the belt.

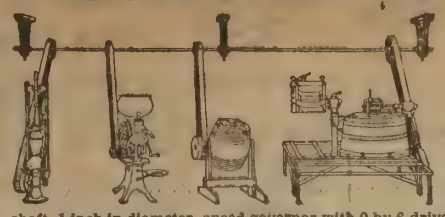
Line Shaft Outfits Complete $23.45



Our Universal Line Shaft Outfit will transmit 2½ horsepower and will drive your cream separator, churn, pump jack and washing machine independent of each other, or all together, at the proper rates of speed, without changing the speed of your engine. With this speed governing line shaft outfit you may run several light machines at various speeds from the same engine or motor. A turn of the hand wheel will stop the shaft while the engine continues running. A turn of the hand wheel in the reverse direction will start the shaft and it will pick up speed gradually. Each outfit consists of shaft, 1 inch in diameter, speed governor with 9 by 6 drive pulley; one 4 by 3; one 6 by 2½ and one 8 by 2½-inch pulley; all mounted on a substantial 2-inch plank and supported by three hangers. Grease cups provide lubrication. Shaft may be driven at a speed of from 200 to 300 revolutions per minute. Speed of pulleys may be varied from 50 to 300 revolutions per minute. Belt not included. Shipping weights, 110 to 125 pounds.

184 E 7600— 6-foot Line Shaft Outfit $23.45
184 E 7601— 8-foot Line Shaft Outfit 24.50
184 E 7602—12-foot Line Shaft Outfit 30.00

Protect Your Home!

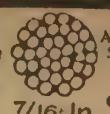
Lightning Rods

Complete Instructions with each Ajax outfit tell exactly how to put up the rods. Anyone can do a good job.

A Complete Outfit—Easy to Put Up

THE TIME to put up lightning rods is before the lightning strikes! Don't wait until someone in your neighborhood suffers; it could be your barn or your home instead of a neighbor's. From now on, let yourself and your family enjoy the deep satisfaction of knowing beyond doubt that your home and your buildings are safe from the danger of lightning. An Ajax outfit costs almost nothing compared to the protection it gives, and it outlasts the building it protects. Our prices save you a lot of money to begin with, and by putting the rods up yourself you save again and know the job is done right. The plain directions we send tell you exactly what to do and how to do it—just a few hours of easy interesting work and the job is done. Order your rods now. Then, everytime a thunderstorm breaks, you'll be glad for the real protection of an Ajax outfit on each of your important buildings.

How to Measure and Order—Run a stout cord up one corner of the building and along the gable to the ridge—then along the ridges to all points where uprights are to be placed—and down on the opposite corner of the building. Cord may be tacked every few feet with staples then pulled out when measured. Allow enough to connect to everything of metal on or near the roof such as gutters and cornices. Allow 10 feet extra at each end for grounding. Uprights must be placed not more than 20 feet apart and on all high points such as chimneys, cupolas and gables. Order cable, uprights, chimney tops, and (if needed) cable connectors. We include **solid copper** clips and screws free.



Actual Sizes of Ajax Cable

Ajax Lightning Rod Cable 99% Pure Copper 9½¢ A Foot

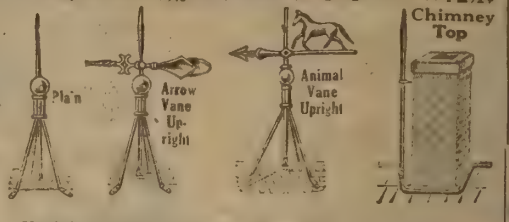
32 Wires

An electric current always travels, on the surface of the conductor. That is why woven lightning rod cable is better than tubing or any solid wire. Our full size cable with its 32 wires has as much copper surface as one solid wire 1½ inches in diameter. We guarantee our Ajax cable to be 99 per cent pure copper. Cable may be ordered in any length up to 1000 feet. We include **solid copper** clips and screws for fastening every 3 feet.

484 E 4950—Full size, 7/16-inch, 32 wires, 17 gauge. Per foot..... 9½¢
484 E 4951—For large buildings; 9/16-inch, 44 wires, 17 gauge. Per foot 12½¢

Uprights

Each upright, except chimney top, has three extra long galvanized braces, 5-foot all copper rod and silvered tip. We include T-clamp for attaching to cable and screws for fastening braces to roof.



Uprights with Ornamental Glass Balls

COLORS: Opal; blue; ruby; silver, or gold. **State color of ball wanted.**

84 E 4958—Plain upright (with ball as illustrated)..... $1.50
84 E 4960—Arrow Vane upright; arrow in gilt, vane to match ball.... 2.35
84 E 4962—Animal Vane upright; horse, cow or rooster (State choice). 3.25

Uprights without Ornamental Glass Balls

84 E 4959—Plain upright (same as illustrated, without ball)..... 1.16
84 E 4964—Chimney Top (used where 5-foot uprights do not reach 1½ feet above chimney). Eyebolt and T-clamp included, 6-foot, 98¢; 8-foot, $1.35; 10-foot, $1.65.

Shipping weight of complete Ajax Lightning Rod Outfit, including cable, uprights, connectors, clips and screws, about 1 to 1½ pounds per foot of cable.

FREE

We include solid copper clips and screws for attaching cable every 3 feet.

Cable Connectors

Lakeside Pneumatic Tanks

Lakeside Pneumatic Tanks made of 7/16-inch sheet steel, with 5/16-inch heads. Horizontal seams are double riveted, air tight and very strong. Tappings arranged for the tank to stand vertically or lie horizontally. Vertically, water gauge tappings are placed on side. Horizontally, in the concave head. **State which style tapping is wanted.** For Tanks with manholes in heads, add $10.50 extra.

Our steel pneumatic tanks listed below are absolutely dependable for working pressure of 75 pounds. Tested at 125 pounds. Capacity is about one-half more than working capacity. Tank prices subject to market changes; we always refund difference if prices decline.

Windsor Centrifugal Pump

For irrigation, drainage and contractors' use. Used extensively for drainage and irrigation service and other work where a moderate lift of a large volume of water is desired. Recommended for all service where the total head does not exceed 65 feet and where the pump can be placed not more than 20 feet from the surface of the water. Large pulley, supported on either side by long bearings is provided with grease cups. Extra long packing gland with grease cup reduces friction in the stuffing box to a minimum. Complete instruction booklet with each pump.

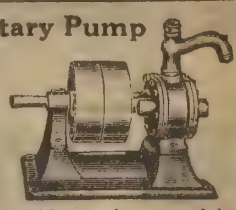
Shipped from Northern Indiana

Windsor Rotary Pump



Sizes, 1, 2, and 3 have a 10 by 3-inch pulley. Sizes, 4 and 5 have a 12 by 3½-inch pulley. Everything is easily accessible. The base is high with the end open, allowing for pipe fitting without disconnecting the pump or moving the base. A pipe flange which may be removed by simply loosening two set screws and giving it a half-turn is used to connect the suction pipe. The pump gears are machine cut, quiet and smooth running.

Long Bearings are provided in the flange housing. Instead of the ends of the bearings being sealed with lead, the flanges are cast solid on bearing ends. This assures non-leaking from end of shaft.

Independent Side Plates are used so it is necessary to remove the plates only in case of wear. Used for irrigation and fire protection. Moves a large volume of water with a minimum of power. For pumping acids, bronze pumps should be used, and metal valves when used for hot liquid. Shipping weights, 80 to 160 pounds.

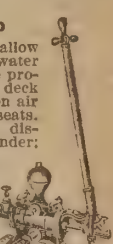
Thresher Tank Pump
With Strainer

An efficient double acting force Pump of large capacity intended for filling thresher wagon tanks for water supply, draining cellars or for general service. The waterways are large and direct, the valves are of metal, leather faced. Capacity, 2,000 gallons an hour at 40 strokes per minute.

Diameter of cylinder, 5 inches. Stroke, 5 inches. Suction size, 2 inches. Discharge, 2 inches at pump, and 1 inch at tip for 1-inch hose connection. Spout reversible. With handle, hose connection and strainer. Hose not included. Shipping weight, 87 pounds.

181 E 5925.....$10.45



Horizontal Force Pump

For pumping water from cisterns, shallow wells, to elevated tanks, pneumatic water supply systems, also adapted for fire protection, filling boilers and as a deck pump. Has geared drive and cushion air chamber, brass piston rod and valve seats. Has 1¼-inch intake and 1-inch discharge. Brass lined, 3-inch cylinder; stroke, 4 inches. Length over all, 24 inches. Geared drive, very easy operating. Pumps sufficient amount of air with each stroke to maintain the proper pressure in the tank. Capacity, 4 gallons per minute. Mounted on board base, 7½ by 24 inches.

181 E 5938—With air attachment. Shipping weight, 60 pounds $15.45

181 E 5937—Same as above, without air attachment. Shipping weight, 58 pounds.....$13.30

Automatic Hydraulic Ram

For a continuous automatic water supply where you have a stream or pond, send for our Circular on Rams which gives prices, specifications and instructions.

Injector Model X

Will start instantly after interruption to steam or water supply. Will start at 20 pounds, and work to 120 pounds. Will lift water 20 feet with 80 pounds of steam, and will handle hot water as hot as 130° F. Takes same pipe connections as U. S., Penberthy and other injectors of this type. Shipping weights, 3 to 9 pounds.

High Quality Lavatories

Ward's Porcelain Enameled Bath Tubs, Lavatories and Sinks shown in this catalogue are of the very best quality manufactured. All our enameled ware is the quality known as "A" Grade. This means that every piece you select is as perfect as it is possible to make it. We do not handle seconds or inferior grades. Our genuine, white porcelain enameled fixtures are perfectly smooth and pure white. Coat after coat of fine white porcelain enamel is fused to the iron at an intense heat until a glistening pure white is obtained. The fittings used are made of high quality brass, heavily nickel plated and highly polished.

Before leaving the factory, each piece is carefully inspected. There is no possibility of this high grade porcelain enamel chipping, cracking or peeling, with ordinary usage. Each piece is backed by Montgomery Ward & Company's ironclad guarantee of—Satisfaction or Your Money Back.

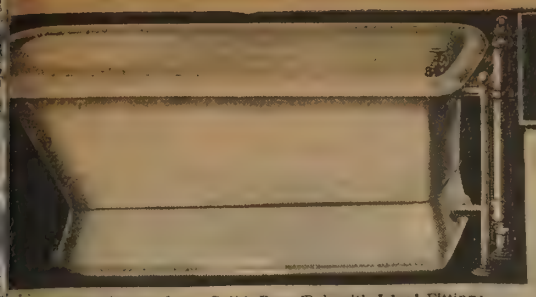
Bath Tubs



Above picture shows Solid Base Tub with **Ideal** Fittings

White Porcelain Enameled **Bath Tubs** are easily kept snowy white. They are made of heavy cast iron with white Porcelain Enamel on the inside and on the roll rim. Height, to top of rim, 23 inches; width, including rim, 30 inches, depth inside, 17½ inches. Heavy 3-inch roll rim. The above description and dimensions apply to both styles. **Fittings** for either solid base tub shown at left or tub on legs shown at right, are in two styles. Ideal fittings include lifting waste and overflow. Supply pipes to floor and fittings all nickel plated brass. **Regular** fittings have nickel plated connected waste and overflow with chain and rubber stopper. Otherwise same as **Ideal**. Fitted with iron supply and lead waste connection.

For iron waste connection see bottom of Page 658, No. 81 E 6614. Order 1½ by 1⅜ inch size if tub has regular fittings; if **Ideal** order 1½ by 1½ inch.

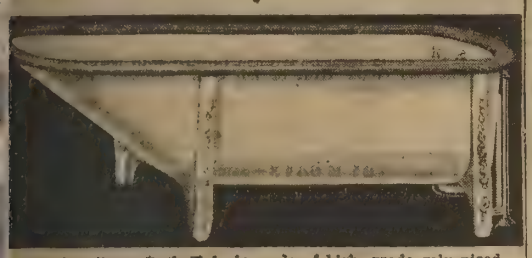
Middleton Heavy Steel Bath Tubs



The Middleton Bath Tub is made of high grade galvanized sheet steel. The inside is finished with a heavy coating of white enamel paint and the outside in blue enamel. A 3-inch oak rim is placed around the top to strengthen the tub and protect the top. The only fittings furnished with the tub are the waste and overflow with a rubber stopper. **Bath Cocks and Supply Pipes are listed below.**

281 E 6420—4½-foot tub. Shipping weight, 75 pounds. **$11.25**

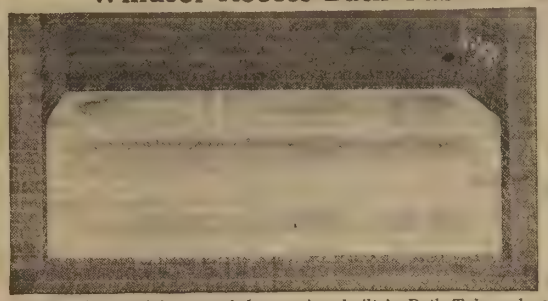
Windsor Recess Bath Tub



High grade porcelain enameled, one-piece built in Bath Tub made of first quality cast iron covered with heavy white porcelain enamel. All fittings are concealed with the exception of the solid china water supply and waste handles. Fittings include 2-inch galvanized waste pipe; ½-inch supply pipes; ¾-inch discharge pipe. Brass over flow tube; strainer and spout; nickel plated. Handles are marked "hot, cold and waste." This tub can only be furnished in the 5-foot length. It is 30 inches wide, 17 inches deep and 17½ inches high from the floor and has a 3½-inch rim. A recess bath tub requires little floor space. **State whether fittings are to be at right or left hand end of tub.** Shipping weight, complete, 550 pounds; tub only, 500 pounds.

181 E 6423—Complete with fittings listed above. **$79.50**

181 E 6431—Tub only, without fittings. **55.50**

Important—All of our cast iron porcelain enameled Bath Tubs are the very best quality manufactured. Our ware is the quality known as "A" grade. This means each piece you select will be as perfect as it is possible to make it.

Windsor Folding Bath Tub

You can have a Bath Tub with hot running water even though you are not provided with plumbing facilities. If you live in the country or away from the sewers and plumbing in your city, you may still have the convenience of a bath tub with running water.

The Windsor Folding Tub does not take much room. When folded it requires only a space about 30 inches square. It is mounted on ball bearing casters making it easy to move from place to place in the home. It is also very convenient for the summer home or camp.

The tub is 5 feet long and 30 inches wide. It is made of heavy sheet steel finished in white enameled paint. Hardwood rim around top. The frame and platform are strongly built of tough steel. Nickeloid heater with heavy galvanized steel lining. Water is heated by copper coils. Furnished with 4-foot rubber hose for draining. **State whether you desire heater to burn gas, kerosene or gasoline.** Soap dish not included.

281 E 6424—Shipping weight, 170 pounds. **$36.95**

Automatic Cesspool Syphon

For use with septic tanks. This syphon works automatically and drains the septic tank at regular intervals. Prevents the constant flooding of the distributing system and permits the liquid to reach all parts of the drainage or aerating line and to soak into the soil before another discharge. Made of cast iron, of simple construction and easily installed. Shipping weight, 210 pounds.

181 E 6829.....**$19.45**

Shipped from Factory in Central Iowa

Bell Trap Cesspool

Cast iron, bell trap Cesspool for drain. Used for drain outlet in cement floors of basements and area ways. Has bell-shaped trap, which prevents escape of sewer gas. Top plate strainer is removable for cleaning. Easily accessible in case of clogging or stoppage. Has 2-inch outlet. Size, 6 by 6 inches. Shipping weight, 4 pounds.

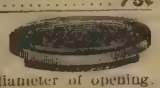
81 E 6738.....**65¢**

Refrigerator Drain

Should be used with every refrigerator. The perforated disc and the trap are removable, making cleaning easy. A water-sealed trap, made when strainer dips into water in the base, effectually prevents odors coming through the drain pipe. Diameter, 7½ inches. Depth, 2½ inches. Outlet threaded for 1¼-inch pipe. Shipping weight, 8 pounds.

81 E 6739.....**75¢**

Iron Cistern Covers



Cast Iron Covers, with rings painted black. For wells, cisterns, and cesspools. Sizes indicate the diameter of opening. Shipping weight, 50 pounds.

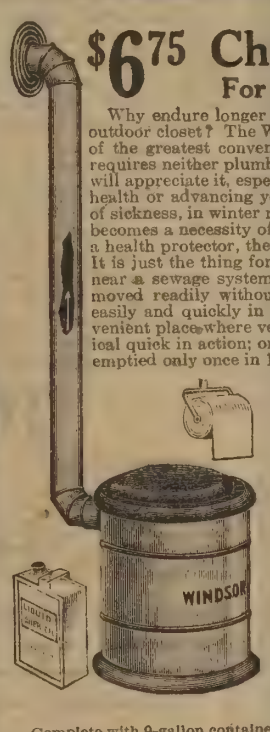
$6.75 Chemical Indoor Closet

For Homes, Schools, Churches, Etc.

Why endure longer the inconvenience and the discomfort of an insanitary outdoor closet? The Windsor Chemical Indoor Closet brings to your home one of the greatest conveniences of the modern bathroom. It is easily installed, requires neither plumbing nor running water. Every member of the household will appreciate it, especially the children and those of family who, because of ill health or advancing years, should be spared unnecessary exposure. In times of sickness, in winter months, on cold rainy nights, the Indoor Chemical Closet becomes a necessity of commanding importance, and because it is sanitary and a health protector, the Windsor is endorsed by Health Authorities everywhere. It is just the thing for schools, churches and other such buildings not located near a sewage system. For those who rent homes it is ideal since it can be moved readily without harming either the closet or the building. Installed easily and quickly in curtained corner of bedroom, clothes closet or any convenient place where ventilator pipe can be connected. Floor is not cut. Chemical quick in action; one gallon, enough for 4 to 6 months, included. Container emptied only once in 10 days to 2 weeks for a family of five. Shipped complete with enameled steel case; mahoganized seat; seven 12-inch pipe lengths; 2 elbows; wall collar and chimney reducer—all enameled to match case. Also paper holder and one roll of paper. Height, 18 inches; diameter, 16 inches. Shipping weight, 40 pounds.



181 E 6440.....**$6.75**

Extra Pipe and Elbows

81 E 6443—Enameled pipe, 12-inch lengths. Shipping weight, per length, ½ pound. Per length.....**30¢**

181 E 6442.....**$15.45**

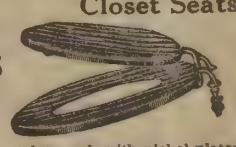
Windsor High Quality Chemical

Windsor Liquid Chemical is the result of many years study of chemicals for chemical closets. After these years of experiments and tests our chemists have produced a liquid chemical which works perfectly in all makes of chemical closets.

Windsor Liquid Chemical is also valuable as an antiseptic spray for chicken and hog houses or for horse and dairy barns. It may be used with equally satisfactory results as a hog dip. Shipping weight, per gallon, 10 pounds. **Not mailable.**

181 E 6441—1-gallon can.....**$1.35**

Closet Seats



$2.95 **Standard Size**

Three styles, each with nickel plated brass bar hinge. Carefully shaped and smoothly finished. These seats fit any standard closet bowl. Shipping weight, 14 pounds.

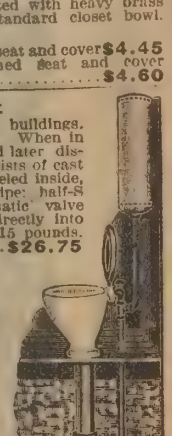
481 E 6487—Solid golden oak seat and cover**$2.95**
481 E 6488—Mahogany finish seat and cover **3.10**
481 E 6495—All white, celluloid covered seat and cover. Finest made.....**$6.95**

Five Year Guarantee Closet Seats

If this Closet Seat or Cover proves defective within 5 years, we will replace it free of charge. It is rigidly constructed of hard wood and fitted with heavy brass nickel plated hinges. Fits any standard closet bowl. Shipping weight, 16 pounds.

481 E 6490—Solid golden oak seat and cover**$4.45**
481 E 6491—Mahogany finished seat and cover **$4.60**

Frostproof Closet



For installation in unheated buildings. Automatic and positive flushing. When in use, water is admitted to tank and later discharged to flush the bowl. Consists of cast iron bowl, white porcelain enameled inside, painted outside; 2½ feet of soil pipe; half-S trap, pressure tank and automatic valve mechanism. May be calked directly into soil pipe hub. Shipping weight, 115 pounds.

181 E 6453.....**$26.75**

Rubber Ball Float Valve

For closet tanks. Made of a grade of rubber that will last indefinitely. Furnished complete with pull wire for ball. Shipping weight, all sizes, 9 ounces.

81 E 6481—**State size.**

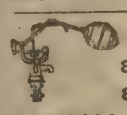
Ball Cock



Shipping weight, 1¼ pounds.

81 E 6482—
For low tank, with refills.....**$1.90**

81 E 6485—
For high tank, top supply.....**2.10**

81 E 6486—High tank, bottom supply.....**1.85**
81 E 6501—Compound lever elevated wall cock for low tank.....**$2.25**

Standard Long Lead S Trap

The outlet is fitted with brass bushing for connection to standard threaded iron pipe. Brass cleanout screw in bottom.

Size	Ship. Wt.	481 E 5876
1¼ in.	4½ lbs.	$2.20
1½ in.	7 lbs.	3.05

Same as above, except without brass bushing.

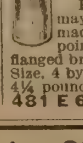
Size	Ship. Wt.	481 E 6872
1¼ inch	4 pounds	$1.55
1½ inch	6 pounds	2.25

Standard Lead Bath Trap

Used for waste connection from bath tubs. Size, 4 by 9 inches. Nickel plated flanged brass cover sets flush on floor. Fitted with brass nipples for iron pipe.

Size	Ship.Wt.	481 E 6885
1¼ inch	6 pounds	$6.25
1½ inch	6 pounds	6.55

Standard Plain Lead Bath Trap



For lead pipe work. Holes may be cut and connections made on the job at whatever points desired. Nickel plated flanged brass cover sets flush on floor. Size, 4 by 9 inches. Shipping weight, 4¼ pounds.

481 E 6887.....**$3.85**

Standard Lead P Trap

Same as 481 E 6876 at left, except in shape. With bushings.

Size	Ship. Wt.	481 E 6866
1¼ in.	2½ pounds	$1.50
1½ in.	4 pounds	2.05

Without Bushing

Size	Ship. Wt.	481 E 6867
1¼ in.	4½ pounds	$ .85
1½ in.	7 pounds	1.25

Standard Short Lead S Trap

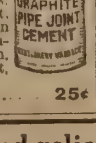
Same as 181 E 6876 at left except shape. With bushings.

Size	Ship. Wt.	481 E 6863
1¼ inch	3 pounds	$1.65
1½ inch	5 pounds	2.30

Without Bushings

Size	Ship. Wt.	481 E 6864
1¼ inch	2¾ pounds	$ .95
1½ inch	4 pounds	1.50

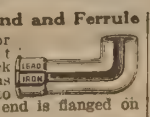
Pipe Joint Cement



For making tight joints. Preserves threads from rust. Allows pipes to be taken apart easily years after installation. Contents of can, 1 pound. Shipping weight, per can, 18 ounces.

81 E 5608—Per can.....**25¢**

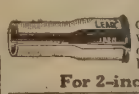
Combination Bend and Ferrule



Lead and iron. For connecting closet bowl to soil pipe stack where soil pipe runs in wall. Calks into soil pipe and lead end is flanged on floor.

Size	Ship. Wt.	481 E 6850
4x12 in.	18 lbs.	$3.65
4x14 in.	18 lbs.	4.00
4x18 in.	20 lbs.	4.65

Combination Ferrule



For connecting closet to soil pipe where soil pipe runs directly beneath bowl.

For 2-inch Soil Pipe

Number	Size, In.	Ship. Wt.	Each
81 E 6844	1¼x 6	3 lbs.	$ .72
81 E 6845	1½x 6	3½ lbs.	.75
81 E 6846	2 x10	4½ lbs.	1.10

For 4-inch Soil Pipe

481 E 6847	4x12	9 lbs.	$2.35

Brass Ferrule

For connecting lead waste pipe to cast iron soil pipe. Shipping weight, 1½ lbs.

81 E 6840

Size, 2 by 3¾ inches.....**45¢**
Size, 4 by 4 inches.....**85¢**

81 E 6839—Cast iron drive ferrule. Is used as shown in picture of combination ferrule. 4 inches only. Each.....**30¢**

Lead Wool

For calking joints in soil pipe, water and gas mains. No melting, ready to use. Makes an absolutely tight joint, which will not leak.

81 E 5601—
Per pound.....**19¢**

Prices for All Lead Goods Subject to Market Changes

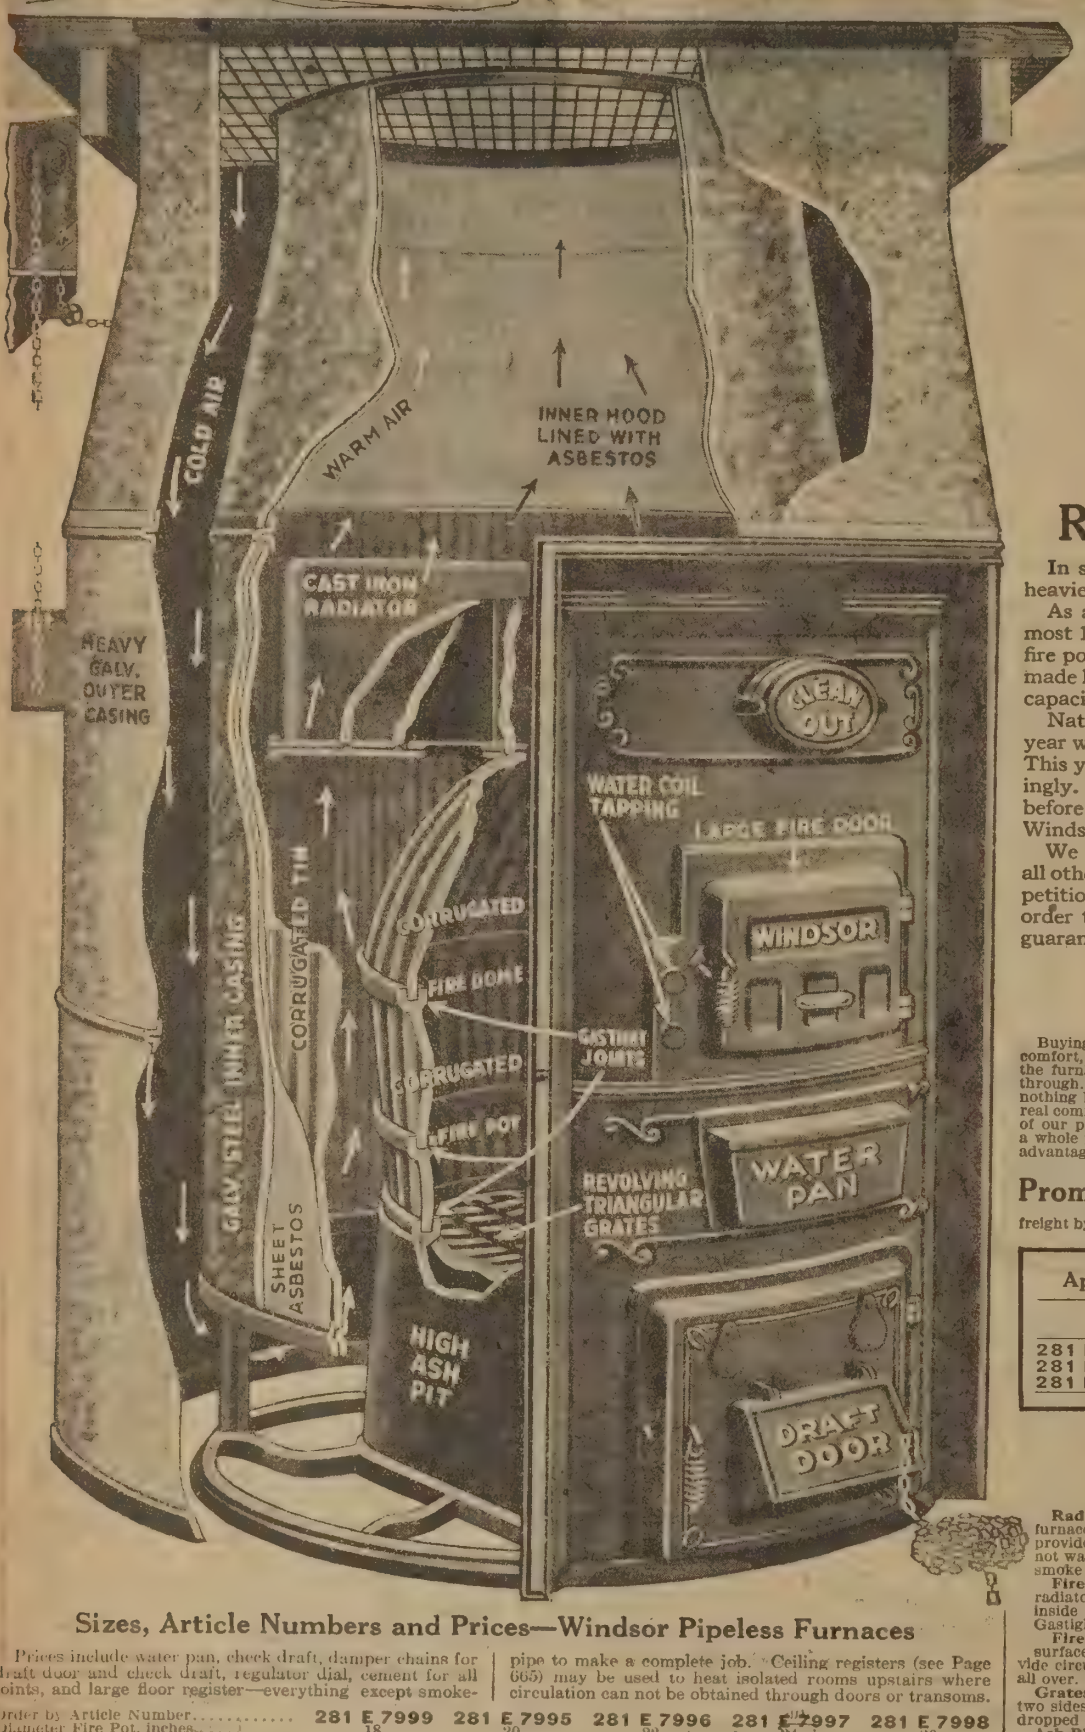
A Bigger, Heavier Pipeless Furnace At No Advance in Price



Windsor Pipeless Furnace Extra Heavy

$65.00

5-Room Size

Read That Headline Again!

In spite of the rise in metal prices we offer you here a bigg heavier Furnace than ever before—and **at no advance in pri**

As an example, the new 20-inch Improved Windsor weighs most 100 pounds more—other sizes are heavier in proportion. T fire pot, fire dome, radiator, ash pit; in fact, all castings have be made heavier—just where the extra weight will give greater heati capacity, greater fuel economy, and add extra years of life.

Naturally, you wonder how we do it. Here is the answer: L year we sold more pipeless furnaces than ever before in our histo This year we are working to beat that record. We bought accor ingly. And because we had so many furnaces manufactured for before steel costs advanced, we can give you this new Improv Windsor—a bigger and heavier furnace—at no advance in pric

We urge you to compare the Improved Windsor with any a all other pipeless furnaces; and when comparing, see also our Co petition Pipeless Furnace on the bottom of Page 665. Then you w order this new Windsor—under the complete protection of o guarantee—and **get the biggest furnace value we ever offere**

10 Months to Pay —No Interest

Buying a furnace is not a luxury in any sense. From the standpoints of health comfort, it is a necessity—one of the best investments the home owner can make. the furnace heated home you can live—really live—in the whole house all wi through. No more coal, wood and ashes to clutter up the rooms; no dust filled a nothing but clean, healthful heat. Order your furnace now—look ahead to winter real comfort. You need not wait until you have the full purchase price. Take advan of our present very low prices and easy terms—no interest—10 full months, alm a whole year, to pay. And as you pay a small amount each month you enjoy all advantages of a furnace heated home.

Prompt Shipment At our six big warehouses we carry thousand furnaces in stock at all times and can make immedi shipment of your order. In addition, we save freight by making shipment from the warehouse nearest you.

Article Number	Shipping Weight	150 Miles	300 Miles	500 Miles
281 E 7999—18-inch Pipeless	900 lbs.	$4.45	$6.50	$ 8.00
281 E 7995—20-inch Pipeless	1000 lbs.	5.60	8.15	10.00
281 E 7996—22-inch Pipeless	1250 lbs.	6.25	9.10	11.20

These Specifications Show Why the Windsor Is Best

Radiator—Extra heavy and 3 to 5 inches larger in diameter than on an avera furnace of same size. This extra size not only gives a greater radiating surface b provides an extra large air heating trap over the fire dome. Made of cast iron—s not warp. Horseshoe shape and smoke must make complete circuit before reach smoke pipe—no heat is wasted in the Windsor.

Fire Dome—Made high and dome shape so all gases will burn before ente radiator. Deep corrugations inside and out provide larger surface to take up h inside of dome; also larger surface to radiate heat on outside to air heating ch Gastight joint between fire dome and fire pot.

Fire Pot—Here again deeper corrugations inside and outside increase the radia surface and add strength and life to the fire pot. Being deep, the corrugations p vide circulation of air to burning fuel around outer edge of fire pot—fire burns e all over. Cup joints are gastight.

Grates—Heavy triangular bars; shake in pairs. Last longer than flat grates becau two sides of each bar are exposed to air and one side to fire. Front of grates may dropped allowing clinkers to slide off.

Ash Pit—Extra deep and large—will hold more ashes without interfering with dra Full width door makes removal of ashes easier.

Draft Door—Extra large to admit plenty of air for heavy firing.

Fire Door—Large for each size of furnace. Easy to feed—large chunks of coa wood go in nicely, a convenience you are sure to appreciate.

Water Pan—Insures moist healthful air. Placed in front where furnace is hott Easy to reach and made large to require less filling.

Leakproof—All joints are cup type and gastight. It is impossible for gases to re living quarters. All doors ground smooth and fit closely insuring positive contro draft. Windsor Furnaces hold fire longer and use less fuel because of this better c struction and improved design.

Casings—Made of standard weight galvanized iron. Vegetables may be stored basement with furnace because inner casing is asbestos lined—heat can not esc Inner casing also lined with deeply corrugated tin to reflect heat so all heat is car by rising air into rooms above.

Height—All Windsor Pipeless Furnaces are made with adjustable hoods and ma adjusted to reach register 8 feet above basement floor.

Sizes, Article Numbers and Prices—Windsor Pipeless Furnaces

Prices include water pan, check draft, damper chains for draft door and check draft, regulator dial, cement for all joints, and large floor register—everything except smoke-pipe to make a complete job. Ceiling registers (see Page 665) may be used to heat isolated rooms upstairs where circulation can not be obtained through doors or transoms.

Don't Buy a Size Too Small!

The heating capacities shown in the table are conservative, being based on a slow burning fire, using hard coal, in zero weather. For soft coal, we recommend one size larger, and two sizes larger if you intend to use wood. Make extra allowance if your house is hard to heat and if temperature falls below zero. It always is better to order a larger furnace than is actually required as it need no be fired so hard and will last longer. If you have any doubt as to the right size t order, send for our Heating Blank and our Engineering Department will figure the size you should use.

Well made Coal Shovels are shown on Page 644

Windsor Pipeless Furnace Gives More Heat From Less Fuel

O heating system ever designed will deliver more heat from the fuel than the Windsor Pipeless Furnace. The design he fire pot, the size and shape of the fire ne, and the extra large horseshoe radiator ire complete combustion of the fuel and es. The smoke from a Windsor Pipeless nace is a light gray color, almost invisi- when fired according to instructions. nd best of all, every bit of the heat is ivered immediately into the living rooms one of it escapes into the basement. So ient is the Windsor Pipeless Furnace t you can heat your whole house—every m upstairs and down—with but little re fuel than you must use in one heater eat just one room. This alone makes the ndsor one of the best investments you ld make. Now, consider these advanes.—The furnace stays up the year und, always out of the way. Puts an end the dirt and nuisance of setting up and ing down stoves twice every year. —More space in the living rooms and only one fire to look after—no hot stove for playful children to fall against. —Fuel down in the basement—no coal or wood to clutter up the living rooms. No smoke, gas or ash filled air to breathe. No ashes to carry out over the rugs.—Wall paper and furnishings stay clean longer, varnished surfaces do not soil, chip or check—less housecleaning to do.—Every room warm, hot water, too—day and night if you want it. Think of dressing in a warm room, and shaving in comfort without waiting to heat water.—Basement always cool enough for safe storage of fruit and vegetables, yet comfortable for laundry or workshop.—Healthful ventilation assured; air circulation automatically provided—a positive assurance of better health.—Costs but little more to buy or use than a good heating stove; requires the least attention of any heating system, and outlasts the building it heats.

Windsor Owners Write Us Interesting Letters

(We Never Print a Letter Without the Customer's Permission)

t would take many pages of this catalogue to print the hundreds of letters that delighted Windsor ers have written us. Some of them are printed below. You will find them interesting, and as you read m, picture in your own mind the cozy, pleasant homes in which the letters were written.

° Below—Keeps House Plants in Sun Parlor

We heat our 8-room house evenly well. Four of the rooms are in second story, two of them being parlors with 14 windows in the rooms. We had a very severe ter from zero to 30 below and I house plants in the sun parlor dows the entire winter with no m windows and they did not se."

T. B. Johnson,
Endeavor, Wisconsin.

Vife and I Set Ours Up"

It is an easy furnace to regulate, ing all the heat possible out of the . My wife and I set ours up in a hours. I saved at least $50.00 on purchase."

E. A. Eaton,
Bath, New York.

Looked at Many— hen Bought a Windsor

The 20-inch Windsor Pipeless nace I purchased from you has en me entire satisfaction. Plenty heat any place in my 6-room, 2- ry house. Before buying, I looked different makes of furnaces and nd I could save $65.00 to $90.00 by ing a Windsor which is of better terial and weight."

Charles G. Moots,
Nelson, Illinois.

Buys His Third Windsor

"I have been a satisfied customer of yours for 26 years. Bought one of your Pipeless Furnaces last year, one the year previous, and now am ordering a third for a friend of mine. I get more than double the heat out of the same tonnage of coal. Before I got the furnace, I simply used up coal and was freezing, now I have solid comfort."

Joseph Bernst,
Elmsford, New York.

Basement Stays Cool

"I put in a Windsor Pipeless Furnace in the Fall of 1921. It does not take as much fuel as I used in the stoves. Heats the house fine and is no trouble to keep fire. Does not heat up the basement at all; my potatoes and fruit keep fine."

James Fisher,
Sheffield, Illinois.

28° Below—Upstairs Warm

"We have eleven rooms in our house; eight rooms on the main floor and three upstairs. Last winter, the temperature outside was as low as 28 degrees below zero and at all times each room was perfectly comfortable. We used about the same amount of coal in the furnace that we used the winter before in a heating stove."

W. T. Lofton,
Mosquero, New Mexico.

Heats Every Nook and Corner Evenly

"The Windsor Pipeless Furnace heats every nook and corner evenly. Regret the comfort I have missed by not knowing about it sooner."

Florence Parkee,
Norfolk, Nebraska.

Paid for Itself in Comfort

"I found the Windsor very little trouble to install. It is a great fuel saver and from the comfort I have gotten out of it in one season I feel it has paid for itself."

W. W. Wayland,
Cordovia, Alabama.

Heats Church Well

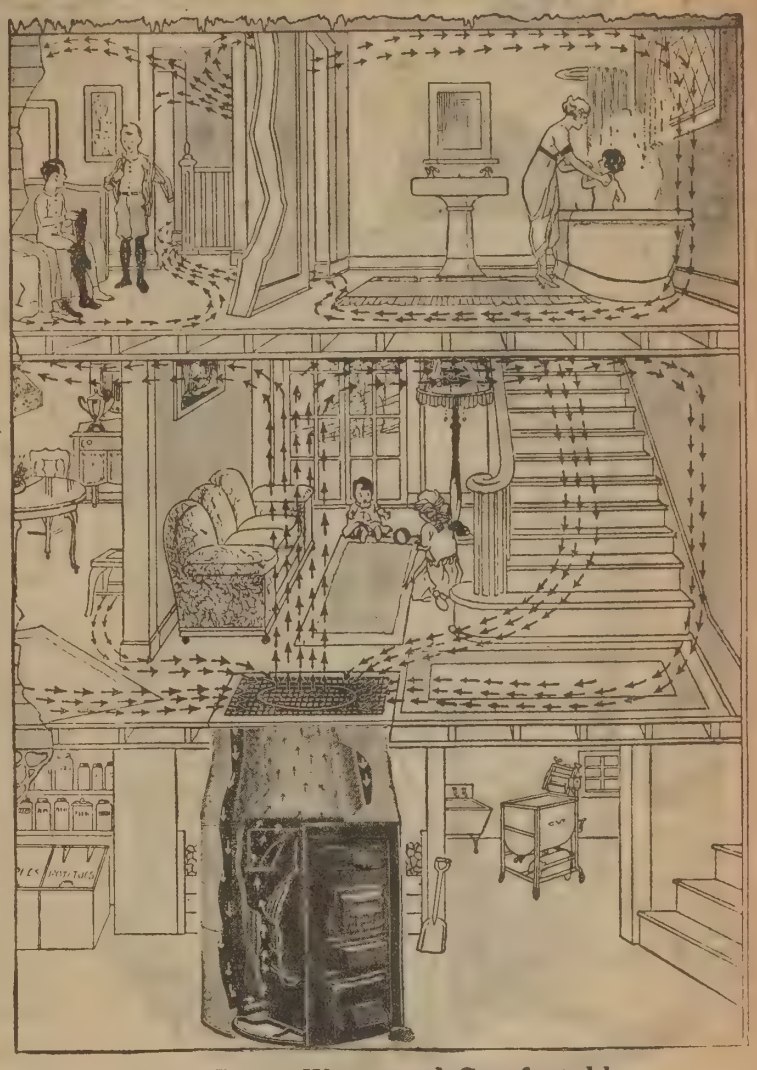
"The Windsor Pipeless Furnace I ordered was for our M. E. Church. It is the only means of heating we use and has given very satisfactory service. It heats the Church well and regularly."

R. W. Weaver,
Cleo Springs, Oklahoma.

Neighbors Also Pleased

"We do not hesitate to recommend your furnace. Three of our nearest neighbors are also using your Pipeless Furnace and all are pleased."

Rev. John H. Wilson,
Geneva, Ohio



Every Room Warm and Comfortable

Light a match, hold your hand a few inches above the flame and feel the hot air rising. Move your hand below the flame and you feel the cool air rising to take the place of the heated air. That is the principle on which the Windsor Pipeless Furnace works.

The air between the inner casing and the hot furnace becomes heated and takes up moisture, then rises through the center of the large register into the rooms above. Cool air enters around the edges of this same register, drops downward between the inner and outer casings, then turns upward to follow the path of the heated rising air. Thus, a continuous flood of warm, moist, healthful air passes into the living room above the furnace. This rising column of heated air strikes the ceiling and is deflected outward in every direction, rising up the stairway (or through floor registers) to the rooms upstairs, then back toward the furnace.

The pipeless furnace delivers more heat for the fuel used than any other heating system ever designed. It is truly remarkable how little fuel is needed to heat comfortably every room in the coldest weather. And in addition, an abundance of fresh air is drawn into the home through window fittings and other crevices. Your basement always stays cool enough for the safe storage of fruit and vegetables, yet comfortable enough for laundry or other work.

You Can Install a Windsor Yourself—Save More Money

There is nothing difficult—nothing comcated about installing this furnace. We ld you plainly written, illustrated instrucns telling you exactly what to do, where begin, and just how to proceed. The only istance you could need would be another n—your son, brother or a neighbor—to help u lift the heavier castings in place. In fact, we have many letters from customers who tell us they set up their Windsor Furnaces without the help of another man—they simply used light skids to slide the castings into position.

Should you prefer to hire the furnace set up, you need not pay for the services of an expert—any handy man can set up a Windsor with the help of our simple, printed instructions.

If you have any doubt about how to install a furnace in your home, where the furnace should be placed, or the right size to buy, write us. **Our Engineering Department will give you their best advice based on years of practical experience.**

In the pictures below we show you the four most important steps in installing a Windsor Pipeless Furnace. Read below the pictures and see how easy it really is—just a few hours of pleasant interesting work and your new furnace is ready for use.

You can install a pipeless furnace almost as quick as setting up your stoves.

Illustration 1

First, determine where you want the register. ds should be as near the center of the house as ssible to insure the best distribution of heat. y the register on the floor and drive nails through e floor at two diagonally opposite corners of the ister. Now, go into the basement and attach a mb line to each nail. This will show you where e furnace will stand to be exactly in line with the gister in the floor. See that no obstructions will

Illustration 2

be in the way of the furnace or of the smoke pipe Next, set the bonnet of the furnace on the basement floor so the plumb bobs are directly over opposite corners. Then draw a chalk line on the floor around the bottom of the bonnet. Since the bonnet is practically the same diameter as the base, this chalk line will show you exactly where to set the base. You are now ready to saw out the hole for the register and place the register box and register

Illustration 3

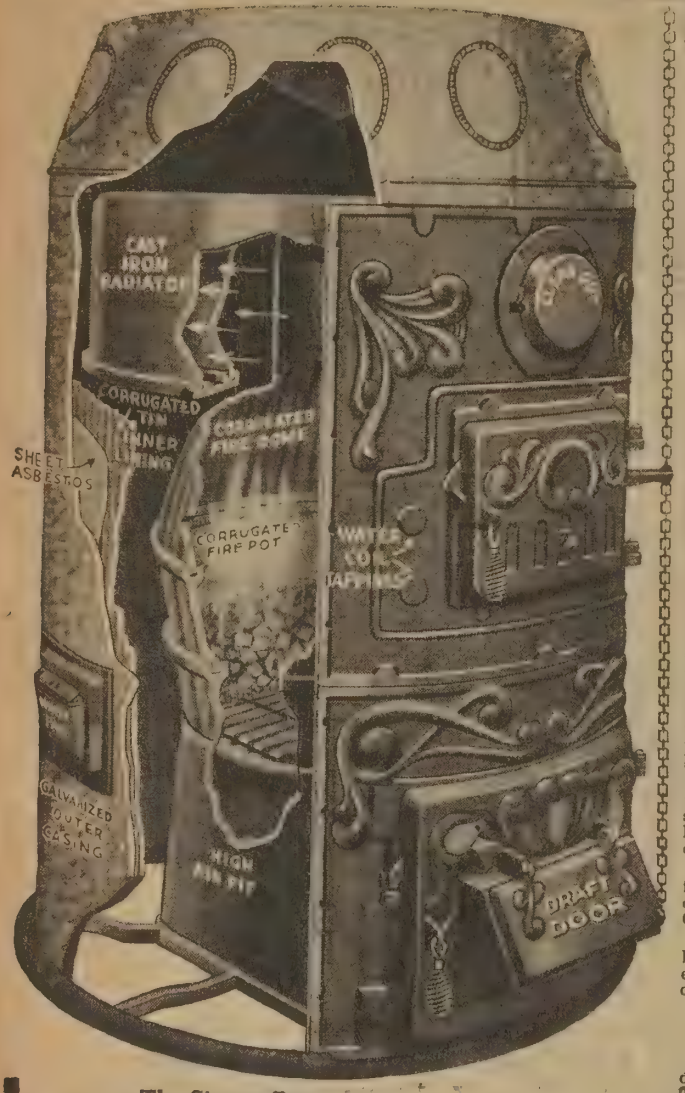
in position on the floor. After doing this, return to the basement and proceed with the assembly of the furnace parts. Place the different castings in position as directed in the instructions we send you, until the circular radiator is in position. We include special fireproof cement to make all joints leakproof and gastight. You should next bolt on the large front casting, place the water pan in position, and proceed with building up the sections of cas-

Illustration 4

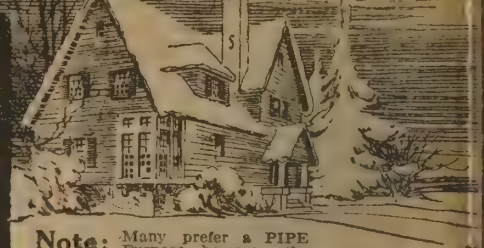
ings. This will not be difficult as the sections are shipped to you crated and ready to set together with casing rings to slip between the sections making the joints airtight. Attach the smoke pipe and doors, then connect the draft chains upstairs.

Your Windsor Pipeless Furnace is now ready for use—ready to give you years and years of solid heating comfort at little more than the cost of a good stove. You are ready to enjoy all the advantages of a modern furnace-heated home.

Windsor Warm Air Furnace
Bigger and Better Than Ever



$55.00



Note: Many prefer a PIPE Furnace because the heat is conducted through pipes to all rooms. By means of dampers in the pipes at the furnace, any room may be partially heated or closed off entirely. We especially recommend the PIPE Furnace for large homes.

Bigger and Better—But the Same Low Price

TWO things are certain when you order your Pipe Furnace from us—if you order it now. You get an **Improved** Windsor—the biggest and heaviest Pipe Furnace we ever sold—and **you get it at no advance in price!** Does anyone, anywhere, offer you more? Does anyone offer you as much?

The Windsor Pipe Furnace always has been noted for its long life, for its fuel economy, and for its great heating capacity. This is proved not only by the testimony of hundreds of satisfied Windsor owners, but also by the fact that our Furnace business has grown rapidly from the very start.

And now we offer you the Improved Windsor—a furnace with a longer life, a furnace of even greater fuel economy, a furnace with an even greater heating capacity—and at the same old price. Never before could we offer you so much furnace for the money as you can get right here—now.

PROMPT SHIPMENT! We carry thousands of furnaces in stock at all times and can make prompt shipment. In addition, we save you freight by making shipment from one of our warehouses nearest you.

Radiator—Extra heavy and larger in diameter than on most furnaces of same size. Made of cast iron—will not warp—and is horseshoe shape so all smoke must make complete circuit before entering smoke pipe. Thus, all possible heat is absorbed.

Fire Dome—Made high and dome shape so all gases will burn before entering radiator. Deep corrugations inside and out provide larger surface to take up heat, also larger surface to radiate the heat. Gastight joints at top of fire pot.

Fire Pot—Deeply corrugated to increase radiating surface and add strength and life. Corrugations provide free circulation of air to fuel around outer edge of fire pot. Cup joints gastight.

Grates—Heavy triangular bars; shake in pairs. Last longer than flat bars because two sides of each bar are exposed to air, one side to fire. Front of grates may be dropped allowing clinkers to slide off into ash pit.

Ash Pit—Extra deep and large—will hold more ashes without interfering with draft. Full width ash door makes removal of ashes easier.

Draft Door—Extra large to admit plenty of air for heavy firing in extremely cold weather.

Fire Door—Large for each size of furnace. Easy to feed—large chunks of coal or wood go in nicely.

Water Pan—Insures moist, healthful air. Made large to require least amount of filling.

Leakproof—All joints are cup type and gastight. Impossible for gases to reach living quarters. All doors ground smooth and fit closely insuring positive control of draft. The Windsor will hold fire longer and use less fuel because of this better construction, together with its better design.

Casing—Made of standard weight galvanized iron. Has inner lining of corrugated tin to reflect heat; also asbestos lining to prevent any heat escaping through casing into basement.

The Size to Buy

We always quote conservative heating capacities based on a slow burning fire using hard coal in zero weather. If you intend to burn soft coal, order a size larger, and two sizes larger for burning wood. Make extra allowance for a house hard to heat and for temperatures below zero. It pays to buy a larger furnace than is actually required as it need not be fired so hard and will last longer. If you have any doubt as to the size to order, send for our Heating Blank and our Engineering Department will figure for you the size you should use. This free service places you under no obligation whatever.

This furnace is as easily and quickly installed as a stove. Full detailed instructions are furnished with each furnace, so that any man handy with tools can finish the job in short time.

Sizes, Article Numbers and Prices—Windsor Warm Air Furnaces

Prices include casing, regulating dial, damper chain, check damper, shaker handle and water pan. Order smokepipe and fittings extra. The top bonnet of the furnace is shipped without holes cut for pipe; these are to be cut as required while furnace is being installed. With each Windsor Pipe Furnace we include plain printed directions for installation and operation. Weights and dimensions given below are approximate, and may vary slightly.

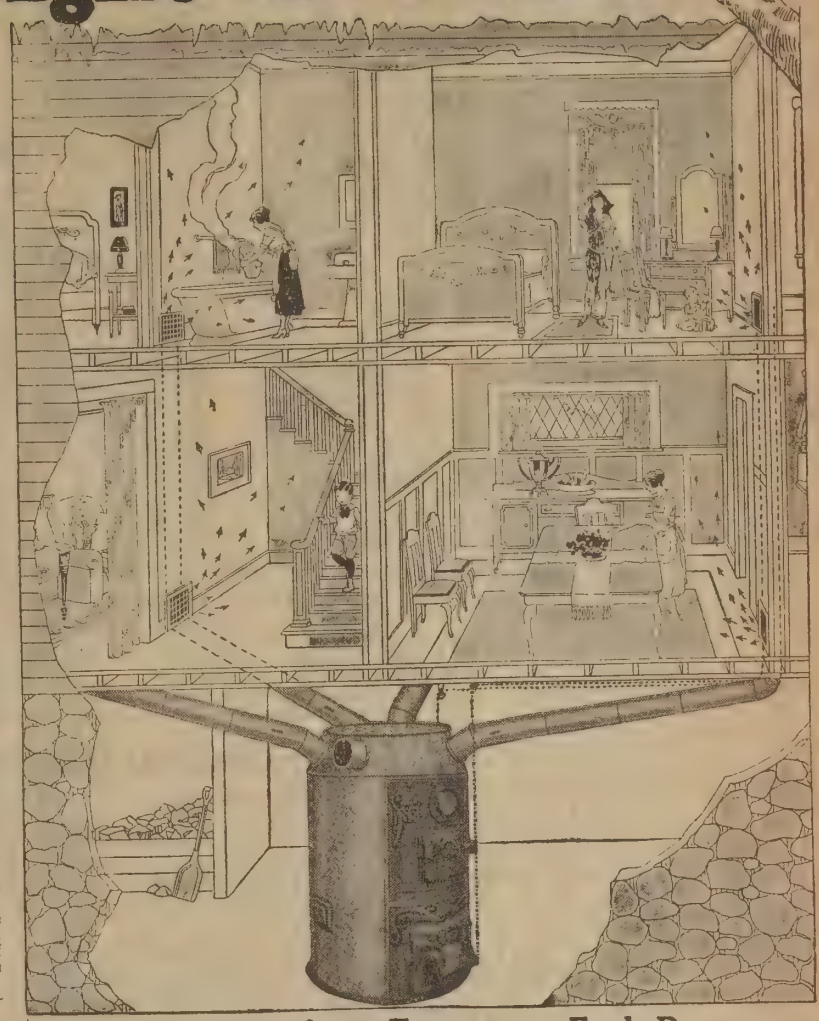
Compare the Windsor With Others For Quality-for Weight-for Price



WE want you to do that very thing! Compare this new and Improved Windsor Furnace with any other furnace you know about or can find anywhere. We not only want you to make this comparison—we urge you to do it.

Consider for a moment exactly what we are offering. Here is an Improved Furnace—a furnace that is heavier and better than any Windsor Warm Air Furnace we ever sold—a furnace that will deliver more heat from your fuel—a furnace that now is actually underrated in heating capacity. In addition to getting a bigger and better Windsor, think what it means to you to be able to buy at these low prices, in spite of the advanced cost of metal. You can buy today—in spite of the rise in metal prices—a better Windsor Furnace than any of the thousands we have sold. And at these prices it is the greatest furnace value we ever have offered.

You always have wanted a furnace heated home. You couldn't buy a better furnace than a Windsor. And surely there couldn't be a better time than right now to buy. Best of all, our Windsor Warm Air Heating System is so simple in construction and so carefully fitted that you can

Install It Yourself—In Old or New Building

Our Charts and Directions Make It Easy

If you know how to use a saw, a hammer and a pair of tinner's shears, you will find it easy to install your own Windsor Warm Air Heating System. The warm air wall pipes are assembled a section at a time and pushed up between the walls until the holes cut for the registers are reached. Self locking joints make the installation of the pipes an easy matter.

Our Engineering Department will supply you with simple plans to follow, and plainly written, illustrated directions showing you exactly how to proceed step by step. The entire system can be installed in the evenings or during spare time, saving you a great deal of money. Should you prefer to hire the work done you will not need an expert, as any handy man can do a first class job by following our charts and illustrated directions.

Mr. Ed. Huck of Wilmette, Illinois, installed his Windsor Warm Air Heating Plant himself. Read what he says about it: "I and the whole family are very much satisfied with it. We have never been so comfortable before and are not using as much fuel as before. I installed the entire plant myself and everything works most satisfactorily, and I thank you gratefully."

And Mr. Arthur Hagedorn of Bay Village, Ohio, writes: "I put in my Warm Air Furnace last fall and it is O.K. I can heat my house all over on the coldest day as warm as I want it, and am sure I saved $50 to $75 by having it sent from you. I installed it myself and it was easily done." (We **never print a letter without the customer's permission.**) You, too, can install your own furnace and save more money in addition to the big saving offered by our low prices.

If there is any question in your mind about the size to buy or the fittings you will need, write us. Our Engineering Department—a department of skilled men—is at your service. Their help is yours—free.

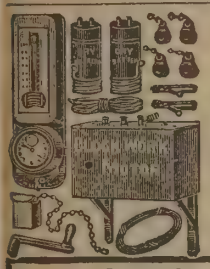
Heat Direct from Furnace to Each Room

The Windsor Warm Air (or Pipe) Furnace gives you positive control over the temperature of each room in the house. At the same time, it provides thorough ventilation—and assurance of better health.

Pure cold air is taken from the outside into the furnace through a cold air duct, and as this cold air rises between the hot furnace and the casing, it is moistened and heated. The moist, heated air is then delivered through a pipe system to each room where there is a register. Warm air dampers in the pipes at the furnace and shutters on the register, enable you to regulate the amount of heat going into each room. The furnace itself is controlled from the first floor by means of the regulator dial. No fuel, dirt or ashes to muss up the living room—one fire to look after, and pure healthful air in every room all winter through.

Get ready for winter by ordering now!

An Automatic Janitor for Your Furnace



This Automatic Heat Regulator will keep your home at an even temperature day and night, regardless of the weather. The thermostatic thermometer is mounted at any convenient place in living room; the batteries and clock work motor are mounted in the basement and connected to the damper and check draft by chains. Wiring is provided for connecting the thermostat with the batteries. As the temperature tends to rise or fall, the motor is set in motion and the dampers close or open as needed to maintain an even temperature. The clock attachment enables you to keep a low fire during the night and still have a warm home in the morning without getting up to open the furnace. Simply set the outfit for any low temperature when retiring, then set clock to throw it over to 70 degrees, an hour or two before you expect to rise. Everything necessary to make complete installation included. Shipping weight, 30 pounds.

181 E 7899—With clock attachment..... **$35.95**
181 E 7898—Without clock attachment..... **30.75**

Our Competition Pipeless Furnace

$52.50

Similar in construction to the pipeless Furnaces of most manufacturers, but not to be compared for efficiency or durability with our high grade Windsor Furnaces shown on Page 662; made of good material, and will stand up under all ordinary firing. Recommended for small homes, or bungalows and in localities where winters are moderate.

This furnace is very easy to install, as it has but one casing, the cold air being taken up from the basement through registers near the bottom of the casing; if desired, cold air ducts may be used to take air from outside or from the rooms. Collar on bonnet is adjustable to reach floor 8 feet from basement.

Cast iron fire pot. Radiator and combustion chamber one large steel plate unit. Galvanized steel casing. Triangular revolving grates. Large water pan. Price includes floor register, regulator dial chain and pulleys, shaker, check damper, cement and complete directions for installation. Smoke pipe not included.

Shipping weights: 700, 800 and 985 pounds.

Article Number	Diameter Fire Pot	Heating Capacity	Cash Price

We Can Make Prompt Shipment of All Sizes — Improved Giant Windsor Boilers — Out of Our Large Warehouse Stocks

The Boiler is the very heart of a successful heating plant. To get the best result with the least amount of fuel and attention, the boiler must be correctly designed and carefully made. Our improved Giant Windsor Steam and Hot Water Boilers are the results of many years of experience, and will give only the most satisfactory heating service. We are mighty proud of these boilers—they have made warm friends in every part of the country.

Our large stock of Giant Windsor Steam and Hot Water Boilers was bought during the early part of the year when prices were low. Our customers are receiving the advantage of this exceptional purchase, and best of all because we have such a complete stock, prompt shipment can be made. Quite important, you will agree, at this time of the year. Order now—delay is expensive.

Giant Windsor Boilers Are Real Heat-Makers

Round construction—the most efficient known to heating engineers. Cast iron from top to bottom. Strong, substantial and nicely finished. Made in sections so that even the largest parts can be carried through an ordinary doorway.

The fire pot is deep and has no dead corners to waste fuel. This means fewer trips to the basement. Fire door is of generous size, making it easy to feed and spread the coal.

Cleanout doors at the front give ready access for complete removal of soot from the entire inside of the flue space. This is a most important feature, as a layer of soot acts as an insulator and prevents heat from reaching the water, just as a glove on your hand protects it from heat or cold. Windsor Boilers are efficient not only when new, but can be kept that way.

The joints are of the modern push nipple type—require no gaskets—and will remain permanently water tight.

The sections rest one on top of the other—metal to metal—and are drawn together by four heavy tie-rods. Grates are the rocking clinker breaking type, thick and heavy but lightly balanced and easily shaken. Ash base provides for ample ash storage, and large door allows easy removal of deposit. Fire pot has openings for coil for heating water for domestic use.

When ordering for the average home installation, select a boiler with a rating equal to about twice the amount of radiation. For larger systems an allowance of 75% is sufficient. A large fire pot with few sections above it, gives best results where soft coal is to be burned. If hard coal is to be used for fuel, boiler may have any number of sections listed.

Boilers can be shipped from 5 to 10 days after order is received. Prices subject to market changes. We always refund the difference on any decline.

Steam Boiler

This Boiler is shown three sections above the fire pot, and will burn either hard or soft coal. Note the large dome, which insures dry hot steam—the kind that heats best.

Full set of trimmings furnished with each boiler, consisting of steam pressure gauge, pop safety valve and automatic draft regulator. Also set of firing tools and directions for assembling and operating included.

Hot Water Boiler

Powerful and reliable. Easy to set up and easy to operate. Illustration shows Hot Water Boiler with four sections above the fire pot. Hard coal should be used with this number of flue sections. Soft coal may also be used in this type boiler if chimney has a strong draft.

With each boiler is furnished a complete set of firing tools, consisting of shaker handle, steel wire brush with handle, scraper and poker. Also simple directions for assembling and firing.

Complete Windsor Heating Systems

Hot Water — Steam — Warm Air

Thousands of Windsor Heating Systems are in use in all parts of the country, furnishing genial warmth and comfort throughout the cold wintry days. Windsor Heating Systems have earned an enviable reputation, not only for their ability to furnish heat in abundance, but for their remarkable economy in fuel consumption and ease of operation.

Nearly all of these Systems were installed by the purchasers, with the help of drawings and instructions furnished by us. In our files are many letters from these thrifty people, in which they tell us how easy it was to make the installation and how pleased they are with their accomplishment and the savings made by doing the work themselves.

There is nothing complicated about the modern hot water, steam or warm air heating system. Our easy-to-read instructions and drawings, prepared with individual attention for each order makes it possible for you to install your own heating system and pocket a substantial savings.

There is another saving made when a Windsor System is put to work, and that is the result of using less fuel. Windsor Heating Plants are highly efficient, which means that they furnish the most heat with the least amount of fuel. You can readily appreciate the improvement that will be made in your home life when every nook and corner is warmed.

In order to quote you a price on a Windsor Heating, Steam or Warm Air System, it is necessary that we have certain information of the house to be heated. We have prepared special information blanks for your convenience in giving us this information. Drop us a post card today and one of these blanks will be promptly furnished you.

After this information blank is filled out and returned to us, we will give you a rock bottom price on a guaranteed heating plant, and will also furnish you with an interesting description of the system.

Send for the information blank today before the rush season overtakes us.

Brass Stop Cocks

Solid brass. Rough finish. With ground key for iron pipe connection.

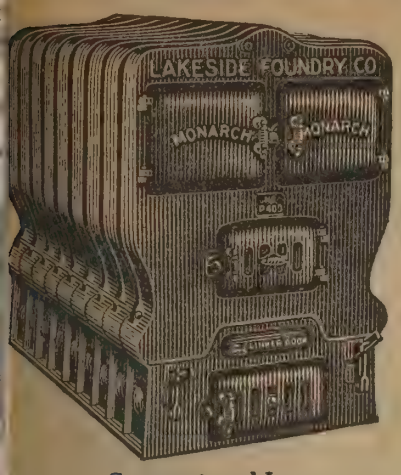
Hot Water, Steam and Vapor Monarch Sectional Boilers Easy to Install and Operate Insure Great Fuel Economy



Many new buildings are later increased in size. By ordering a Monarch Sectional Boiler for your heating plant, you need buy only the actual radiation needed now. Later, should additional radiation be required, you simply add to the boiler new sections as needed.

More than fifty years of practical heating experience is built into every Monarch Boiler. During that time, improvements have followed one on the other until today the Monarch possesses advantages not found in any other sectional boiler, and its remarkable efficiency makes it one of the most economical heating plants on the market.

Notice particularly the illustration at the right. The fire-pot is high, combustion chambers are large, and the burning gases traverse the boiler completely from end to end. All heat travels the full length of the boiler twice, and that generated at the front of the fire-pot travels the full length of the boiler three times. This long travel, together with the enormous amount of heating surfaces exposed, accounts for the great fuel economy of Monarch Boilers.

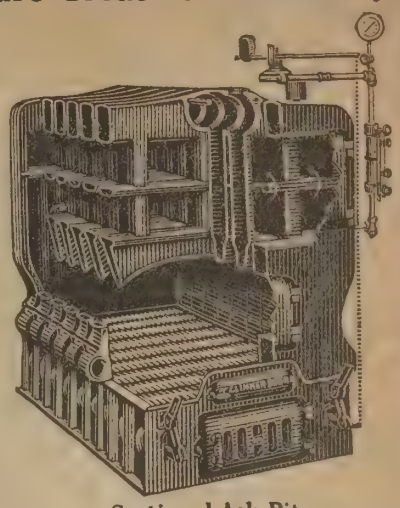
Special attention has been given to maintaining the proper ratio of grate to heating surface to further insure complete combustion. The grate bars are divided into two sections, each operated by a separate lever, thus permitting agitation of the whole body of fire or only half of it.

Each section is made of cast iron. Connections are of the push nipple type—require no gaskets—and are held together by heavy tie rods. Joints will remain always water tight. All parts of the boiler are accurately machined and fitted and tested to 100 pounds pressure before leaving factory.

Extra large clean out doors make it easy to maintain the high efficiency of the boiler. Ash-pit is large, and by removing the front panel of the ash-pit, the entire grate frames can be withdrawn.

Height of boiler, exclusive of trimmings, 52 by 72½ inches. First two sizes listed below have two 3-inch flows and two 3-inch return openings. Other sizes have two 5-inch flows and two 5-inch return openings.

Prices—Monarch Boiler Prices are subject to market changes. Write us if you wish our help in selecting your Monarch Boiler.



Sectional Ash Pit

An outstanding advantage of Monarch Boiler construction is the sectional ash-pit. Almost all buildings in which steam heating plants are installed are increased in size or additional radiation installed at some later time. With the Monarch, when new sections are added to the boiler, new sections may be added to the ash-pit, eliminating the expense of an entire new ash pit.

Compact and Low

Monarch Boilers are not only compact and attractive in design, but the maintenance of the proper ratio of grate to heating surface together with the superior arrangement of the waterways make them low in height as compared to most boilers of similar capacity. This is a decided advantage where the cellar or basement ceiling is low.

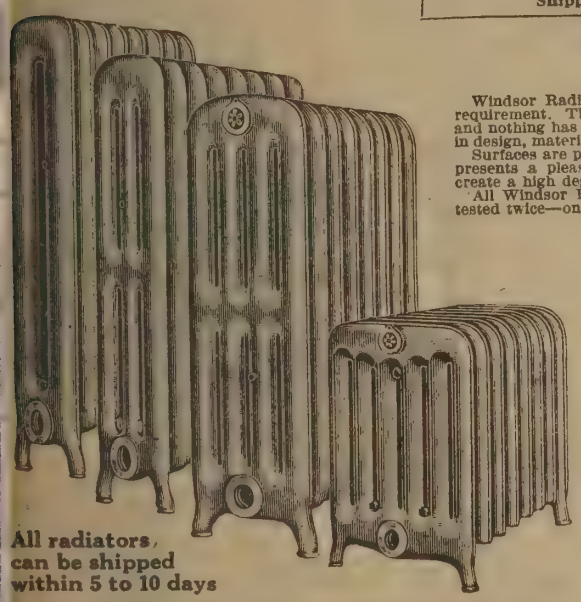
Shipped from Western Pennsylvania. Larger sizes quoted on request.



All radiators can be shipped within 5 to 10 days

Our Big Reserve Stock of Radiators Insures Immediate Shipment of Your Order

Windsor Radiators are made in a wide variety of styles to suit every requirement. The most modern equipment is used in their manufacture, and nothing has been spared to bring them up to a high point of perfection in design, material and workmanship.

Surfaces are perfectly smooth, and the simplicity of the radiator patterns presents a pleasing appearance. Large air spaces between the sections create a high degree of efficiency.

All Windsor Radiators are completely assembled before shipment, and tested twice—once before and once after assembling.

When ordering, specify height columns and the number of sections wanted. Also mention whether for steam or hot water, and size of opening wanted for valve and return, otherwise radiator will be furnished for standard size connections. To figure the heating surface of a radiator, multiply the square feet in each section by the total number of sections. To find price, multiply the value per square foot by the total number of square feet in the radiator. To determine length of radiator, multiply the thickness of each section by the number of sections and add one inch. Allow several inches for radiator valve or elbow.

Straightway Gate Valve

With Union. Solid brass, highly nickel plated. Rising stem and wood handle. Has ball joint union and nipple, for making connection to radiator. Used where connection from the riser is made above the floor. Valve is made with double gate, each disc ground to fit valve seat. Shipping weights, 1¾ to 5½ pounds.

Size	¾ in.	1 in.	1¼ in.	1½ in.
81 E 7902	$2.35	$2.95	$3.75	$4.10

Heat Intensifier

Keeps constant pressure of about 10 pounds on the water in the system so that it may be heated to as high as 235 degrees without boiling. Easily attached to any hot water heating system. Will increase the heating capacity of any system where insufficient radiation has been installed. Shipping weight, 5 pounds.

81 E 7925 ..... $5.50

Quick Opening Radiator Valve

A half turn opens or closes the valve. When valve is closed, just sufficient water is allowed to circulate through the radiator to keep it from freezing. Valve is well made of solid brass, finely nickel plated. Wood wheel handle with nipple and union for connection, as shown in illustration. **State size wanted.**

Size	¾ in.	1 in.	1¼ in.	1½ in.
Ship. wt., pounds	1½	2½	2¾	3¼
81 E 7900	$1.10	$1.45	$1.85	$2.45

Union Elbow

Solid brass, nickel plated. Accurately ground ball joint union and brass nipple. Used for making return connection from hot water radiators.

Shipping weights, ¾ to 2 pounds.

Size	¾ in.	1 in.	1¼ in.	1½ in.
81 E 7904	78¢	98¢	$1.25	$1.70

Composition Disc Corner Radiator Valve

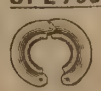
For steam or water. Brass, nickel plated. Used where connection is made from riser to radiator above floor. Furnished either right or left hand. Illustration shows right hand valve. **State size and whether right or left hand.** Shipping weights, 1¾ to 5½ pounds.

Size, inches	¾	1	1¼	1½
81 E 7903	$1.95	$2.45	$2.95	$3.85

Composition Disc Steam Radiator Valve

Made of solid brass nickel plated. Brass nipple, accurately ground ball joint union for connection to radiator. Special composition disc, closes over the valve seat. Sure closing under all conditions. **State size.**

Size	¾ in.	1 in.	1¼ in.	1½ in.
Ship. wt.	1¾ lbs.	2¼ lbs.	3 lbs.	4¾ lbs.
81 E 7901	$1.45	$1.85	$2.45	$3.10



Nickeled Floor and Ceiling Plate

Nickel plated steel snap lock. To cover the opening around pipe on floor and ceiling. **State size wanted.**

Size, inches	¾	1	1¼	1½	2

Steam Gauge Syphon

Made of wrought pipe to secure water in spring of gauge. Should be used with all steam gauges. Pipe size, ¼ inch. Shipping weight, 8 ounces.

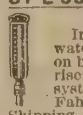
81 E 5556.....15¢

Gauge Cock

Brass gauge cock. Suitable for steam, water or oil. For ¼-inch iron pipe connection. Shipping weight, 3 ounces.

81 E 5557.....28¢

Hot Water Thermometer



Indicates temperature of water in hot water heating systems. Usually mounted on boiler. Also may be attached to one of the riser pipes at any convenient point in the system. Registers up to about 260 degrees Fahrenheit. Accurately tested and adjusted. Shipping weight, 1⅛ pounds.

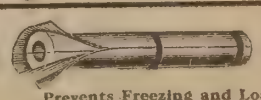
81 E 7910.....$1.25

Steel Wire Flue Brush

For cleaning steam or hot water heating boilers. Has 2-inch stiff wire bristles. Size of brush, 4 by 4½ inches Threaded to take ¼-inch pipe handle. Shipping weight, 2 pounds.

81 E 7932.....$1.10

Asbestos and Wool Felt Pipe Covering



Prevents Freezing and Loss of Heat

Has a strong cloth covering and is furnished with 2 lacquered brass bands, for fastening. Use wool felt for hot and cold water pipe and asbestos for steam and hot water pipes. Prices below are for 3-foot lengths. Shipping weights, 1½ to 6 pounds, per length; two kinds, wool and asbestos in 3-foot lengths.

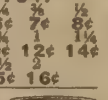
Soil Pipe Cement



For cementing joints in iron soil pipe; in powder form. Mix with water as per directions on can and spread into joint with small trowel, after filling joint about two-thirds full of oakum. Hardens quickly and holds securely.

Easy to apply in a few minutes. Makes clean, solid joint. Cans contain 5 pounds, sufficient for about 5 joints of 4-inch soil pipe. Shipping weight, per can, 5½ pounds.

81 E 5701—Per can..... **65¢**

Pipe and Fittings

Standard Wrought Pipe At Lowest Prices

You will at all times have the benefit of the very lowest prices ruling at time your order is received. Prices are for pipe in random lengths, from 16 to 22 feet. Threaded both ends, coupling one end. Pipe cut to exact length and ends threaded is charged extra. For instance, if you order 10 feet of 1¼ inch pipe cut and threaded there would be a charge of 6¢ for cutting and threading. Couplings extra. Pipe over 6½ feet not mailable.

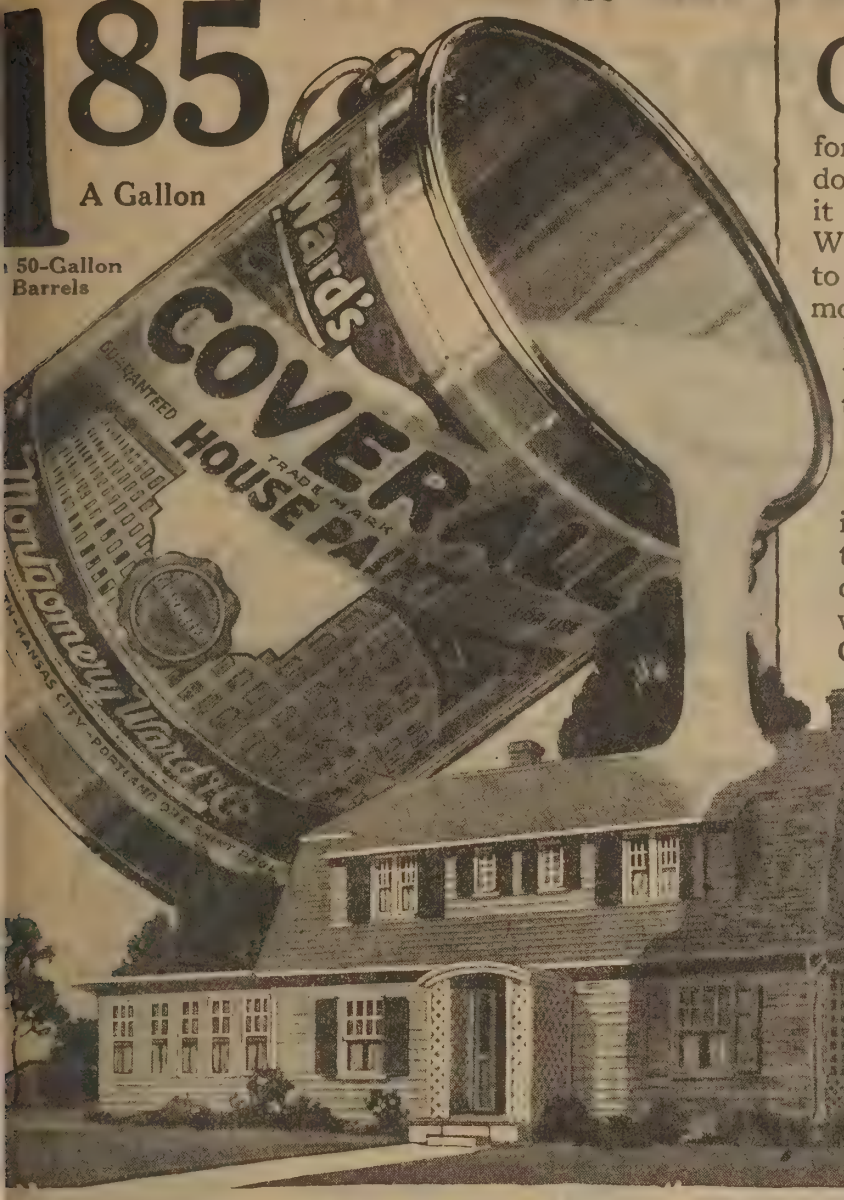
Ward's COVERALL House Paint

TRADE MARK

185

A Gallon

50-Gallon Barrels



GO OUT to your gate. Step across the road. Then stop and look at your surroundings through a stranger's eyes. Take the house in which you live, for instance. How does it compare with the house next door? Is it still the cheerful, friendly, inviting home that it was when it was new? If not, the answer is—Paint. Whether you keep it or sell it, think of its added worth to you if your home were standing there painted this moment! Real estate experts state that repainting does more than any other one thing to increase a building's value; to lower the rate of depreciation, and at the same time raise the standard of appraisal on any property.

Protects—Beautifies—Increases Value

Along with this increased value, too, think of the increased years of life that paint provides through protection from sun and rain, heat and cold. Then, to cap the climax of this greater value and positive weather protection, there is the added **beauty** that COVERALL, an all quality paint, gives to any surface to which it is applied.

COVERALL truly preserves, protects and beautifies; gives a maximum coverage per gallon; makes every man his own painter—and all at a price easily within the reach of every home owner in America. Why not realize these wonderful returns on good paint this fall?

Saved $2 a Gallon

"The Coverall Paint I bought from you this spring was the best paint I ever used. I figured I saved $2 a gallon buying direct from you."

F. G. Richter,
Laporte, Ind.

Printed with Mr. Richter's Permission

You Can Make That Old House Look Like New

The Quality Is There. You can be **sure** of good paint—and a good painting job, when you use COVERALL House Paint. We make it ourselves in our own paint plant. We know it is good paint because we **know** what it contains and what it will do.

Every gallon is made under a reliable, time tested formula. We make COVERALL House Paint from white lead, zinc, linseed oil, and the other wear resisting ingredients which long experience has taught us are necessary to make good paint. We use **no** fish oil, **no** water. Only such materials as have been **proved** to make good house paint are used in COVERALL.

Put a New, Bright, Timeproof dress of fresh paint on your house with COVERALL and see how many, many times it repays the small expense of the whole job. You can do it yourself, save money and be certain of a beautiful, weather protected home. Thousands who buy COVERALL every year have done it, and have written us sincere letters of endorsement.

Our Own Paint Factory with its special grinding machinery and scientific methods of mixing and testing, follows this formula to the letter in the manufacture of COVERALL. Every ounce of it, whether in quart can or 50-gallon barrel, is uniform, smoothly ground, and full bodied.

Ready Mixed by these machine methods, so infinitely superior to hand mixing, COVERALL House Paint comes to you all **ready for use.** No time and expense of running after linseed oil and wearing out your arm to "mix your own." Just stir it as directed; and with common sense, plus any standard paint brush, you can do the rest yourself!

Every Gallon Guaranteed to cover **250 to 300 square feet of surface with two coats of paint.** If you have a brand new surface to paint, or one that is badly deteriorated and all the old paint worn off, you need a little more paint than usual. For such surfaces the best way is to put on a "priming" coat with paint to which you have added one pint of turpentine and one pint to one quart of **pure** raw linseed oil per gallon. Then put on two coats of COVERALL, without thinning, and you will have a beautiful job in every way.

A Beautiful Job because your choice of combinations is almost unlimited. In addition to black and white, there are thirty other selections; you can't fail to match your idea of just the right one for **your** house.

COVERALL Goes Farther because of its wonderful covering capacity, so that its economy is further increased by the less amount of it required, in comparison with any other paint **as good as COVERALL.** By ordering in the large size containers, a further price saving is made possible; and you will not have the slightest difficulty in knowing how much to order if you will use the simple method of measuring your house that we have worked out for you on Page 670.

Finally, Remember Ward's Reputation, for over fifty years of square dealing, and the unconditional guarantee of satisfaction behind every item of Ward's merchandise, and you will know beforehand the **quality** you will get, right along with COVERALL'S **low price!**

Choice of White, Black, and 30 Colors. Make your selection from the list below, or refer to our Catalogue No. 98, where the color cards are shown; or write for color cards. It is not necessary, however, to see the colors before ordering, as the names below clearly indicate the colors.

Wardway House Paint

TRADE MARK

The Quality Paint for Quality Home

$2.63 A Gallon

In 50-Gallon Barrels

If you want the best, use WARWAY **House Paint.** We mit specially for those desi highest quality. You can comp it with the advertised brands sel for more than double our prices. is one of the very best paints ma WARDWAY **House Paint** is ma according to a special formula, dorsed by our laboratories, a by years of actual use in all pa of the country. You can the fore purchase WARDWAY Pa with safety, use it with certain and recommend it ever after w enthusiasm. The first-time bu is fully protected by our guaran covering all Ward's merchandi while the regular customer is sured of the same quality he alwa has purchased.

Think of its 250 to 350 square feet covering capacity per gallon, **two coats.** This is a very large surface for one gallon of good paint to cover; so consider that point carefully in making your selection. Consider, too, that every bit of it, whether quart can or fifty-gallon barrel, is ready mixed, scientifically and uniformly, by special machinery in our own factory; and that with it you can do a first class painting job on the finest surface, with any standard brush and our simple instructions to guide you.

Just as Economically Applied as would be the poor quality, short lived paint you might buy elsewhere. That is the good thing about WARDWAY House Paint. For the same labor and no more, and for less money, you can dress your home in any of thirty beautiful shades that, instead of chipping, peeling or checking off in a few months, will last as long as paint possibly can be made to!

How to Measure Your House for Painting

Suppose your house is 30 by 40 feet, and 20 feet high. First add the four sides together—equals 140 feet (the distance around the house). Then multiply by the height—20 times 140, equals 2800 square feet. Divide by 300 (the **average** number of square feet a gallon will cover) and you have 9⅓ gallons. For new lumber, add a little more; and for trimming, one-quarter extra. For such a house if new, your order would total about 13 gallons. **To Measure Roof:** Multiply width of the house by length. Add one-half. This gives about the number of square feet in the roof. Divide by the number of square feet one gallon will cover, as given in description of the paint you are ordering.

Choice of White, Black, and 30 Colors. Make your selection from list below, or refer to our Catalogue No. 98, where color cards are sh or write us for color cards.

Every Man Can Be His Own Painter

Wardway Waterproof Stucco Paint

You can make an old weather stained stucco house look almost new with a coat of Wardway Stucco Paint. It is a high grade, weather resisting paint for durable lasting work on stucco, brick or cement buildings. It, too, is made in our own factory.

In addition to the beautiful color it gives the house, it also retards decay by protecting the stucco from weather wear and "seals" the surface, preventing rain from spotting the walls.

Apply with an ordinary paint brush. Full directions on can. One gallon covers about 100 square feet.

Choice of White and Four Colors. Make your selection from the list below or refer to our Catalogue No. 98, where paint colors are shown; or write us for color cards.

105—Cement Gray. 107—Brick Red.
102—Buff. 101—White. 103—Moss Green.

Wardway Porch and Deck Paint

Your porch floor and steps are among the most prominent features of your house. Keep them both attractive and protected from weather wear by painting them with Wardway Porch and Deck Paint. This is an especially hard drying paint made in our own factory and we believe it to be one of the best paints on the market for this purpose. It will resist the hardest weather wear, sun, rain and cold, and will retain its beautiful glossy finish an unusually long time.

Resists Wear and Weather

Choice of Six Popular Colors. Make your selection from the list below or refer to our Catalogue No. 98, where paint colors are shown; or write us for color cards.

175 E 743—Complete outfit $2.85

Wardway Creosote Shingle Stain

Preserves as well as beautifies old or new shingles. Protect your shingles at the same time you make them attractive. Use Shingle Stain and do both for the price of one.

Wardway Creosote Shingle Stain is composed largely of creosote oil, one of the best wood preservatives known. Penetrates the wood and makes the shingles last longer. Effective in preventing rot, decay and damage caused by boring insects. The penetration of the creosote combination produces that mottled effect so much desired.

Your choice of four popular colors. The darker shades are durable and lasting, but the lighter ones will give long service, too, are becoming increasingly popular. The red stain looks especially on the roof of a house painted in light colors.

Shingled side walls may be painted with this shingle stain as well roofs. Easy to apply and gives long service. Brushed on, 1 g covers 100 square feet, two coats; 2½ gallons will treat 1,000 shin dipped two-thirds their length.

Choice of Four Popular Colors. Make your selection from list below or refer to our Catalogue No. 98 where paint colors are sh or write us for color cards.

$1.18 A Gallon
In 50-Gallon Barrels

A Quality Paint at a Quantity Price

THIS Long Lived Mineral Paint has been made especially for hard service year in and year out, and will stand nstant exposure to the elements. Every gredient has been selected with quality mind—the low price is simply the result Montgomery Ward & Co.'s tremendous rchasing power and direct-to-user selling ethods. COVERALL Barn Paint is made in r own paint factory from the best mineral gments, oxides, linseed oil, driers and other gredients, perfectly ground and mixed gether by heavy machinery and shipped ady for immediate use! Its average cov-ing capacity of 350 square feet to the gal-, for **two full coats,** is unusally large for quality paint of this kind, and challenges mparison with any other brand. It means fewer gallons required for the job and money saved in proportio . This paint flows evenly, smoothly and freely.

Own Better Buildings—Paint Them Yourself

You don't want shabby, weather beaten, old looking buildings, and common sense tells you that it costs real oney to have them decayed and dilapidated five to ten years too soon. You don't need to endure such conditions a minute longer, when the standard money back Ward guarantee protects your investment in such a way that in trusting us with your order you take not the slightest risk. Add the satisfaction of owning newly painted, weatherproof, attractive buildings to the money saving of the COVERALL low price, and see if you can afford to do any longer without these advantages?

You can make your spare time valuable by doing the painting yourself. Order at once, before the bad weather of this fall starts in and has a chance to do further damage to your buildings.

Choice of Four Standard Colors

Red, yellow, gray and maroon are the standard colors in which COVERALL Barn Paint is furnished. You can choose the color that best suits your taste or that harmonizes with the colors of your house or other buildings. Wardway Wagon and Implement Enamel

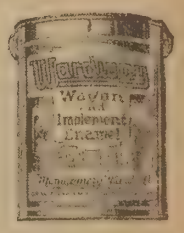
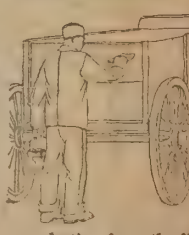
$2.58 A Gallon



Wagons and implements cost too much to allow them to rust, rot and decay. You can save the price of a new wagon by painting up the old one with Wardway Special Wagon and Implement Paint. In an afternoon you can do the job and have a wagon that will look almost new and will last you many years to come.

Your implements particularly should be painted every season to keep them in good condition. Wardway Wagon and Implement Paint is equally good on either wood or iron parts and will save the cost of many dollars in repair bills.

Go over all your wagons and implements now. Give every one that needs it a good coat of paint. You will be surpised by the result. Wardway Wagon and Implement Paint not only will make them look better but will prevent the wood from shrinking and swelling and metal parts from rusting.



Choice of Four Colors and Black. Make your selection from the list below or refer to our Catalogue No. 98 where color cards are shown; or write us for color cards.

Wardway Flat Wall Finish

Enjoy the luxury of a beautiful tinted wall with the convenience of a wall that is easy to clean and keep clean. Wardway Flat Wall Finish is the flat (no gloss) paint so popular for interior decorating. Use it in any room—parlor, dining room, bedroom or hall.

In addition to its decorative beauty, it may be cleaned instantly by washing with a damp cloth or sponge. You can keep your walls clean, sanitary, fresh looking for an unusually long time.

May also be used on wall board, metal, plaster and wood surfaces. Dries quickly. Easy to use—full directions on the can. You can do the work using an ordinary wall brush (see Page 677). On plastered walls, not already painted or sized, use a coat of Fresco Wall Size (listed below) before applying the Flat Wall Finish. One gallon covers 200-250 square feet, **two coats.**

Choice of White and Twelve Colors. Make your selection from the list below, or refer to our Catalogue No. 98, where color cards are shown or write for color cards.

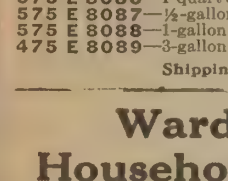
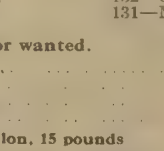
Wardway Household Paint





For Inside Wall, Woodwork or Furniture
Semi-Gloss Finish

Walls, woodwork and furniture look as fresh and bright as new when you have painted them with Wardway Household Paint. This paint is made by a special formula to fill your requirements for an all purpose household paint of excellent wearing qualities and still low in price.

Wherever it has been used, Wardway Household Paint has lived up to these specifications. It can be put to a hundred uses in your home—and you can always depend upon Wardway.

It is a hard drying paint which has a smooth, semi-gloss finish that you may wash with soap and water without injuring. For this reason this paint is especially practical for bath room or kitchen walls which demand so many cleanings.

It does the work which formerly required several different kinds of paint—so you save yourself both time and money using Wardway—and you get even better results.

For the popular painted furniture, Wardway Household Paint is exceptionally successful. It gives that semi-glossy finish which is so desirable, and because it can be washed so quickly and satisfactorily, you will always be pleased and proud of the furniture you have treated with this all purpose paint.

One gallon covers about 250 square feet, **two coats.**

Choice of White and Twelve Popular Colors. Make your selection from the list below, or refer to our Catalogue No. 98, where color cards are shown, or write us for color cards.

Ward's Towerlite White Enamel

The White Enamel That Stays White

No finish is more attractive or in better taste than our white enamel. White enameled walls, woodwork and furniture are "the rage." We recommend our special Towerlite White Enamel. This is the enamel our customers have been using for years with entire and complete satisfaction.

Towerlite Stays white. It is easy flowing. It dries with a hard porcelain like finish.

Very easy to use. Full directions on each can.

Your choice of gloss or egg shell (no-gloss) finish. One gallon covers 200-250 square feet, **two coats.**

Towerlite White Undercoat

The ideal first coat for using under any white or light colored enamel, particularly for use with our Towerlite Enamel. This undercoat makes a fine flat finish, just right for the finishing coat of enamel. Helps cover up the old surface and also improves the appearance of the finishing coat.

Towerlite White Undercoat is primarily a first coat preparatory to enameling. It is also used as a flat white finish.

We Sell Wall Paper Only in Double Length Rolls

It Costs Less We sell our Wall Paper in big **Double Length** rolls, 16 yards long—just twice as much wall paper as you get in the ordinary single rolls of 8 yards.

This means that you get more paper for your money—for one of our big **Double Length** rolls selling at 6¢ costs you just half as much as the single roll you would buy elsewhere for 6¢.

Keep This in Mind When Comparing Our Prices With Others.

It Wastes Less We sell our Wall Paper in these big **Double Length** rolls because it cuts to better advantage and wastes less paper—and that means additional savings to our customers. You can cut five average strips (for side wall) from a **Double Length** roll, and only two from a single roll. Just as it costs you less in the beginning, it saves you money all the way through your decorating to buy wall paper in **Double Length** rolls from Ward's.

Of Course You Can Hang Your Own Wall Paper

Our Wall Paper Book explains clearly how to hang wall paper. It is not a hard job—you can easily do a first class job yourself, and with the money saved you can buy fresh paper for your additional rooms.

All you need is a paste brush, pair of shears and some paste. A good paste brush is listed below at a special cut price. Our dry paste has proved extremely satisfactory to thousands of our wall paper customers. You can use a whisk broom for smoothing; a furniture caster for the seams, a long table (or boards stretched between boxes), a stepladder and a stout plank. You will decide to repaper when you see how easily it can be done.

How to Find Amount of Wall Paper Needed

Use the chart at right. If exact size of your room is not shown, use the figure given for next larger size. Deduct one DOUBLE LENGTH roll of side wall for every four openings (doors or windows) in the room.

Side wall and ceiling papers are sold only by the DOUBLE LENGTH roll—16 yards long, 18 inches wide. Borders are sold by the yard.

Shipping Weights of Wall Paper

Actual weights of side wall and ceiling papers: Per DOUBLE LENGTH roll, 1½ pounds; border, per yard, 1 ounce. Add one pound for weight of wrapping in room lots (about 8 double rolls). See Parcel Post and Express Rates on Pages 382 and 383.

PATENTED U. S. A., FEB. 8, 1921—DOM. CAN., JULY 13, 1920

Marproof Special Floor Varnish

A Little Paint and Varnish—and Dingy Floors and Walls Are Gone

In spring house cleaning time you not only want to clean the home from top to bottom, but you want to put bright new colors on the walls, fresh finish on floors and woodwork, and brighten up the scarred old furniture. And why not do it? Right here you will find every kind of Interior Paint and Varnish you will need, in every desirable color. Our prices are low. You can afford to redecorate the entire house; and Ward's paint and varnish are designed to make the job easy and satisfactory.

Wardspar Durable Spar Varnish

Water Can Not Hurt Marproof

The floors you varnish with Marproof are varnished to stay. Water, either cold or boiling hot; heel marks, scratches, scars, make no impression on its hard, resistant surface. On new floors or old, it gives the same bright, attractive, finish. Marproof is true economy. It costs less than other varnishes, it outlasts them by many varnishings, and it protects your floors from wear. Dries over night.

75 E 8640	1-pint can	$ .40
575 E 8641	1-quart can	.75

575 E 8643	1-gallon can	2.60
175 E 8644	5-gallon can	12.75

For Outdoor or Indoor Use

Tough and weather resisting Wardspar is the varnish for outside jobs, such as porch ceilings, vestibules or doors. It dries perfectly in six to eight hours, giving a bright hard finish which withstands rain, sleet, snow or hot summer sun. Wardspar is widely used on boat decks, aeroplanes, floors, table tops or any surface which gets unusually hard, constant wear. It may be rubbed or polished. Dries over night.

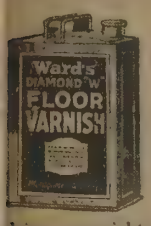
Diamond "W" Floor Varnish



It is Diamond "W" that has earned for us our reputation for excellent, long wearing varnish. Wherever it has been used, Diamond "W" has won friends, first because it is low in price, and second because it stands the test of hard wear. Our customers tell us that it is the best Varnish made for the money. Diamond "W" is easy to apply. It dries over night and gives a smooth, glossy finish which can not be injured by water.

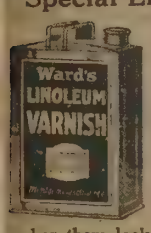
Special Linoleum Varnish



You will just about double the life of your linoleum if you will varnish it occasionally with this hard, wear resisting Varnish. The day you lay your new linoleum, varnish it with this varnish, and you postpone the appearance of those first spots of wear. Give your old linoleums a coat of this varnish—it revives their faded colors and makes them look almost like new. Ward's Linoleum Varnish dries over night and leaves a smooth, glossy, easy-to-clean surface which protects and prolongs the life of any hard floor covering.

575 E 8653	1-gallon can	1.95

No. 1 Furniture Varnish

This is a heavy bodied, wear resisting Varnish, easy to apply and quick to dry. On new or old furniture it gives a bright, glossy finish.

75 E 8670	1-pint can	$ .29
575 E 8671	1-quart can	.54
575 E 8672	½-gallon can	.98
575 E 8673	1-gallon can	1.75
175 E 8674	5-gallon can	8.00

Extra Hard Oil Varnish

A good medium priced Varnish. Made for interior finish of natural woods. Dries quickly with a full, rich luster.

75 E 8625	1-pint can	$ .36
575 E 8626	1-quart can	.67
575 E 8627	½-gallon can	1.25
575 E 8628	1-gallon can	2.30
175 E 8629	5-gallon can	10.75

Extra Light Copal Universal Varnish

For the job demanding about the average in varnish endurance, it is economy to use our Extra Light Copal. It is our general purpose Varnish. It goes on smoothly, dries over night and gives a hard, glossy finish which gives excellent wear for such a low priced varnish. Right now, you probably can recall a number of little brightening-up jobs you have long planned to do—a chair that is getting faded, worn spots on woodwork and stairs, or baby's go-cart. Keep a can on hand for patching or small jobs like these—it saves both work and money to keep floors and woodwork in good condition.

75 E 8605	1-pint can	$ .34
575 E 8606	1-quart can	.64
575 E 8607	½-gallon can	1.16
575 E 8608	1-gallon can	2.10
175 E 8609	5-gallon can	9.75

Co-Var Finish

Ward's Special Colored Varnish

Trial Outfit 25¢

Colors and Varnishes at One Stroke of the Brush

If it is marred or shabby, or if you are just tired of seeing it that color, change it with Co-Var. On floors, woodwork or furniture, new surfaces or old, Co-Var is stain and varnish at a single stroke. It not only gives an old, dull surface the beautiful colorings of the natural wood, but it gives it an attractive, glossy finish. You don't have to remove the old finish. Just see that it is clean and dry. Co-Var is economical—you need buy but one finish, and a single coat is usually sufficient.

Choice of Seven Colors, Ebony and Natural. Make your selection from the list below or refer to our Catalogue No. 98 where the paint colors are shown, or write us for color cards.

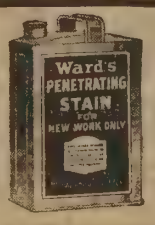
183—Cherry.	185—Light Oak.	191—Bog Oak.
186—Rosewood.	187—Antique Oak.	190—Ebony (Black).
184—Mahogany.	188—Walnut.	189—Natural (Clear).

Be Sure to State Color Wanted.

75 E 8109	Trial Outfit: ½-pint can Co-Var with 1-inch Varnish Brush	$ .25		
75 E 8110	1-pint can	36¢	575 E 8112	½-gallon can 1.25
575 E 8111	1-quart can	67¢	575 E 8113	1-gallon can 2.30

Important: When putting a lighter color over a dark surface, it is necessary first to apply a coat of Ground Color. We supply Ground Color in the same sizes and prices as the regular colors. In ordering, specify **Co-Var Ground Color No. 192.**

Penetrating Wood Stain



A single coat gives new wood that soft stained effect on which you may use either wax or varnish depending upon whether you want a dull or glossy finish. This Stain is for new work only. It does not raise the grain, but merely penetrates the wood and brings out the beautiful, natural colors.

Choice of Ten Popular Colors. Refer to our Catalogue No. 98 for paint colors or write us for color cards.

Light Oak	Fumed Oak
Golden Oak	Early English Oak
Dark Oak	Weathered Oak
Bog Oak	Walnut
Mission Oak	Mahogany

Powdered Paint and Varnish Remover

Similar to above, but not as quick acting. Cleans brushes. Takes paint out of overalls, etc. Shipping weight, per pound, 1¼ pounds.

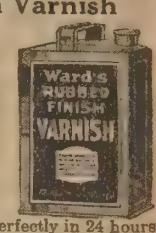
75 E 7805	1 pound	15¢
75 E 7806	5 pounds	55¢

Cabinet Finish Varnish

This hard drying Varnish is excellent for indoor work demanding more than ordinary endurance. We recommend it especially for school seats or church pews or for woodwork where a cabinet finish is desired. It is easy to apply and will dry dustproof in six to eight hours. In 24 hours it may be rubbed to a high polish, giving an attractive and serviceable finish. Wherever it has been used, this varnish has given long wear and complete satisfaction.

75 E 8665	1-pint can	$ .35
575 E 8666	1-quart can	.65
575 E 8667	½-gallon can	1.20
575 E 8668	1-gallon can	2.20
175 E 8669	5-gallon can	10.25

Rubbed Finish Varnish



When applied over a Varnished surface our Rubbed Finish Varnish produces the soft, glossy effect of a rubbed finish without the necessity of rubbing it down. You get this desirable, lustrous effect with almost no work and no more time than you would spend in putting on an ordinary coat of varnish. This varnish is free from wax. It dries perfectly in 24 hours and wears excellently. It has won well earned popularity among our customers because of its high quality and low price.

75 E 8655	1-pint can	$ .41
575 E 8656	1-quart can	.76
575 E 8657	½-gallon can	1.41

575 E 8663	1-gallon can	3.10
175 E 8664	5-gallon can	15.00

Interior Spar Varnish

Spar Varnish, like its name, is hard, tough and wear resisting. For use on all interior work, where wearing quality is an important consideration.

75 E 8615	1-pint can	$ .34
575 E 8616	1-quart can	.58
575 E 8617	½-gallon can	1.12
575 E 8618	1-gallon can	2.10
175 E 8619	5-gallon can	10.00

Miro-Lite Interior Varnish

Miro-Lite gives a mirror-like brilliancy to woodwork, doors, wood paneling, etc. Brings out the full beauty of the wood and at the same time preserves the surface and makes it last longer. A pale, easy flowing Varnish of superior quality which can be applied to all kinds of woodwork. Miro-Lite may be washed with hot or cold water and will not crack, turn white or blister. It is exceedingly durable—will wear for years and retain its fine, brilliant finish for an unusually long time. Dries in six to eight hours. May be rubbed and polished in forty-eight hours. Surfaces varnished with Miro-Lite are sure to be pleasing and attractive for an unusually long time.

75 E 8610	1-pint can	$ .45
575 E 8611	1-quart can	.85
575 E 8612	½-gallon can	1.58
575 E 8613	1-gallon can	2.95
175 E 8614	5-gallon can	14.00

For newest style Bath Room Fittings, see Pages 658 to 660

Painters' Materials

For those who want them, we list Coach Colors, Colors in Oil, Dry Colors, etc., in this catalogue. But we can not recommend their general use by anyone but an experienced painter.

For the home painter who wants to be sure of a good job, we recommend our ready-mixed Coverall or Wardway Paints (Pages 669 to 671), which we know are good, as we manufacture them in our own Paint Factory.

See Prices of COVERALL House Paint on Page 669

Linseed Oil and Turpentine

On account of market changes, it is impossible to quote prices in this catalogue. Write us for current prices.

See Prices of COVERALL Barn Paint on Page 671

White Lead in Oil

Guaranteed 100 Per Cent Pure

We always recommend the use of our Ready Mixed Paint. Best authorities agree, and actual practice proves, that it is superior to hand mixing because the use of modern paint grinding machinery and scientific blending of formulae insure a superior product. However, if you are an experienced painter or prefer to mix your own paint, we can save you money on your materials. For ordinary outside painting, use about 4 gallons of pure Raw Linseed Oil, 1 pint pure gum Spirits of Turpentine and 1 pint of Turpentine Japan Dryer to 100 pounds of White Lead in Oil. This makes 7 gallons of paint, which covers about 200 square feet, two coats, per gallon.

Prices Subject to Market Changes

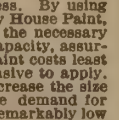
Special Dry Colors



For tinting. Red oxides and ochres. The dry color may be used for painting, by mixing with linseed oil in the proportion of 12 pounds of dry color to the gallon of linseed oil. We do not recommend using paint made in this manner unless you are equipped to run the mixture through a paint mill, and grind it to the necessary fineness. By using our guaranteed Coverall or Wardway House Paint, you get paint accurately ground to the necessary fineness, with exceptional covering capacity, assuring you of the best service. Good paint costs least in the long run and is no more expensive to apply. That's the reason we have had to increase the size of our factory to take care of the demand for these high quality paints at Ward's remarkably low prices. For shipping weights, add 2 to 4 ounces per pound.

In ordering give number and state color wanted.

75 E 786—1-quart size..... 1.40

Denatured Alcohol Shellac

Made from pure gum shellacs. Cut four pounds of the gum to each gallon of denatured alcohol. One gallon will cover 300 to 400 square feet, one coat.

White Shellac. Use where no color is desired.

75 E 8676—1-pint can $ .58
575 E 8677—1-quart can 1.05
575 E 8678—½-gallon can..... $2.10
575 E 8679—1-gallon can..... $3.95

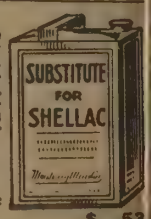
Orange Shellac. Use on darker surfaces such as oak; also for coating knots, etc., before painting.

75 E 8680—1-pint can..... $ .53
575 E 8681—1-quart can..... .94
575 E 8682—½-gallon can..... 1.85
575 E 8683—1 -gallon can..... 3.50

Shipping weights: Pint, 2½ pounds; quart, 4 pounds; ½ gallon, 7¼ pounds; gallon, 11 pounds.

Caution: Thin shellac with 188 Proof Denatured Alcohol. See Page 615 for Denatured Alcohol.

Substitute for Shellac



Made to do the work of pure shellac at a substantial saving in cost. Manufactured from a hard gum cut in denatured alcohol. For most purposes, produces results equal to genuine shellac. Use same as shellac. Shipping weight, per gallon, 11 pounds.

Denatured Alcohol

POISON—must not be taken internally. Not mailable. Prices are subject to market changes.

Used by painters for thinning or reducing shellac and substitute shellac for first coat work. Add a little at a time until the right consistency is reached.

Denatured alcohol is also used for spirit lamps, perculators and for making non-freezing solutions for automobiles. For the latter use 25 per cent of alcohol to 75 per cent of water at 2 degrees below zero, 40 per cent alcohol to 60 per cent of water at 25 degrees below zero. Sealed in air tight cans. Full directions on each can. Shipping weight, per gallon, 12 pounds.

Repair Roof Leaks in Time

Repair now all worn and leaky spots on your roof. Don't wait until the rain comes. Much damage can result from a leaky roof that is allowed to go too long. The time to fix leaks is when they are **first noticed.** A few **dollars** spent **now may save** hundreds **later.**

Remember Always: Quality Never Is Sacrificed at Ward's Merely for the Sake of Making Low Prices

Ward's Liquid Roof Cement

The Asbestos Fiber Cement That Makes Old Roofs Like New

Don't wait for the tinner or the roofer to repair roof leaks. With Ward's Liquid Roof Cement you can easily do it yourself and the expense will be only a fraction of the cost of a new roof—especially now that you can buy Ward's Liquid Roof Cement at our low barrel price of only 37 cents per gallon.

Applied as easily as Paint. Ward's Liquid Roof Cement is a black, paint like product which can be applied easily with an ordinary paint brush or roofing brush, and when the work is done properly, not a single seam or joint will be exposed in the entire surface. By using a broad roofing brush, the work can be done quickly, a few hours transforming an unsightly leaky roof into an attractive water tight roof which will preserve and increase the value of your building.

Asbestos Fiber Makes It More Durable and Lasting. Ward's Liquid Roof Cement is composed largely of asphaltum and asbestos fiber. The asbestos fiber gives our cement more adhesive power which prevents it from running. Spreads evenly on the steepest roofs or the sides of buildings. It will not bulge, crack or run, even in the hottest summer sun. The hardest rains will not wash it off. The composition is such that it will not injure any roof to which it is applied and, being non-poisonous, will not taint or discolor your rainwater.

Contains absolutely no coal tar, which has tendency to run and sag in hot weather.

One coating about a thirty-second of an inch thick over the entire surface usually is sufficient; but if the roof is in extremely bad condition, all holes and low places should first be filled with our Trowel Roof Cement (listed at right) which is more like putty in consistency. If the roof is then covered with our Liquid Roof Cement you will have a repair job that will give satisfactory service over a long period.

An Excellent Preservative. This cement will be found extremely satisfactory for wood, slate, tile, paper, felt or composition roofs. While it can be used on shingle roofs, better results would be obtained from our Special Asphalt Paint. Ward's Liquid Roof Cement is also excellent for silos, tanks, and underground structures as a preservative, and also to exclude moisture.

Order enough to take care of all of your buildings. Ward's Liquid Cement will keep for any length of time without hardening. Therefore you can always keep a liberal quantity on hand to take care of leaks as they appear in old roofs. When you order, allow one gallon for every 100 square feet of surface covered.

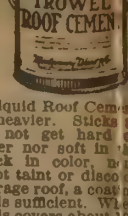
Trowel Roof Cement



Similar to Liquid Roof Cem listed at left, but heavier. Sticks any surface—will not get hard brittle in the winter nor soft in summer. Jet black in color, n poisonous. Will not taint or disco rain water. On average roof, a coat 1/16 to 1/8 inch thick is sufficient. Wh so spread, 40 pounds covers about square feet. Also used for sealing around chimneys and drain pipes for waterproofing outside of cem foundations.

Creosote Oil Wood Preservative

Creosote oil is one of the best Wood Preservatives known. State experiment stations recommend it for preserving fence posts and other wood. Railroads use it for preserving ties, telegraph poles and bridge supports. Steamship companies use it for preserving docks and wharves. It is one of the most highly recommended agents in the nation-wide wood-preservation campaign.

That is why Ward's Wood Preservative is so highly recommended. It is a refined creosote oil product, especially designed for the preservation of wood. It penetrates the surface and seals the pores, protecting the wood from ground moisture and resisting the attack of insects and fungi. **(Applied inside of hog or hen houses, lice will leave.)** Makes the wood last longer, postponing rot and decay and saving many dollars in repairs and replacements. Its cost is almost too small to be considered, compared to the value of the property it protects.

Apply with a brush or by dipping. If heated the liquid will penetrate more deeply. No other preparation necessary—no experience required. Five gallons is enough to treat about 100 fence posts or 150 to 200 square feet of surface when applied with a brush.

Tinners' Red Paint

Protects Downspouts, Gutters and Metal Surfaces

For painting metal roofs, gutters, downspouts, etc., to protect them from weather wear. A ready mixed oxide paint used instead of red lead at much smaller cost. Use it either as a first coat before other painting or alone, as a durable protection against rust and decay. Our Tinners' Red is not an experiment, but a tried and proved product which we back with our full guarantee. Use it and save repair bills.

Elastic Roof Paint

"Saves You the Price of A New Roof"

A good paint at a low price. For repairing and patching leaky roofs. Will stand expansion and contraction caused by weather without cracking or peeling. A leak can be stopped by first painting over the leak, then laying on a piece of muslin and coating again with another layer of paint. Glossy black finish. Ready to use. Apply with a brush—a knotted roofing brush is good for this work.

Ward's Asphalt Paint

Rust destroys. **Prevent** rust and save expensive repair bills by keeping all wood and metal surfaces **protected** with Ward's Asphalt Paint.

You can do the work yourself—no experience required. Ward's Asphalt Paint comes ready mixed, all ready to apply. You can put it on as easily as ordinary paint. And usually **only one coat is required,** even on the oldest surface.

You can add years to the life of metal roofs and sidings by coating them with this special Asphalt Paint. Use it on tanks, windmills, bridges, etc.—any metal surface exposed to weather wear. Use it on wood felt, or composition roofing—it has the same good effect on roofs of this type that ordinary paint has on wood.

Choice of 3 colors: Black, Red or Green. One gallon covers about 200-250 square feet of surface, one coat.

75 E 725..... $1.10

Broad Flat Paint Brush

For roofs and other large surfaces; 6 inches wide, 3½-inch black Chinese bristles, with mixed center. Set in cement. Shipping weight, 10 ounces.

75 E 705..... $1.20

How to Do Your Own Graining

First stop up all holes and imperfections with putty, Fil-Tite or Crack Filler; then smooth off the entire surface with fine Sandpaper or Steel Wool.

Apply a coat of Co-Var Finish Ground Color (see Page 675), which will give a flat color upon which to apply the graining compound. Apply Graining Compound to a small part of the surface at one time, as it dries quickly. Draw the Graining Roller over the coated surface, varying the motion slightly each time.

When dry, apply Co-Var Finish of the desired shade. At first, care should be taken to flow the Co-Var on very gently with minimum strokes.

Graining Outfit

"Everything for the Home Grainer"

A complete Graining Outfit with tools which anyone can use. Directions included. Shipping weight, complete outfit, 15 pounds.

Outfit Consists of:
1 Quart Co-Var Finish Ground Color.
1 Pint Graining Color, Light Oak.
1 Quart Co-Var, Natural Gloss Finish.
1 3-inch Grainer and Steel Comb.
1 Brush, 1½ inches, for applying Graining Color.
1 Brush, 2½ inches, for applying Co-Var Ground Color and Finishing Coat.

475 E 8438—Complete outfit..... $2.88

RADIO Asphalt Shingles at less than usual wholesale costs. See Page 681

Ward's ATLAS Asphalt Roofing

For New or Old Roofs

Your Lowest Cost Protection—A New Roof

No need to ask why. These prices on ATLAS Smooth Surfaced Asphalt Roofing are the answer! Compare them with the wasted time, expense and annoyance of "fixing" old leaky metal and shingle roofs—not once, but many times over. Also notice that in Atlas roofing you have a choice of three weights, each liberally guaranteed, enabling you to pick the exact grade for a given purpose at the lowest price, and not a cent more. Then, remember too, that you can lay your roofing yourself; do it without experience, quickly and in spare time, thus saving on purchase and installation both.

Built of Strong Asphalt Saturated and Coated Roofing Felt, ATLAS Roofing is heavily surfaced on both sides with a coating of powdered mica. Mica, as is well known, opposes the action of heat, cold and moisture, and supplies a high degree of wear and weather resistance. Not only is the highest grade of construction and materials assured, but the resources of a house, famed for fifty years of square dealing, produce the lowest possible Atlas Roofing prices, while solving all doubts both as to quality and long years of satisfactory service.

Weatherproof, weatherproof, climateproof, long life—Atlas is the best investment you can make in a smooth surfaced roofing. It is quality all through—at an exceptional price made possible only by Ward's immense volume of roofing business, closely restricted operating costs, and first call on the best available manufacturing sources. Nor can we too strongly emphasize how easily Atlas roofing can be laid.

Each roll packed complete with nails and asphalt cement or the patented Lap-Kaps (see description on Page 680).

Applied with Hammer and Jack Knife only. No other tools needed. You can put it on any time, and you can, if you so desire, lay it right over that old, wornout shingle roof.

Medium and Heavy Weights Approved by Fire Underwriters. The three different weights of Atlas Roofing provide for three different uses: 55-pound rolls, guaranteed for 12 years, are ideal for houses, barns and similar large structures; 45-pound rolls (medium weight) guaranteed for 10 years, are an alternate choice where a less period of service at less cost answers all requirements; and 35-pound rolls, guaranteed for 7 years, fill the bill for smaller buildings and temporary work.

Each roll contains 108 square feet, or enough to cover 100 sq. ft. of roof, allowing for laps.

Shipped from Warehouse Nearest You, Which Saves You Money

Shipped from Northern Illinois, Central Pennsylvania, Southern Illinois, or Southern Louisiana. Shipping weights same as actual weights. See prices below.

Heavy

Used where an exceptionally heavy roof is required. Actual weight, per roll, 55 pounds. Guaranteed 12 years.

174 E 28—With regular nails. Per roll..... **$2.10**

174 E 29—With extra long nails. Per roll..... **$2.20**

174 E 18—With Lap-Kaps. Per roll..... **2.40**

Medium

For large barns, silos, etc. Actual weight, per roll, 45 pounds. Guaranteed 10 years.

174 E 24—With regular nails. Per roll..... **$1.80**

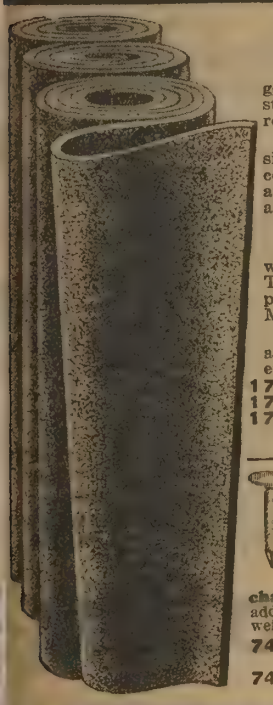
174 E 21—With extra long nails. Per roll..... **$1.60**

174 E 14—With Lap-Kaps. Per roll..... **1.80**



Ward's Combination Roofing

We offer our Combination Roofing to meet the demand for a good, serviceable, low priced roofing for covering inexpensive structures or for temporary work. It is a standard quality asphalt roofing. Weatherproof and waterproof.

Made of a sheet of roofing felt, saturated and coated on both sides with asphalt. Rolls contain 108 square feet—enough to cover 100 square feet of roof area, allowing for a 2-inch lap. Rolls are packed complete with large head roofing nails and liquid asphalt cement for the laps.

Choice of Three Standard Weights

Anyone can lay this roofing. We furnish complete directions with each roll, which makes the application a very simple matter. The only tools required are a knife for cutting the roofing into the proper lengths and a hammer for nailing it to the roof boards. May be laid either side up—both sides are talc coated.

We do not give a specific time guarantee on Combination Roofing as we do on Radio, Atlas and Lakeside Roofing, but consider it an excellent value at the price. Shipping weights same as actual weights.

174 E 87—Light. Actual weight, 35 pounds. Per roll.... **$1.05**

174 E 88—Medium. Actual weight, 45 pounds. Per roll.. **1.30**

74 E 190—Galvanized. All sizes. Per pound..... **8¢**

74 E 180—Tin Roofing Caps. (Use 1½ pounds per roll). Per pound..... **9¢**

Ward's Lakeside Roofing

Ward's Lakeside Asphalt Roofing is an unusually high grade, corrugated surface (talc finish) asphalt roofing. Suitable for all types of buildings. It is thoroughly weatherproof, waterproof and fire resisting; is not affected by extremes of temperature or by frost, rain, sleet or snow. It does not soften and run during the heat of the summer or become brittle or crack in the coldest weather. It may be used in any climate and is not affected by acid, fumes, steam or gases.

Made of High Grade Materials

Lakeside Asphalt Roofing is made of a sheet of roofing felt, thoroughly saturated with genuine asphalt and coated on both sides with a heavy layer of specially selected asphalt which effectively protects the saturation (the life of the roofing) from attack of the elements. The surface is then given a light dusting of powdered talc to prevent sticking in the rolls. Especially adapted for homes, farm buildings, barns and garages. Anyone can put it on—no special tools needed.

Each roll of Lakeside Asphalt Roofing is packed complete with large head roofing nails and liquid asphalt cement for the laps. Complete directions with each roll. Rolls contain 108 square feet—sufficient to cover 100 square feet and allow for 2-inch lap at the seams. Made in three standard weights, each of the same high quality, the only difference being in the weight. Heavy, guaranteed for 10 years. Medium, guaranteed for 7 years. Light, guaranteed for 5 years.

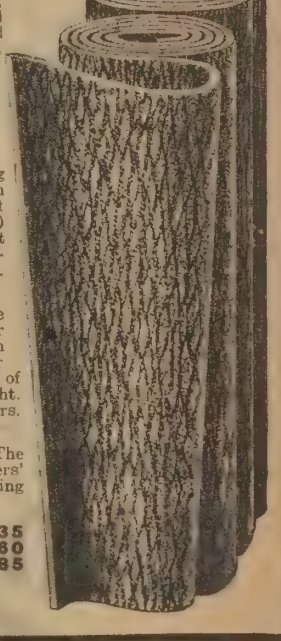
Lakeside Asphalt Roofing is a valuable fire protection. The medium and heavy weights are approved by the Underwriters' Laboratories, Inc. This means that you save on insurance. Shipping weights are same as actual weights.

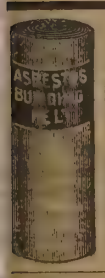
174 E 30—Light. Actual weight, 35 pounds. Per roll. **$1.35**

174 E 32—Medium. Actual weight, 45 pounds. Per roll. **1.60**

174 E 34—Heavy. Actual weight, 55 pounds. Per roll. **1.85**

Shipped from Northern Illinois, Central Pennsylvania, Southern Illinois or Southern Louisiana





Asbestos Building Felt

This is the standard Asbestos Sheathing. An excellent insulator for heat and cold. For lining buildings, refrigerator cars and ice houses. Deadens sound when used between floors and for general building purposes.

Extensively used for covering warm air pipes for furnaces. Will not burn even if brought into contact with flames. Rolls contain 450 square feet. Width, 36 inches. Actual weight and shipping weight, per roll, 50 pounds.

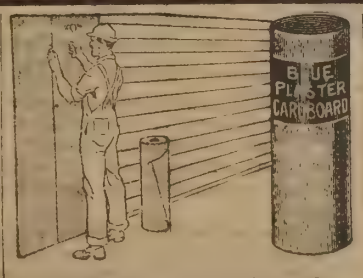
174 E 244—Per roll..... **$3.85**

Standard Deadening Felt

Nothing is more annoying than to hear every footstep and sound from the floor above. This Felt will help to overcome this trouble. It deadens the sound through floors and walls. Makes an excellent protection against frost and also insulates against heat.

Adds greatly to the comfort and warmth of the home when used between floors. It is made thick and heavy. Each roll contains about 450 square feet. Width, 36 inches. Price is subject to market changes. Actual weight and shipping weight, per roll, 50 pounds.

174 E 237—Per roll..... **$2.65**



Blue Plaster Cardboard

A strong, durable Cardboard of very tough texture, used for sheathing and under clapboards and especially for sheathing walls and ceilings of temporary buildings, attics and cellars. Applied over boards or direct on studding with large head tacks and covered with wall paper or wood panel strips at the seams. Purple blue color. Width of roll, 36 inches.

174 E 234—Rolls contain 250 square feet. Actual weight and shipping weight, per roll, 30 pounds. Per roll..... **$1.15**

174 E 235—Rolls contain 500 square feet. Actual weight and shipping weight, per roll, 60 pounds. Per roll..... **$2.25**

Red Rosin Sized Sheathing

For use under siding and between floors.

Made of best pulp paper stock with a hard smooth surface, thoroughly rosin sized, which helps to exclude wind, moisture and vermin. Tough, clean and durable.

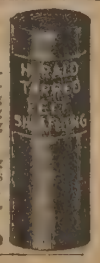
Rolls contain 500 square feet. Width, 36 inches. **Prices subject to market changes.**

174 E 218—Light. Actual weight and shipping weight, per roll, 20 pounds. Per roll.. **75¢**

174 E 220—Medium. Actual weight and shipping weight, per roll, 30 pounds. Per roll. **$1.12**

174 E 223—Heavy. Actual weight and shipping weight, per roll, 40 pounds. Per roll. **$1.50**

Herald Tarred Felt Sheathing



Made from tough Felt, thoroughly waterproofed with distilled tar. For use between sheathing and siding, also in lining floors. Resists wind and moisture. Strong and durable. Better than ordinary building paper. Clean to handle.

The faint tar odor of this sheathing keeps away mice, rats and insects. Rolls contain 500 square feet. Width, 36 inches. Actual weight and shipping weight, per roll, 45 pounds

174 E 226—Per roll..... **$1.80**

Tarred Roofing Felt

A good grade of tough Felt, saturated with distilled coal tar. Used for roofing sheds and temporary structures. Also used in making built-up tar and gravel roofs.

Order tin caps and nails separately, as they are not included. Use 1½ pounds tin caps and 1 pound nails to each roll

Rolls contain 432 square feet. Width, 32 inches. **Price subject to market changes.** Actual weight and shipping weight, per roll, 64 pounds.

174 E 249—Per roll..... **$1.90**

Prices on Building Papers and Felts are subject to market changes. Orders will be priced at lowest prices prevailing when received.

Why not Re-Roof it Now? Yourself!

Samples Sent Free on Request

LAP-KAPS make it easier!

You can do a perfect roofing job, with no buckling or warping of laps, and no interrupted seams. These heavily galvanized non-rusting strips bind each seam with even pressure. No cementing is needed—no experience required to use them. Simply lay over laps and nail in place. Unite roof to sheathing with viselike grip, and are quickly, surely and simply applied. Roofing can be laid either up and down or across, and the Lap-Kaps give the roof a more attractive appearance. Will absolutely prevent buckling at the seams. Roofing always remains flat. No wrinkling, no puckering between nails. Perfect security even when nails enter cracks between sheathing boards. Furnished with your roofing at small added cost and with full instructions for use. Never shipped separately. Prices at right.

Lap-Kaps

CERTAINLY you can, in spare time, with no tools but hammer and jack knife! No experience needed, either. And put your new Slate Surfaced Roof right over your old shingles, if you like—easy as unrolling and laying a carpet. And once on, good-by to fire worries, that everlasting "fixing" of leaks, tinkering, repairing and repainting. Notice how little is your cost—how big your insurance saving—the fire protection and attractive appearance you get—the beautiful "brand newness" imparted to your buildings! All by using Ward's RADIO Roofing with its long wearing Slate Surface. You have your choice of colors—red or green.

Ward's RADIO Roofing is built up of the highest quality heavy sheet roofing felt, thoroughly saturated in hot asphalt (Nature's supreme water resistant). The saturated felt sheet is then heavily coated on both sides with a thick layer of asphalt, and into the top layer a surfacing of fire resisting crushed slate is placed and forced into the fabric under pressure. The result is a tough, pliable, long wearing roof material, impervious to rain or snow—permanent—sparkproof—easily and quickly laid without previous experience—suitable for any building in any climate—and **much less expensive in the long run than any other type of roof you can buy.**

Guaranteed for 15 Years

Actual experience has proved this period of service to be a minimum. Approved by the Underwriters' Laboratories, Inc., under direction of the **National Board of Fire Underwriters.** Serviceable and practical, RADIO Roofing also adds to house or barn a real beauty touch. It never taints nor discolors rainwater, and its strong, firm, flintlike, resisting surface over the felt and asphalt body gives distinct appearance and means years of "Wear Like Iron."

Inspect Your Old Roofs Today. Perhaps your old felt needs replacing, or your metal roof is ragged, jagged and leaky. you have an old style wood shingle roof, notice how time and weat have split and warped the shingles, started leaks and given y house or barn that old, dilapidated look ten years too soon! A **the danger from fire.** One flying spark might kindle your shin roof and burn you "out of house and home"; yet one new RAD Roof frees you from that fear.

Figure Your Saving per roof, against shingles or metal. T remember your freedom from extra labor, hunting up tinner or roo and continuous repair and repainting bills. Consider the strik color effect you can obtain—the assurance of fifteen or more years of roof contentment ahead, the joy of possessing well kept protected property, that RADIO Roofing provides. All for a l spare time work with no tools but hammer and jack knife. Fran can you afford **NOT** to reroof now, protected by Ward's guarat of satisfaction or your money ba Each roll contains sufficient r and cement (or Lap-Kaps) for l ing 100 square feet of roofing.

Full size rolls, containing square feet—enough to cover square feet (a space ten feet squa with laps allowed for. Weight, roll, approximately 85 pounds.

Shipped from warehouse ne est you, to save you freight.

Ward's RADIO Asphalt Shingles

Look around you—in city, town and country—and see what kind of roofing is used on most of the better grade homes. You will find it to be **Asphalt Shingles.**

More fine homes are roofed with asphalt shingles than with any other type of roofing. They have almost taken the place of wood shingles, because they are **safer, last longer and make a more attractive roof.**

Individual Type

$5.95 A Square

Enough to Cover 100 Square Feet

RADIO Individual Asphalt Shingles are exactly the same as the best standard shingles you see in your local lumber yard and on good homes everywhere. The only difference is in the price—we can save you money there.

They are weatherproof, waterproof and sparkproof. **Approved by the Underwriters' Laboratories, Inc.,** and guaranteed by us for 15 years.

Constructed of extra heavy roofing felt, saturated and coated with asphalt. Surfaced with red or green fire resisting crushed slate.

RADIO Individual Asphalt Shingles never warp or curl, and they require no painting or staining. Colors are permanent and non-fading.

Shingles 12¾ inches long, 8 inches wide; 424 shingles to the square (enough to cover 100 square feet of roof). Shipped in crates containing 106 shingles each—4 crates per square. Use 4 pounds 1-inch nails per square if laying right on decking or 6½ pounds 1¾-inch nails per square if over wood shingles. Order nails separately (see page 679).

Actual and shipping weight, per square, 240 pounds.

174 E 122—Red. Per square. **$5.95**
174 E 123—Green. Per square **5.95**

Shipped from Northern Illinois, Central Pennsylvania, Southern Illinois or Southern Louisiana

You Can Buy Asphalt Shingles From Us at Less Than Usual Wholesale Prices

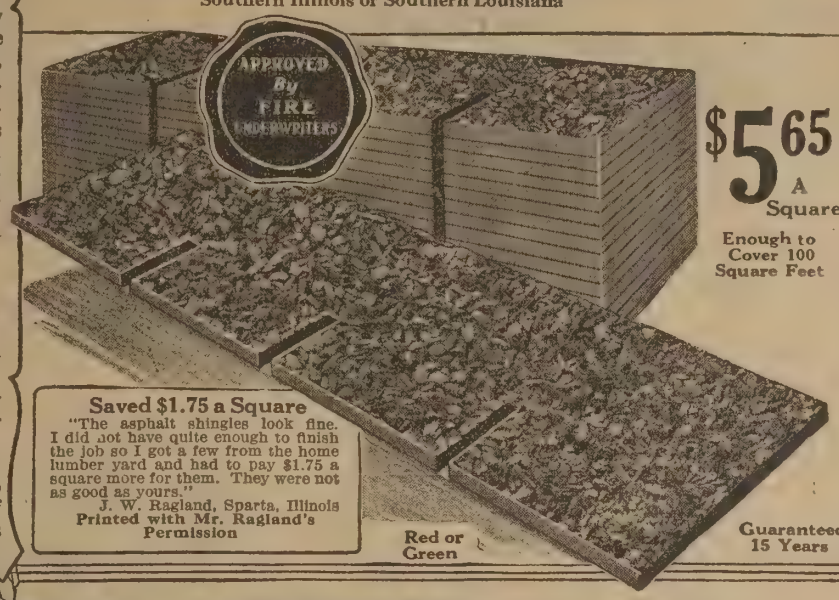
Our prices on Asphalt Shingles are unusually low. They are based on purchases made months ago—and, at this time, offer you a mighty big saving.

Prove this to your own satisfaction. Compare our prices with others. We believe you will find our prices considerably lower—actually less than the usual wholesale price.

Use Radio Shingles Lay Them Yourself Make a DOUBLE Saving

No special tools needed and no experience required.

You can lay them on a new roof right on the decking, or over an old roof without removing the old wood shingles. You can finish the job in no time at all and have a roof that will last for many years to come.



Saved $1.75 a Square

"The asphalt shingles look fine. I did not have quite enough to finish the job so I got a few from the home lumber yard and had to pay $1.75 a square more for them. They were not as good as yours."

J. W. Ragland, Sparta, Illinois
Printed with Mr. Ragland's Permission

Red or Green

$5.65 A Square

Enough to Cover 100 Square Feet

Ward's RADIO Asphalt Strip Shingles

Four-in-One—Save Time and Money

Especially if you plan on laying your own Shingles, this strip style is a great convenience. It enables you to lay **four** shingles in the time it usually takes to lay one. On the finished job you can't tell the difference—the notches in the edges make the strips look exactly like individual shingles when laid.

Made of the same material as RADIO Individual Shingles. Strip 32⅛ inches long, 10 inches wide; 112 strips to the square—packed in two crates—fifty-six strips in each. Use 2½ pounds 1-inch nails per square if laying right on decking, or 5 pounds 1¾-inch nails per square if over wood shingles. Order nails separately (see Page 679). Actual and shipping weight of strips, per square, 200 pounds.

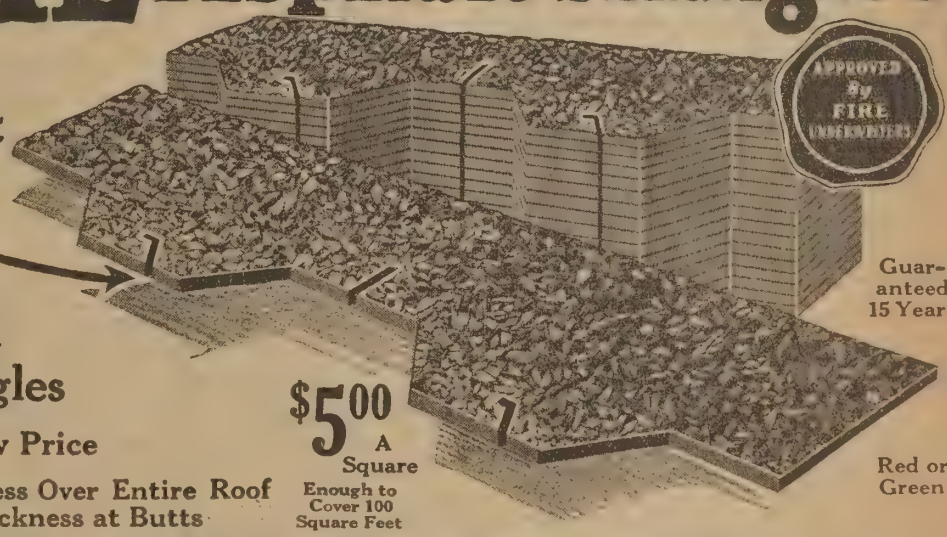
Ward's STA-TITE Asphalt Shingles

With the Weather tight Lock



Guaranteed 15 Years

Red or Green

$5.00 A Square

Enough to Cover 100 Square Feet

The Latest Improved Asphalt Shingles

At an Unusually Low Price

UR Newest Asphalt Shingle. An exclusive Montgomery Ward & Co. product, with patented shape and method of locknot found in any other shingle. Equal in t and wearing qualities to other standard In addition it has a weather-tight lockevice which means double protection and r life. But because it is exclusively our roduct, we can offer it to you at an unly low price.

proved by the Underwriters' Laboratories, and **guaranteed by us for 15 years.**

Make a Beautiful Roof

Tite Asphalt Shingles have a different hexagonal which makes a distinctive and unusually good looking The pleasing red or green color of Sta-Tite Asphalt s enhances the beauty of this design. You will be han proud of your home if roofed with Sta-Tite Asshingles.

A Lock That Actually Locks

patented lock in Sta-Tite Asphalt Shingles absoprevents wind and rain from beating up under ingles. The shingles fit together snugly and ao—the lock is accomplished by slipping the tab of er shingle into the slot of the lower shingle. Very and easy—see illustration at right.

guarantee Sta-Tite Asphalt Shingles for 15 years, most cases they should last longer. Made of select felt, saturated and coated with asphalt and surfaced layer of natural crushed slate.

Double Thickness Over Entire Roof Triple Thickness at Butts

The heavy construction of Sta-Tite Asphalt Shingles insures reliable protection. The lock and over-lapping features make protection doubly sure. Storm, rain, snow, hail and wind beat on your Sta-Tite Asphalt Shingles in vain. Slate surface resists cinders and sparks. Colors are permanent and never fade. Will not taint or discolor rainwater.

Easy to Lay—No Special Tools Required

Sta-Tite Asphalt Shingles will give satisfactory service on any roof having slope enough to allow the shingles to drain well.

Use them on new roofs or old. They can be put on right over a wood shingled roof without removing the old shingles. Anyone can lay Sta-Tite Asphalt Shingles. A hammer and a jack knife are the only tools needed. We furnish complete printed chart and instructions with each order. Packed seventy shingles to a bundle; two bundles will cover 100 square feet. Use 2¾ pounds of 1-inch nails per square, if laid directly on the roof deck; 3½ pounds of ¾-inch nails per square if laid over old wood shingles. Nails do not show—they are completely covered up by the shingles. Order nails separately (see Page 679).

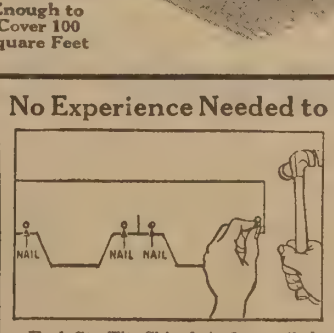
Price Per Square

A Square is Enough to Cover 100 Square Feet

174 E 126—Red. Per square..... **$5.00**
174 E 127—Green. Per square..... **5.00**

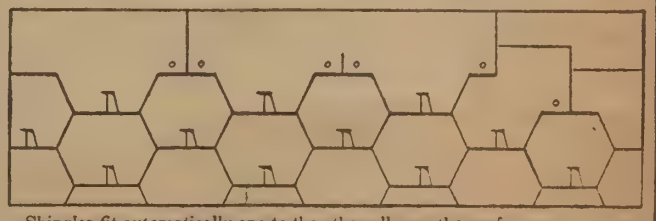
Shipping weight, per square, 200 pounds
Shipped from Northern Illinois or Southern Illinois

No Experience Needed to Lay STA-TITE Shingles



Each Sta-Tite Shingle is first nailed in four places as shown.

Then tab of upper shingle is slipped in lower, making the "lock."



Shingles fit automatically one to the other all over the roof.

"A" Quality Interior Doors

Bungalow

Villa

These Doors are especially well made of finest selected old growth Douglas Fir. This wood is far the most beautiful of our semi-hard woods and will take any sort of a stain, varnish or enamel perfectly. The panels are made of three pieces glued together with the grains running in different directions. This absolutely prevents warping. Panels are full ⅜-inch thick. The stiles and rails are edge-grained and are 1⅜ inches thick.

Superb Four Ply Fiber Wall Board

Ward's Superb Wall Board is just what you will need when you are making repairs or alterations. If you are building a new home, beautiful paneled walls artistically stippled, painted or tinted will add immensely to the value and appearance of your building. Superb Wall Board is light in weight which makes it economical to ship, but in spite of its light weight it is extra tough and durable and if properly applied will give years of satisfactory service.

The board comes to you painted with a linseed oil paint, a cream color being used on one side and a salmon color on the other. This enables you to use our wall board without further decoration if you desire to do so. The linseed oil paint coating on the board gives you an attractive permanent waterproof finish. Any dirt or finger marks on the board can be removed easily with soap and water after the board is in place.

No experience is necessary in order to put on this wall board. Wide sheets reach the distance of two or three studding, requiring fewer joints, and long lengths reach the distance from the floor to ceiling. Any one who knows how to handle a saw and drive nails can do a first class job of applying our Superb Wall Board.

If you are building or repairing why bother with lath and plaster with its accompanying mess, delay and inconveniences? Our Superb Wall Board will do the work quicker and cheaper and your attractive paneled walls will be a constant source of satisfaction.

Construction

Superb Wall Board is really nothing more or less than manufactured lumber which is knotless, crackless and can be sawed and nailed the same as any other kind you might purchase. The logs from which this board is made are first ground into pulp which is beaten up in the big beaters in the mixing process and then rolled into long sheets of tough heavy fiber board. Four layers of this board are then securely cemented together and cut into large flawless sheets.

Buy For Cash and Get Our Low Cash Price

WHEN you buy a Wardway Home you pay only for what you get. You pay nothing for interest charges. You pay nothing for extras. You pay only for actual cost of materials—and our strictly cash business saves you money on that.

We Buy and Sell Wardway Homes Only for Cash

We can buy at lowest prices because we pay cash for every item. And we can sell at lowest prices because all our sales are made for cash. You can make a double saving when you buy a Wardway Home—the saving on our cash purchase and an even greater saving on our cash sales.

Save Interest Charges

When you buy from us you pay nothing for interest, either outright or concealed. You pay no share of losses through bad accounts, nor the expense of a bookkeeping department and legal fees. You pay the actual cost of materials plus the one small profit we ask on each sale.

You Easily Can Take Advantage of These Savings

Arrange now for that home you have been planning—and save money by buying a Wardway Home for cash. If you have not the ready cash on hand, you can arrange with your local bank to furnish you any part of the amount you need. Then you can take advantage of our low cash prices and get the full benefit of the savings we offer you.

First Floor Plan

THIS beautiful Dutch Colonial Home is only one of the many in our Book of Wardway Homes shown above. The complete book describes for you more than eighty different types and styles of houses, cottages, summer cottages and garages. This book shows you exactly how they would look on your ground, giving complete plans and specifications covering every detail of the materials and equipment.

The Harvard is the result of careful, thoughtful designing—the work of architects who have for years been studying beautiful American homes. And it is typical of the attractiveness and low prices of our entire line.

Every detail is modern and up to date. The whole is planned to give a maximum of beauty and comfort, without wasting so much as a foot of space.

The rooms are large, light and well ventilated, making an economical as well as a beautiful home.

Guaranteed Materials

All materials are strictly first grade, carefully inspected before leaving the mill. We guarantee that every piece of material furnished will be absolutely reliable and satisfactory in every respect. We agree to make good any shortage or replace any material not up to specifications.

No Extras to Pay

When you buy a Wardway Home there are no extras to pay. You know positively before you start what all the materials are going to cost you. No waste—consequently no running short.

Choice of Ready-Cut or Not Ready-Cut Designs

Wardway Homes are permanent; they are **not** portables. They are solid throughout **and built to last.**

We can furnish them Ready-Cut—with all materials cut and fitted at the mills; or Not Ready-Cut—all materials furnished complete but not cut to size as in the Ready-Cut homes. We make shipments direct from nearby mills, saving you time and freight charges.

Get This Book First

Our Free Book tells you all about the Wardway mills, the Wardway methods—and describes in detail the many savings you can make buying the Ward way.

Send us a postal card or ask for a copy with your next order. Be sure and see this book **first, before you decide.**

Ward's Sattley Farm Equipment

George H. Munns

Are You Getting the Most From Your Farm?

Good Equipment plays an all important part in quick and profitable production. In this respect, farming does not differ one bit from any other trade or occupation. You must have good equipment to farm profitably—and, after all, every farmer is in business to make money.

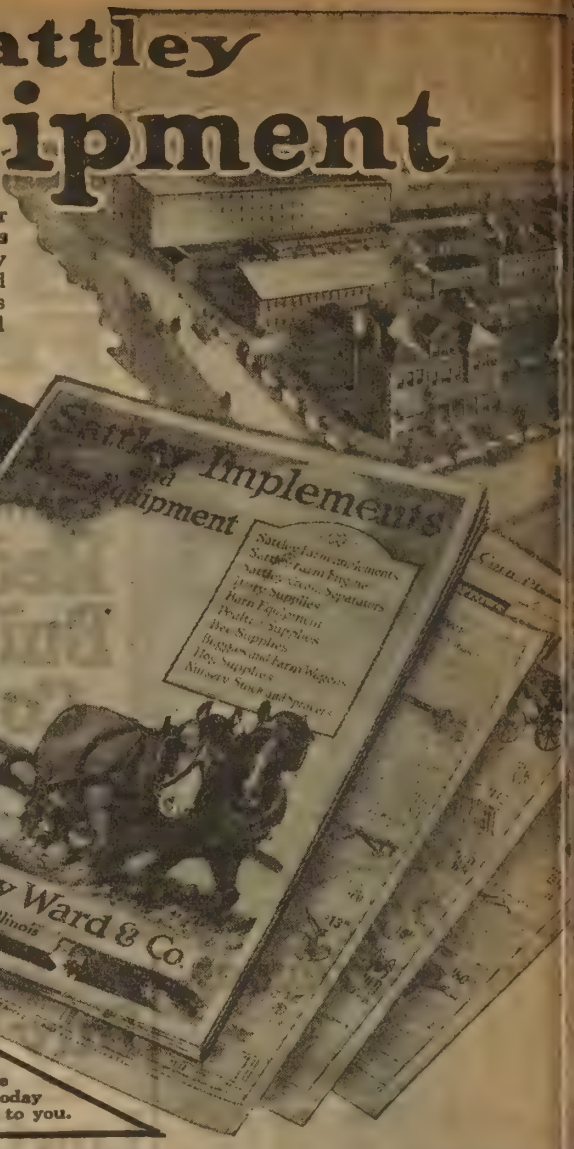
Yet there are many farmers who do not realize that their profit depends upon lowering labor costs and harvesting their crops quickly to get the highest market prices. Right here is where time and labor saving equipment proves its worth by making every farm pay its best.

My wide experience, first as a farmer, and for eighteen years here at Ward's where I now am manager of this division, has taught me exactly the kind of equipment most farmers need. By making all Sattley Implements in our own factory, and under our own personal supervision, we can guarantee that they are as good as farm implements can be made.

For over seventy years thousands of farmers have profited by using Sattley Equipment. Right now farmers are saving many thousands of dollars by buying this equipment direct from Ward's on a basis of "Satisfaction Guaranteed or Your Money Back."

GEORGE H. MUNNS,
Manager Farm Equipment Department.

The SATTLEY name on farm equipment has always stood for quality. Ward's consistently maintain this quality, as well as the low prices which are made possible only because Sattley Implements are shipped to you direct from our factories, and just one small profit is added. That is how we can sell implements of high quality at the low prices you will find in this catalogue and in our special Farm Equipment Catalogue.



Send for Free Farm Equipment Catalogue

Quick Service When You Need It Most

SATTLEY owners often write us about their "freedom from trouble," and there is a reason for this freedom. SATTLEY machines are as simple in construction as we can make them. We always have taken a great deal of pride in this freedom from trouble, but we take an even greater pride in our prompt repair service whenever it is needed. By a special system of handling repair orders at each of our stores and at our factory, repairs are on their way within a few hours after the order reaches our implement division. Repair parts are available promptly and at low prices, whenever you need them.

Buy From Ward's— You Take No Risk

Begin now to enjoy the savings of time, labor and money made possible by modern equipment. Get this equipment at the lowest prices and you will make an additional saving which will be well worth while. You take no risk whatever, because Ward's guarantee Satisfaction or Your Money Back.

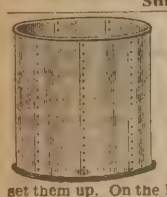
Shipped from Wisconsin

Steel Storage Tanks



$31.25

Made of No. 20 gauge galvanized steel. Riveted and soldered seams. Tanks are all set up in the shop and as much work is finished as possible. All holes are punched. Shipped taken apart but you seldom need to put together more than two joints. Solder and rivets, also instructions with each, so it is simple and easy to set them up. On the larger sizes we do not recommend less than No. 18 gauge; see extras for heavier tanks at the bottom of this page. Note also extras on this page for covers and connections.

289 E 6156..... **$10.95**
Shipped from Central Illinois

Superior Cream Separator

$3.60

Neat in Appearance
Easy to Clean—Sanitary

The Leader of Dilution Separators

Get more cream from your milk than with the old skimming process by using a Superior Dilution Separator. Separates cream from milk in three to four hours. A clean, convenient method of separation.

Operated by adding an equal quantity of cold water or ice to the milk. Milk must be strained into the separator as quickly as possible after milking, while it is warm with the natural animal heat. As the water mixes with the milk, the cream separates and rises to the top. You always have sweet diluted milk, which is a much better stock food than sour milk.

The deep cone bottom with faucet permits drawing off milk without disturbing cream.

Made of extra heavy tin, lock seamed and soldered; hardwood legs. Average height, 43 inches. Tank enameled blue outside and decorated.

Prices include tank with gauge glasses, reversible cover with strainer and faucet. Instructions with each.

Article Number	Capacity	Ship. Weight	Each
487 E 4250	10 gallons	13 pounds	$3.60
187 E 4251	14 gallons	17 pounds	4.35

187 E 4253	24 gallons	21 pounds	6.20
187 E 4254	32 gallons	31 pounds	6.95

Double Can Cream Separator

Keeps cream cool and separates cream from milk, in four to six hours. Inner tank for milk made of pure charcoal tin with an upright tube connected with the water in the outside tank. This provides complete circulation of cool water both inside and outside the milk tank. Outer or water tank made of galvanized steel. Gauge glasses in both cans show depth of cream. Separate faucets to draw off water or milk.

Article Number	Capacity Milk Tank	Capacity Water Tank	Ship. Wt.	Each
487 E 4258	4 gals.	9 gal.	15 lbs.	$5.85
187 E 4259	8 gals.	18 gal.	20 lbs.	6.75

$3.35 Iowa Milk Can

A good quality, low priced Can for wagon use. Special lock-joint neck, same as our Elgin cans. While not quite as heavy as the Elgin railroad type, it is a first class can for ordinary use. Body is stiff steel plate, double tinned with rounded bottom hoop; rigidly riveted together. Handles strongly riveted also. No open seams—easy to clean.

487 E 4306 — 5-gallon size. Diameter, 10 inches; height, 19¾ inches. Shipping weight, 11 pounds..... **$3.35**
487 E 4308—8-gallon size. Diameter, 13 inches; height, 21½ inches. Shipping weight, 15 pounds..... **$4.50**

Elgin Pattern Railroad Milk Cans

$3.95

The Elgin Pattern Milk Can is one of the most popular cans sold, and fully meets every requirement of the particular dairyman. Stands roughest handling. Made of heavy milk can steel, double tinned, and all seams heavily soldered. Easy to keep clean and sanitary—no open seams to catch or hold dirt. Handles strongly riveted. Breast and bottom fully rounded for strength. Bottom and top solidly and neatly riveted to bottom hoop. Special lock joint connects breast with neck—will not pull apart nor leak. When piled up, the weight comes on neck joint which in the Elgin Pattern is built to stand extra strain. Strictly a superior quality can in all respects.

Article Number	Capacity	Diameter	Height	Shipping Weight	Each
487 E 4300	5 gallons	10 inches	19¾ inches	12 pounds	$3.95

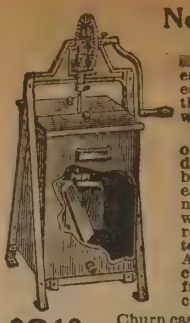
New Steel Churn



The strong construction, the light weight and the ease with which it is cleaned, are three features of this Steel Churn which women will appreciate.

Easy to Clean. One turn of thumbscrew releases dasher so that it may be removed quickly and easily for cleaning. Dasher made of fine grain hardwood and attached to steel rod which is heavily tinned to permit easy cleaning. After dasher is removed, churn case may be lifted from frame and easily cleaned.

$3.10 Churn case is heavy steel, triple tinned inside and baked enamel finish outside. Legs and standards all steel, firmly riveted together and coated aluminum finish. Gear, wheels and top castings made of iron. Lids select hardwood, natural finish. Shipping weights, 9, 13, 15 and 19 pounds.

Article Number	Cap.	Churns Gallons	Each
487 E 4215	2 gal.	½ to 1	$3.10

Improved SATTLEY Cream Separators
At the Same Low Prices

Newly improved—the SATTLEY today is one of the best Cream eparators made. You can compare it with any other make or model, egardless of price. Yet, because we make the SATTLEY Separator urselves, we are able to sell it to you at much less than you would rdinarily pay for a separator of standard design. Also, because of the ig demand—which permits the most economical peration of our factory—we have not had to ncrease our prices to take care of recent ad- ances in material costs.

We are still selling the SATTLEY at the ame low prices.

No matter how few or how many cows you ilk, you are losing money every day you go without a good Cream eparator. Every day you feed good money to your hogs and small nimals that should be added to your working capital. Stop this loss -by buying a SATTLEY now.

You can put the SATTLEY Separator to work on your farm and se it for thirty days. If you don't find it as good as any other separator, egardless of price, write us for return shipping instructions. We will ake it back and refund your money, including all freight charges you ay have paid. Isn't that the fairest, squarest proposition anyone ould make? You can accept our offer in perfect safety—because there re no better cream separators made today than the SATTLEY.

You save money on SATTLEY upkeep. Montgomery Ward & Co. uilds the SATTLEY Separator in its own factory, and will continue to uild it for many years. That means that all SATTLEY parts are tandard. If you should ever need replacements or repairs, you can et them easily and at low cost, shipped promptly from our centrally ocated factory.

Every SATTLEY is thorough- tested and inspected before is shipped. It reaches you ady to be put to work.

$5.00 Down
10 Months To Pay

Use Easy Payment Order Blank on Page 719

30 Days' Free Trial

Only $5 puts any SATTLEY Separator to work on your farm! Try it for 30 days. Notice the difference in your cream checks. Then if you feel that you can get a better separator anywhere, write us for return shipping instructions. We will refund your money immediately and all shipping charges you have paid. The trial will not cost you one cent. The risk is all ours—the saving is yours.

We Urge You to Compare the SATTLEY With Any Separator on the Market

Compare it under the same conditions, side by side with any make, right on ur own farm, for thoroughness of separation—quality of cream produced—ease operation—simplicity of construction—durability—capacity—ease of cleaning, d selling price. You will find that the SATTLEY will skim to 3-100ths of per cent or better, yielding cream that churns in half the time—and delivers er butter than gravity raised cream. It is unsurpassed for easy turning—is adily taken apart for cleaning and is easily put together again. It operates much lower speed than many competitive machines—therefore, will last for ars. Do not hesitate. This is your opportunity to buy a first quality separator, lly protected by Ward's money back guarantee and reputation for half a century fair dealing, at a remarkable saving. If you have no separator, or have an d machine that does not skim clean, right now—before you suffer further losses get a new SATTLEY.

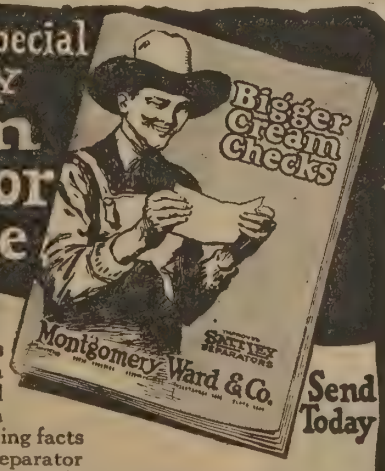
Read This Typical Letter

"I have been using one of your SATTLEY Cream Separators (No. 17) fourteen months without expense or trouble. I believe the SATTLEY to be equal to any separator made. It is among the easiest to clean and operate. The splash oiling system always assures all working parts being well oiled."

Albert C. McGill, Letts, Iowa.
Printed with Mr. McGill's Permission.

Send for this Special SATTLEY Cream Separator Catalogue



It's Free

Every man who is thinking of buying a cream separator should have this book which contains many interesting facts about separators and separator construction that everyone should know about.

It describes and illustrates the SATTLEY Cream Separator in detail. Shows you how easy it is to operate—how easy it is to clean—how carefully it is made. Explains how it gets all the cream that any separator could possibly get. Also it tells you what the many users of SATTLEY Separators have to say about them.

If you have any question about the proper size for your present or future requirements, you will find helpful suggestions here too. At the back you will find many useful things for the dairy.

A postal card will bring it to you by return mail.

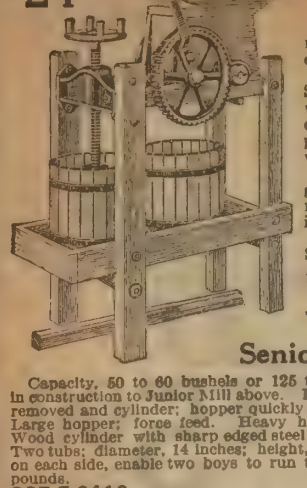
Junior Cider Mill

$24.20



One of the most popular Cider Mills made—just the right size for the average farm. Built by men of years of experience in the manufacture of high grade cider mills.

Force feed. Hopper and cylinder same construction as on Senior Mill below. Large hopper; fastens to top of frame with strong latch; removable for quick and easy cleaning of working parts. Wood cylinder with sharp edged steel pins; rapidly reduces apples to a pulp. Frame is hardwood, securely bolted. Press screw is heavy steel.

Equipped with two tubs; you can press pulp in one while grinder fills the other. Tubs well made of hardwood slats riveted to iron bands; diameter, 9½ inches; height, 10½ inches.

Capacity, 25 to 35 bushels or 60 to 70 gallons per day. Shipping weight, 155 pounds.

287 E 6418.....**$24.20**

Clamp Pulley, 8 by 4 inches, for belt power. Shipping weight, 10 pounds. Extra.....**$1.25**

Shipped from Southern Wisconsin

Senior Cider Mill

Capacity, 50 to 60 bushels or 125 to 150 gallons per day. Similar in construction to Junior Mill above. Illustration shows part of hopper removed and cylinder; hopper quickly and easily removed for cleaning. Large hopper; force feed. Heavy hardwood frame; rigidly bolted. Wood cylinder with sharp edged steel pins. Heavy steel press screw. Two tubs; diameter, 14 inches; height, 13½ inches. Two cranks, one on each side, enable two boys to run the mill. Shipping weight, 330 pounds.

287 E 6419.....**$39.95**

Clamp Pulley, 10 by 4 inches, for belt power. Shipping weight, 330 pounds. Extra.....**$1.65**

Shipped from Southern Wisconsin

Medium Cider Mill

Same construction as Junior Mill except larger capacity—35 to 50 bushels or 75 to 100 gallons per day. Diameter of press tubs, 14 inches; height, 12½ inches. Shipping weight, 215 pounds.

287 E 6415.....**$28.50**

Portable Platform Scale

Every farm needs a good Scale for general weighing. While moderately priced, this scale equals the best in both workmanship and material.

Frame and platform are extra heavy. Pillar and platform floor are hardwood, nicely painted and varnished. Brass beam and sliding poise. Bearings are self aligning; hard chilled and made of best grade tool steel. Tool steel pivots. Shipping weights, 150, 155 and 160 pounds.

$18.00

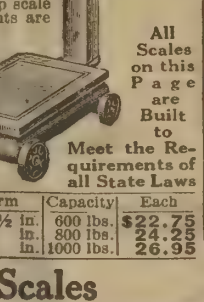
Shipped from Western Wisconsin

Beam on larger sizes is graduated in ¼ pounds to 100 pounds; on smaller sizes, to 50 pounds.

In setting up scale on arrival, no adjustments are necessary.

Article Number	Platform	Capacity	Each
287 E 6340	16 by 21 in.	600 lbs.	$18.00
287 E 6341	17 by 23 in.	800 lbs.	20.50
287 E 6342	18 by 25 in.	1000 lbs.	23.50

Portable Weightless Scale



Handiest and most suitable Scale for farm, factory or store. No loose weights to get lost. Full capacity shown on double beam.

Same as the portable platform scale except beam, which consists of two brass bars. Upper bar with small sliding poise graduated in ¼ pounds to 100 pounds; lower bar with large poise is notched and graduated in 100 pounds. Beam is convenient height. Reads from either side. In setting up scale on arrival, no adjustments are necessary.

Shipping weights, 157, 165 and 170 pounds

$22.75

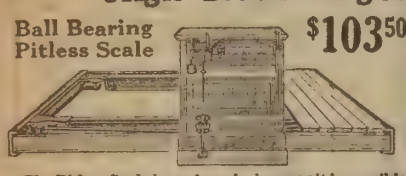
High Grade Wagon and Truck Scales

Ball Bearing Pitless Scale

$103.50



The Pitless Scale is preferred wherever it is possible to use it. It sets above the surface and is the most economical type of scale because there is no need for a pit, wall, frame or joists. Easily and quickly set and may be moved about with less trouble than other types.

Built on the five-lever principle—two pipe levers, one at each end of the scale, and two arm levers connecting the pipe levers; arm levers carry weight to cross lever which transfers it to beam. Cross lever is thus independent of motion of platform. In addition, all other levers are stationary so that jars of loads or other vibrations do not affect them, which insures accuracy.

Hardened steel ball bearings take the hard wear off the knife edges. Frame is made of steel channels with heavy I-beam joists. Standard compound beam; iron and brass highly polished; main bar weighs by 200 pounds; lower bar by 2½ pounds to 200 pounds, and 5 pounds to 2000 pounds. Hardwood beam box, well constructed, nicely painted and fitted with lock and key. Building plans and directions with each scale.

Prices of Pitless Wagon Scales

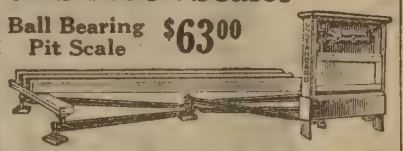
Shipped from Western Missouri

Ball Bearing Pit Scale

$63.00



All Scales set up and carefully tested before shipment. Made of best materials throughout. Guaranteed against defects due to workmanship or material. Sealed to U. S. standard weight.

If it is necessary to have your platform level with the surrounding ground, or if it is impossible to build approaches for any reason, you should order a Pit Scale. We furnish all working parts, standard full capacity beam and beam box. Platform and timbers not included.

Entire weight is carried on the foundations in the bottom of the pit. Therefore the wall and frame do not have to be nearly as heavy construction as is necessary with scales that hang from the frame. Frame and floor the same for all sizes; joists and bearing plank vary according to capacity.

This scale also has 5 levers, differently arranged and is strong enough to carry more than rated capacity. Has standard compound beam. Setting up does not require an expert; simply follow the plain instructions included.

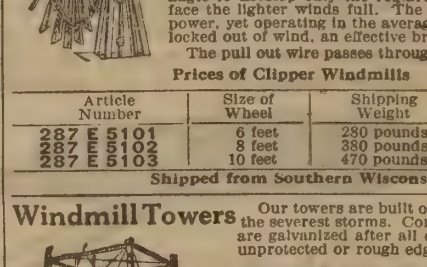
Ward's Clipper Windmill

Name of Your Farm Stenciled on Vane, Free, if So Ordered



There is great satisfaction in owning a Ward's Clipper Windmill because of its easy, quiet running, and its heavy construction. These windmills do not squeak and clatter. They work quietly always, and in perfect balance because they are made right and are equipped with ball bearings in the turntable.

The fan wheel is made up in 6 sections in all sizes except the 6-foot which has 4 sections. All mills have 4 sails to each section. Each section is rigidly supported by heavy anchor steel braces. The vane is made of heavy galvanized sheet steel and heavy steel bracing. An effective spring governor holds the wheel at the proper angle to develop only the required velocity for work in heavy winds causing it to face the lighter winds full. The mills are back-geared 2½ to 1 giving them great power, yet operating in the average wind at just the right speed for pumping. When locked out of wind, an effective brake holds wheel from turning.

The pull out wire passes through a swivel in the pump rod connection so mill may turn with the wind without entangling the wire.

When specified we can supply mast fittings with mill instead of wood or steel tower caps. Cap for wood tower is furnished unless otherwise specified; if for steel tower, state whether 3 or 4 post.

Prices of Clipper Windmills

Article Number	Size of Wheel	Shipping Weight	Each
287 E 5101	6 feet	280 pounds	$30.00
287 E 5102	8 feet	380 pounds	43.70
287 E 5103	10 feet	470 pounds	53.75

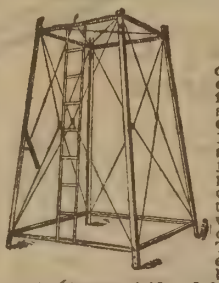
Windmill Towers

Our towers are built of strong galvanized steel and are made to withstand the severest storms. Corner posts, braces, cross girts, ladder bolts and nuts are galvanized after all cutting and punching is done so that there are no unprotected or rough edges.



Made in two styles or weights, each properly proportioned for mills they are designed to support. Cross girts for every 10-foot section; last set close to ground, just above anchor post joint. Each side of each 10-foot section has two rods which cross each other near center. These can be tightened so each pair bears same tension, making towers rigid and firm. Diagonal cross rods from corner post to corner post in every 10-foot section also, for squaring towers. Pull-out lever attached to left post when mill and tower are ordered together.

Note the weights of our towers, indicating the heavy construction, strength and rigidity.

Model No. 1. For 6-foot and 8-foot Mills

Article Number	Heights	Shipping Weight	Each

Concrete Batch Mixer

$28.75

Strongly constructed throughout so as to withstand any amount of hard service. Just the right size for all kinds of farm work. Will pay for itself quickly on any farm for such jobs as building granaries, sidewalks, foundations, feeding pens and walls. Pulley is 16 inches in diameter, with 3-inch face and should be run 150 to 200 revolutions per minute. Can be operated with 1 horse power engine and up. Crank is also furnished so that it can be run by hand when desired.

Frame is strong angle steel. Heavy steel drum. Cone shaped to give best results. Three blades inside get perfect mix. Drum is 18 inches top diameter, 22 inches bottom diameter, and 22 inches deep. Mixes one wheelbarrow load. Loads on either side and dumps on either side. Shoveling height, 38 inches. The yoke is held in the frame by bearings which bolt securely to the frame casting. Perfectly balanced so it can be tilted easily with full load. The gear ratio is 5¼ to 1. The bearings have hard oil cups with pulley. Shipping weight, 240 pounds.

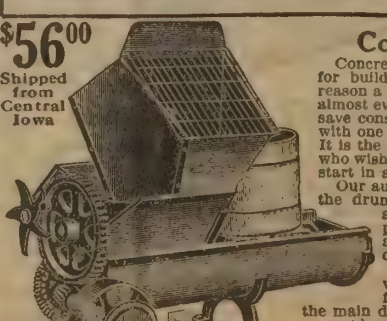
Automatic Continuous Concrete Mixer

$56.00

Shipped from Central Iowa



Concrete products and improvements are in great demand for building foundations, sidewalks and roads. For this reason a profitable contracting business can be worked up in almost every neighborhood. Or, if you are a farmer, you can save considerable money by doing your own concrete work with one of these fast working Automatic Concrete Mixers. It is the ideal size for individual use as well as for the man who wishes to develop a contracting business but prefers to start in a small way.

Our automatic mixer has a capacity of about 2½ cubic feet, the drum being about 4 feet long. Mixing is done by a revolving worm. Equipment includes a 12-inch pulley with a 3-inch face. Should be operated at approximately 200 revolutions per minute. A simple clutch provides for throwing in and out of gear.

Above the main drum is mounted an extra drum which has two gear driven worms. These two worms force the sand and gravel in a steady stream into the main drum below. Capacity of sand hopper, 2 cubic feet; cement hopper holds two bags of cement. You can get almost any mixture you want, from 2½ to 1 up to 8 to 1. Shipping weight, 350 pounds.

287 E 5852.....**$56.00**

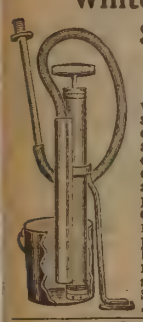
Sprayers, Nozzles and Accessories

Whitewash Sprayer

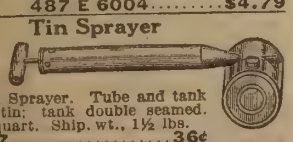


$2.10 Primarily for whitewashing but may be used for any kind of cold water paintingandspraying. Sprayer an. force pump galvanized steel and painted; top and bottom brass. Has large air chamber; pressure being held in air chamber on nozzle, operator can, with slow pumping, throw a continuous spray which is not affected by the movement of the plunger. Bottom cap with strainer; ball valve and pump plunger removable for cleaning. Equipped with 3 feet of best hose, 1 foot brass extension pipe and brass nozzle which gives two sizes of spray. Bucket not included. Shipping weight, 3½ pounds.
487 E 6012..... **$2.10**

Combination Sprayer

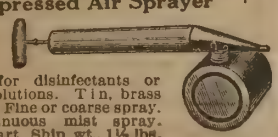
$4.79 A brass pump for strong spraying solutions. Fits any pail or bucket. Especially adapted for all kinds of garden, field and orchard spraying, but may be used for whitewashing, disinfecting and many special purposes. Produces continuous spray with slow pumping. Air chamber larger than ordinary makes pump more powerful than most bucket pumps. Throws a stream 50 feet. Agitator keeps liquids stirred.
Stirrup may be detached and pump bolted to barrel through casting provided for the purpose. Three feet of ½-inch hose with brass clamps and combination nozzle for fine and coarse spray included. Ship. wt., 9 pounds.
487 E 6004..... **$4.79**

Tin Sprayer



36¢
Household Sprayer. Tube and tank of polished tin; tank double seamed. Capacity, 1 quart. Ship. wt., 1½ lbs.
87 E 6017..... **36¢**

Compressed Air Sprayer



59¢
Especially for disinfectants or stronger solutions. Tin, brass working parts. Fine or coarse spray. Throws continuous mist spray. Capacity, 1 quart. Ship. wt., 1½ lbs.
87 E 6018..... **59¢**

Continuous Sprayer

$1.29
Tank double seamed galvanized steel; working parts brass and aluminum. Two nozzles for spraying forward or at any angle. Throws continuous mist spray. Capacity, ½ gallon. Shipping weight, 3 pounds.
87 E 6019..... **$1.29**

Sprayers, Nozzles and Accessories

Wheelbarrow Sprayer

For orchard, garden or field spraying, whitewashing, cold water painting and disinfecting.

$18.75

Made to withstand extraordinary wear. Width only 15 inches at widest point; clears narrow passageways of greenhouses. Working parts of pump are brass; 10-gallon galvanized tank; dasher agitater.

Especially Adapted For Use of Florists

Pump strong and powerful, yet easy to operate because it works on both up and down stroke. Continuous spray. Large, wide wheel makes it easy to push over soft or rough ground. Furnished with 8 feet of ⅜-inch hose and couplings; 3 feet of ½-inch iron extension pipe; and nozzle for fine or coarse spraying. Shipping weight, 60 pounds.
187 E 6062..... **$18.75**

Pennant Compressed Air Sprayer

$3.89

A high grade self contained Outfit. Adapted for all spraying purposes. Can not be excelled for spraying vegetables, plants, shrubbery, trees, flower beds; for whitewashing or disinfecting poultry houses, stables, cellars; or for washing windows, buggies and autos. In fact it will spray anything in liquid form.

Easy to operate; only a few strokes charges pump with compressed air. Full size 3¼-gallon galvanized steel tank; height, 20 inches; diameter, 7 inches. Brass pump with automatic lever nozzle; fine or coarse spray. Shoulder strap. No-kink hose; spring wire prevents breaking. Full directions and spraying calendar with each. Shipping weight, 10 pounds.
487 E 6013..... **$3.89**
87 E 6094—Brass extension pipe, 3 ft. long, ¼-inch diameter; with coupling. Shipping weight, 8 ounces..... **55¢**

Lever Nozzle

Works automatically with hand and fingers. Will not clog. Made of brass. Fits ½-inch hose. Shipping weight, 12 ounces.
87 E 6040..... **$1.10**

Spray Nozzle

Brass; threaded for ¼-inch pipe. Two nozzle caps for fine or coarse spray. Shipping weight, 4 ounces.
87 E 6046..... **69¢**

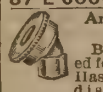
Bordeaux Nozzle

For cold water painting, whitewashing and spraying. Makes flat fan spray. For ¼-inch pipe. Shipping weight, 4 ounces.
87 E 6006..... **58¢**

Straight Spray Nozzle

Brass; threaded for ¼-in. pipe. Fitted with single disc; only for long distance spraying. Shipping weight, 2 ounces.
87 E 6065..... **28¢**

Angle Spray Nozzle



Brass; threaded for ¼-in. pipe. Has two steel discs for fine and coarse spray. Particularly useful in difficult places. Shipping weight, 2 ounces.
87 E 6063..... **42¢**

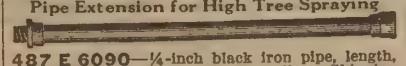
Spray Hose

Best grade. Any length desired. Shipping weight, 50 feet, 6, 9½ and 11½ pounds.
87 E 6104—⅜-inch; 3-ply; for hand sprayers. Foot..... 8½¢
87 E 6105—½-inch; 5-ply; for hand sprayers. Foot..... 12¢
87 E 6106—½-inch; 6-ply; for power sprayers. Foot..... 14¢

Fly Spray with Sprayer

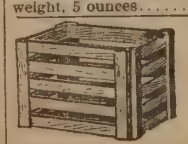
$1.05 Get rid of the flies for your own comfort and for the increased production from comfortable cows. This is not a low grade oil but a high quality spray which keeps flies away much longer than the ordinary spray.
87 E 6116—1 quart Fly Spray with 1 pint Sprayer. Shipping weight, 4 pounds..... **$1.05**
187 E 6118—1 gallon Fly Spray only. Shipping weight, 10 pounds..... **$1.15**
187 E 6119—Six 1-gallon cans of Fly Spray only. Shipping weight, 60 pounds..... **$6.75**

Pipe Extension for High Tree Spraying



487 E 6090—¼-inch black iron pipe, length, 4 feet. Threaded ends. One coupling. Shipping weight, 1¾ pounds..... **35¢**
487 E 6092—¼-inch galvanized iron pipe, length, 4 feet. Threaded ends. One coupling. Shipping weight, 1¾ pounds..... **45¢**
87 E 6094—Brass rod extension. ¼-inch. Length, 3 ft. With coupling. Ship. wt., 4 oz.. **55¢**
87 E 6096—Shut-off or Stop Cocks. Brass. Threaded ends to receive ¼-inch pipe. Shipping weight, 5 ounces..... **69¢**

Folding Field Crate

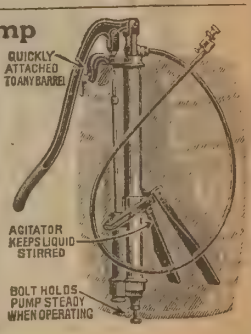


Capacity one bushel. Folds compactly. Corners wired. Length, 18 inches; width, 13½ inches; depth, 12 inches. Shipping weight, 7½ pounds.
487 E 2610..... **35¢**

Brass Bucket Sprayer

$2.45
For all kinds of spraying and for fire fighting, washing wagons, autos, buggies and windows. Fits any pail or bucket. Made of brass with malleable iron handle and adjustable stirrup. Brass valves and valve seat and brass plunger; not affected by poisonous arsenics in spraying formulas. Supplied with fire nozzle to throw horizontal stream 40 feet and combination fine and coarse spray nozzle; 3-foot hose. Bucket not included. Shipping weight, 6 pounds.
487 E 6000..... **$2.45**
87 E 6006—Bordeaux Nozzle for whitewashing. Shipping weight, 4 ounces..... **58¢**

Barrel Pump



$9.25 Pump Only
A high grade Barrel Pump for tree or general spraying and cold water painting. High pressure; double acting; requires no priming.
Made with heavy brass pump cylinder, brass ball valves, valve seats and brass nozzle; will not corrode or rust; not affected by strong spraying mixtures. Nozzle throws large powerful mist spray; spring needle keeps it clean. Easy to operate. Special canvas plunger packing will not wear out in strong solutions. Pump nicely finished in aluminum bronze. Best quality 5-ply ½-inch spray hose. Vermorel nozzle with two caps for fine or coarse spray. Barrel not included.
187 E 6026—Pump only, without hose or nozzle. Shipping weight, 45 pounds.... **$9.25**
187 E 6028—Complete with 5-foot hose and nozzle. Shipping weight, 40 pounds.... **$11.25**
187 E 6030—Complete with 15-foot hose and nozzle. Shipping weight, 51 pounds.... **$12.95**
487 E 6034—Extra 5-foot hose with nozzle and connection. Shipping weight, 3 pounds... **$2.10**

Tank Paint Sprayer

$10.50
For cold water painting and general spraying. Brass pump. Galvanized steel tank; holds 7 gallons. Produces powerful continuous unbroken spray or stream with slow easy pumping. Requires no priming. Dasher agitator keeps liquids thoroughly mixed. Pump quickly detachable from tank for separate use; tank can also be used alone for carrying water or other liquids. Equipped with 8-foot detachable hose, brass stop cock and brass nozzle. Shipping weight, 23 pounds.
187 E 6055..... **$10.50**

Sattley Gasoline Engine

Sold on 30 Days' Trial

Order the way you like best. If you wish to take advantage of our 30-Day Free Trial Offer, you may buy a Sattley Engine in your choice of two ways:

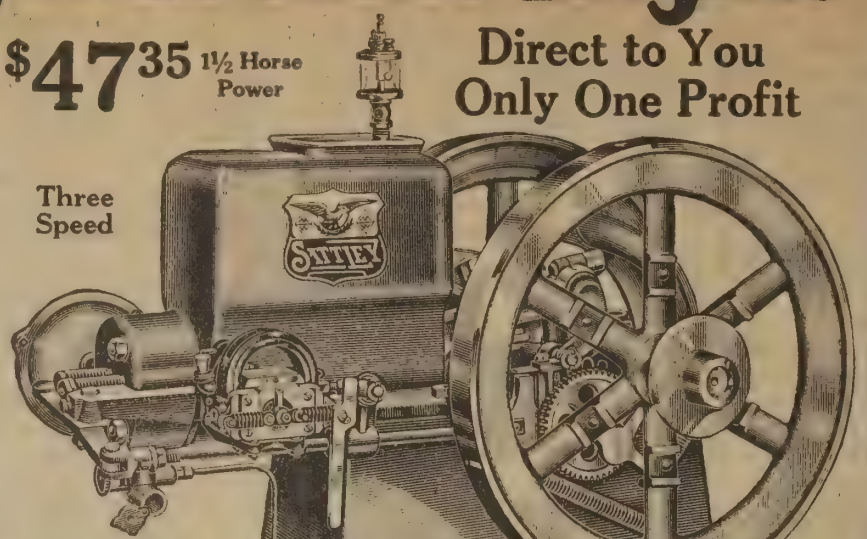
(1). You may send the full price to us with your order, under the protection of our guarantee of satisfaction or your money back.

(2). Simply send us your order in the regular way and give us the name of your bank. We will ship the engine promptly and send the bill of lading to the bank you have designated. When the engine reaches you, go to your bank and deposit with your banker the price of the engine. He will give you the bill of lading and will keep your money **in the bank** during the 30-days' trial. If for any reason during the 30 days, you wish to return the engine, merely write us for shipping tag, send the engine back to us, and present the bill of lading at your bank. Your banker will then refund your money and we will refund all transportation charges. The trial will not have cost you one cent.

$47.35 1½ Horse Power

Direct to You Only One Profit

Three Speed



Equipped with Webster Magneto

WHY spend needless hours of tiresome labor, when a Sattley Engine will do the work and do it at a small expense? Easy to start—even in cold weather—runs steady as a clock—delivers smooth, even power. Attach it to your pump, your churn, your grinder, your washer, your saw outfit or your ensilage cutter! Its tireless energy does the odd jobs while you are doing the more important and money producing tasks. It gives you and your family more time to plan—more time for leisure. Best of all, you can try, use and test a Sattley right on your own farm—**at our risk.**

Is an engine always better because it costs more? You frequently hear the expression, "The best is always cheapest in the end." Is there any reason why the best should be the highest priced engine on the market? Does the extra money you pay **for a high priced engine** actually and always go into the quality of the engine? How much of your money goes to pay for needless advertising, extra profits and other unnecessary sales expenses? Remember, we own the Sattley Engine plant and share with you the savings of manufacture, plus the savings of **selling direct by mail.**

Prompt Repair Service

Another important point to consider is repair service. Always be sure of your ability to secure repairs whenever wear or accident makes new parts necessary. Montgomery Ward & Co. guarantees always to take care of repairs on Sattley engines; ample provision has been made for carrying stocks of repair parts ready for your needs.

Write, telegraph or telephone us any time and the part you want will go forward immediately.

See the general features described at the right. The patented Three-Speed Regulator is the simplest and most perfect speed changing device on the market. This is a marked improvement over the common type of governor which can work accurately at only one speed. Simply push the hand wheel in or pull it out; you thus change the speed at will to meet the requirements of the job. The well known Webster magneto makes starting easy. Anyone can run a Sattley! Complete instructions with each engine.

1½ H. P. Gasoline Engine

One and one-half Actual Horse Power at normal speed of 550 revolutions per minute. Bore, 3½ inches. Stroke, 4 inches. Webster Magneto. Pulley: Diameter, 4 inches; width, 4 inches. Sattley Kerosene Engine

Throttling Governor

See the general features described at the right. **This is a real kerosene engine,** designed and built to operate on low priced fuel. No carbon trouble. It will also operate with equal satisfaction on gasoline or a mixture of both fuels in all kinds of weather.

It is a thoroughly dependable engine with plenty of reserve power; simple in construction, and exceptionally easy to operate. With the well known Webster magneto, you are assured of positive ignition and easy starting even in coldest weather. No batteries are needed; no loose connections; no ignition troubles.

We stand back of Sattley engines in every way. Our guarantee protects you fully. The few simple instructions, all that are needed, and a complete list of parts are shipped with each engine.

Consider again our method of distribution. By eliminating all in-between profits we are able to put the best of workmanship and materials into our engines and sell them direct to you through this catalogue at a fair profit for ourselves and at a great saving to you. You get a better engine for less money. Can you think of a single reason why you should not secure your engine direct from the factory or warehouse without paying someone a big commission? A sheet of paper and a two-cent stamp is the only agent you need. Prove our claims on your own farm **now—at our risk!**

3 H. P. Kerosene Engine

Three Actual Horse Power at normal speed of 550 revolutions per minute. Bore, 4¼ inches. Stroke, 6 inches. Webster Magneto. Throttling Governor. Flywheels: Diameter, 22 inches; weight, each, 70 pounds. Pulley, 6 by 4 inches. Crankshaft diameter, 1½ inches. Shipping weight, 515 pounds.

Friction Clutch Pulleys

Only 11 parts, simple to operate and adjust. Entire adjustment is made by tightening or loosening one nut. Hand wheel is one-piece casting without joints or lugs. Extra wide pulley bearing.

287 E 5280—These Pulleys are made for our Sattley Engines, but can be used on any engine having pulley of similar size and bore, provided crankshaft extends 3 inches or more and is key seated ½ by ½ inch.

Diameter and Face	Sattley Engine	Bore	Shipping Weight	Each
12 by 6 in.	5 h. p.	2 inches	60 pounds	$12.50
16 by 6 in.	7 h. p.	2½ inches	80 pounds	15.40

Shipped from Central Illinois

The Right Size Engine

Let us help you in the selection of your engine if you have any special problem; just tell us what you wish to do. Get plenty of power.

The 1½ H. P. size will operate your pump jack, separator, churn, washer or grindstone.

The 3 H. P. size is handy for the workshop, or it will run a 10 or 11-inch feed cutter, 4 to 6-inch feed grinder, 2-hole corn sheller, concrete mixer, cider mill, fanning mill or 20-inch saw.

The 5 H. P. size is most popular for general farm work, handling the tougher jobs, as it does, yet is economical of fuel on the lighter work. Power is ample to run a 26-inch saw, 250-watt dynamo, 6 or 8-inch grinder, or 12-inch cutter.

The 7 H. P. we recommend for an 8-inch grinder, 12-inch burr mill, 12-inch ensilage cutter with table, 16-inch cutter with carrier, 2-roll corn husker, 4-hole sheller, or a 30 or 32-inch saw.

The 9 H. P. will handle a 40-inch saw, the heavier baling presses, 4-roll husker, 14-inch ensilage cutter, 4-hole sheller or small thresher.

Send for Special Farm Implement Catalogue Showing Our Full Line of Engines—Also the Sattley Line of Implements.

Special Features of Sattley Gasoline and Kerosene Engines

The cylinder and base are made separate. If you wish to replace the cylinder at any time, this can be done without changing the base casting.

Three and 5-horse power engine bases are made in one piece. For the 7-horse power engine we use a double base. When this engine is mounted on a truck the lower base may be removed. This base casting is designed to support the engine and withstand the weight and vibration through all the years the engine will be in use. A substantial base of this kind is far superior to wood skids.

All bearings are provided with suitable oil holes or grease cups so they may be properly lubricated. The crankshaft bearings are babbitted with the best grade of babbitt metal we can get. The bearings are made of sufficient length to give the crankshaft plenty of bearing surface.

In addition to these general features, note the special details of construction listed below. Numbers refer to the diagram.

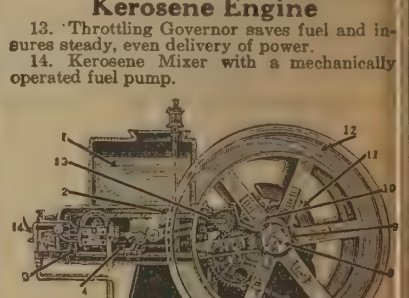
1. Ample Cooling Capacity in every size effectively prevents overheating.
2. Automatic Sight Feed Lubricator supplies oil to piston, cylinder and wrist pin bearings.
3. Webster Oscillator Magneto insures easy starting. No batteries, wiring or short circuits.
4. Large Cylinder Bore and Stroke for every size. Ample power at moderate speeds. Smooth finish insures long life and smooth running.
5. Fuel Tanks Inside Base, Safety First. Completely protected from fire or any damage by the heavy iron base.
6. Heavy Cast Base high enough to support the flywheels clear of the ground.
7. Adjustable Side Rod pull back spring.
8. Extra heavy Crankshaft made of high carbon steel. Ground and polished.
9. Wide Main Bearings adjustable. Wick oiled.
10. Connecting Rod especially designed of I-beam section. Wide bearings to take up wear.
11. Heavy, Strong Cast Shield, not thin sheet steel as is sometimes used by engine manufacturers.
12. Large Heavy Flywheels of proper weight and balance, insure smooth steady running without vibration.

Gasoline Engine

Has patented Three-Speed Regulator.

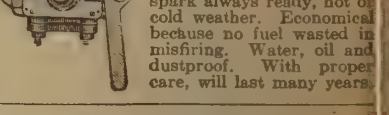
Kerosene Engine

13. Throttling Governor saves fuel and insures steady, even delivery of power.
14. Kerosene Mixer with a mechanically operated fuel pump.



Webster Magneto

Reliable Ignition—a hot spark always ready, hot or cold weather. Economical because no fuel wasted in misfiring. Water, oil and dustproof. With proper care, will last many years.



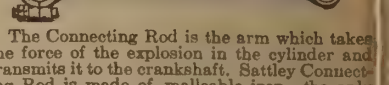
Connecting Rod

The Connecting Rod is the arm which takes the force of the explosion in the cylinder and transmits it to the crankshaft. Sattley Connecting Rod is made of malleable iron—the only correct material for connecting rods. Strong, tough and lasting. It is of I-beam construction, the same form used for the big girders for bridges and for connecting rods of locomotives.

Semi-Steel Pistons

Correctly designed, semi-steel, extra long, ground to an exact fit so as to cause as little friction as possible and still hold compression. Oil grooves are just the right size to lubricate perfectly without waste. Piston rings are fitted accurately to piston grooves, and are dowel pinned into place.

Carbon Steel Crankshaft



Forged from a solid piece of close grained, high tensile strength steel—the best known metal for the purpose; not a weld in it. Strong enough to carry twice the strain expected and then thoroughly heat treated to give it even more tensile strength. Every crankshaft is made according to our chemists' specifications and guaranteed perfect.

Reliable Lubricating Oil and Grease are shown on Page 615

Sattley Power Saw Rig Outfit

$205.50 Complete

Keep the boys busy. Let them earn extra money during slack seasons. One of these Outfits will pay for itself many times over by helping to maintain a steady income the year round. Saw wood for yourself and your neighbors; in addition use the engine separately for countless other jobs on the farm. Saw frame may be detached quickly giving you a most dependable portable power rig. Engine is thoroughly dependable, easy to operate, easy to start, requires almost no attention. For complete description of all Sattley engines, see Page 690.

Saw frame is of tilting table type, all steel and well braced. Mandrel takes saws with 1⅛-inch arbor hole; 60-pound flywheel. A standard steel cordwood saw is included; 26-inch diameter with 5 H. P. size; 30-inch diameter with 7 H.P. size.

The truck has heavy 5-inch channel steel beams, 8 feet long, and 1⅝ round axle, 62 inches long. Axle is solid steel, further strengthened by 3-inch I-beams with braces to rear axle and to fifth wheel. Front wheels, 24-inch with 4-inch grooved tires; rear wheels, 32 inches in diameter. Complete outfit includes truck, engine with Webster magneto, frame, belt and saw with saw rigs. (Neckyoke, singletrees and doubletree not included.)

Article Number	Description	Shipping Weight	Each
289 E 5080	Saw Rig Complete with 5 H. P. Gasoline Engine	1670 pounds	$205.50

Sattley Engines on Hand Trucks

$52.35

Engines Described on Page 690

A Sattley Engine mounted on a Hand Truck will save you a good deal of hard work, to say nothing of time. And because more work in less time means greater profits, no farm should be without one of these. Decide now to put a Sattley outfit to work on your farm.

The 1½ horse power engine is mounted on a suitable, sturdy steel beam truck. The 3 horse power engine is mounted on a heavy wood beam truck. The wheels are 9 inches in diameter, with 2-inch tires. Pipe axles, 1 inch in diameter. Wood beams, 42 by 3½ by 3½ inches. The 5 horse power engine is mounted on a steel channel beam truck with I-beam braced axles; wheels, 14-inch front and 20-inch rear, 2½-inch face.

The front trucks may be swung around and set crosswise to help brace the engine when running. Either kerosene or gasoline engine furnished for the 3 and 5 horse power. Gasoline only for the 1½ horse power.

Article Number	Size	Description	Kind of Truck	Shipping Weight	Each
289 E 5043	1½ horse power	Gasoline	Steel Beam	310 pounds	$ 52.35
289 E 5059	3 horse power	Gasoline	Wood Beam	545 pounds	88.75
289 E 5162	3 horse power	Kerosene	Wood Beam	590 pounds	91.75
289 E 5088	5 horse power	Gasoline	Steel Beam	1080 pounds	133.00
289 E 5089	5 horse power	Kerosene	Steel Beam	1090 pounds	138.00

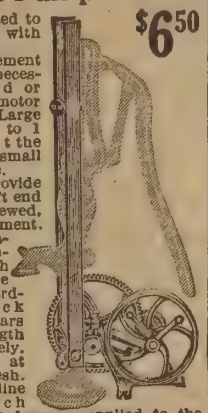
Fine Parlor Furniture At Reasonable Prices

Pages 484 and 485

All Purpose Pump Jack

$6.50



This Jack can be fitted to any pump standard with windmill top.

The clutch arrangement makes belt shifting unnecessary. Can be stopped or started while engine or motor is still running. Large diameter pulley and 5 to 1 gear reduction permit the use of a motor with small pulley or a small engine.

Hard oil cups provide ample lubrication. Shaft end key seated and set screwed, keeps gears in true alignment. Clutch positive in operation. Cross head connects to pump rod with one bolt. Pitmans are made of seasoned hardwood. Whole jack is neatly painted. Gears have great strength and mesh accurately. Gears protected at point where they mesh. The pulley is in direct line with the pump, which means that the driving force is applied to the pump rod without twisting strain.

Lifting capacity, 200 to 250 feet. Strokes: 5, 7½ and 10 inches. Pulley, 13 inches. Shaft, 1⅛ inches. Shipping weight, 100 pounds.

187 E 5266 ..... **$6.50**

Pump Jack

$10.85

Double Back Geared for Deep or Shallow Wells

An excellent all around Jack for use with gas or oil engines of all sizes. Pulleys make 341 revolutions per minute while pump is making 35 strokes. Engine need not be slowed down to put on belt.

Double back geared. Furnished with tight and loose pulleys; back geared, 9¾ to 1 Three different stroke lengths: 4½, 7 and 10 inches. Pulleys, 12 inches in diameter, for 2-inch belt.

This heavy duty pump jack will operate almost any pump with upright standard and windmill head. The gears, castings and upright standards are made unusually heavy throughout, insuring a dependable jack that will give the best service for years. Pump not included. Shipping weight, 95 pounds.

287 E 5264 ..... **$10.85**

Shipped from Southern Wisconsin

Stone Boat Heads

For moving large stones, farm implements, corn fodder and other farm products. Made of very strong cast iron and well ribbed. Strong enough to resist six times the actual working strain. Without bolts or boards. Average shipping weight, 60 pounds.

287 E 6314 ..... **$3.85**

Stock Feed Cookers

$7.95 15-Gal. Size

There is no more durable or popular style of Feed Cooker made for cooking feed for hogs, poultry, cattle, horses or sheep; also invaluable on farm for heating water, rendering lard, making soap, scalding hogs and innumerable other uses.

Experiments made by feeding a number of hogs with cooked feed and an equal number with uncooked feed, all from the same drove, and otherwise exactly the same conditions, except feeding, show from 15 to 25 per cent better returns for the cooked feed. It has also been established, where hogs regularly receive a portion of cooked feed, they are practically immune from cholera.

Progressive hog raisers not only cook winter feed, but find it profitable to feed warm, well-cooked, palatable feed to hogs in summer. By cooking, you double both the bulk and the value of the feed from a nutritious standpoint.

This Cooker has a jacket made of one continuous sheet of cold-rolled steel, which leaves no joints to open up and take in air, and is supported at bottom with a heavy wrought iron band. The kettle is made of smooth cast iron and may be removed from the casing easily. The inside arrangement includes a cast iron flame deflector set so that the fire and smoke pass around the kettle before going into the smoke pipe, thus bringing the entire bottom of kettle in direct contact with the heat and fire. Coal grates, elbows and pipe are extra.

Early to Market

In feeding stock, particularly hogs, the chief object is to put weight on them in the shortest possible time. With a grinder and feed cooker working in combination, you can prepare almost all fat producing rations easily and at low cost. This will enable you to get your stock to market earlier—and at higher prices.

Article Number	Capacity	Average Height over All	Diameter Kettle, Inside Flange	Shipping Weight Complete	Each

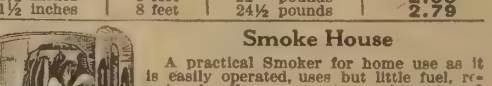
Galvanized Steel Hog Troughs

In sizes from 2 to 8 feet inclusive. The 2-foot size is especially desirable for breeding pens and farrowing houses. The 4, 6, and 8-foot sizes are popular in the hog yards. Where longer troughs than 6 and 8 feet are desired we recommend purchasing two of the smaller sizes. Rounded bottoms for easy cleaning. Freezing does not affect them. Cross bars one foot apart prevent the hogs shoving along in the trough.



Made of 20-Gauge Galvanized Steel

Article Number	Height	Width	Length	Shipping Weight	Each

Smoke House

A practical Smoker for home use as it is easily operated, uses but little fuel, requires hardly any attention, and is safe and fireproof.

It gives meat that full flavored taste because of thorough circulation of the smoke; long travel also cools the smoke and avoids possibility of overheating meat.

Outer casing, fire chamber and smoke pipe are heavy galvanized iron. Four 2 by 2-inch posts and set of hooks to hang meat on included. Use for storage after smoking; all ventilators screened.

May be set in any convenient place and connected to any ordinary chimney so surplus smoke can escape. Shipping weights, 113 and 135 pounds.

Shipped from Western Illinois

$10.45

Heats more quickly and requires less fuel than most Tank Heaters. Convenient to tend and regulate. Made of 14-gauge boiler plate; all seams welded; no rivets, bolts or packing necessary—no chance for leakage. Heat chest and fire box each 30 inches long, 12 inches wide and 8 inches high; joined together at an angle of 45 degrees.

Burns any kind of fuel. Basket grate required for burning coal; furnished with hook to pull out for cleaning. No grate needed for wood or other fuel. Heater held in place simply by placing weight on top. Equally satisfactory in keeping water warm in full or partially full tanks. Shipping weights, 75 and 85 pounds.

287 E 3595—Without grate.....**$10.45**
287 E 3596—With coal grate.....**11.80**

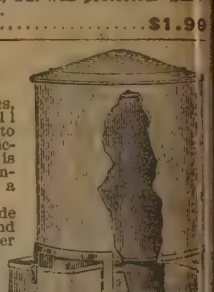
Shipped from Central Iowa

$1.99 Genuine Dewey Automatic Stock Fountain

Easily attached to barrel tank and held in place by one bolt and strong lock nut on the pipe. The body is made of cast iron with double drinking chamber. The float ball is made of brass and will not rust. Float enclosed within covered chamber outside the barrel, open at the top, leaving it easy to get at, but well protected. Shipping weight, 14 pounds.

487 E 3306.....**$1.99**

Hog Waterer and Heater



Suitable for hogs, calves, sheep or other small stock. Water feeds into drinking pan automatically as needed. Pan is large enough to accommodate two animals at a time.

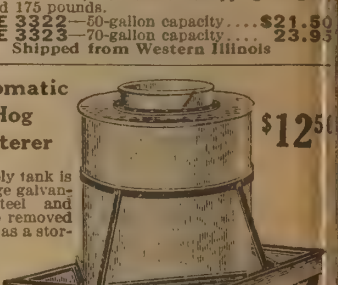
Outer casing is made of galvanized steel and lined with asbestos paper to protect the water in tank from cold or heat outside. Makes possible to use all year round. Drinking pan is made of cast iron and is easily removed for cleaning. Flow of water from tank to drinking pan is regulated by a vacuum; no valves required. Water pan is heated by oil lamp with large fount holds oil enough to run 36 hours. Height, 3 inches; diameter, 30 inches. Shipping weights 154 and 175 pounds.

287 E 3322—50-gallon capacity....**$21.50**
287 E 3323—70-gallon capacity.... **23.95**

Shipped from Western Illinois

Automatic Hog Waterer

$12.50



Supply tank is 20-gauge galvanized steel and may be removed for use as a storage barrel for oil or other liquids. When supply tank is removed, the pan may be used as a feeding trough. Sled is constructed of heavy angle iron, securely riveted together. Water feed is automatic.

Get All the Feed Value From Your Grain By Grinding

Corn and Cob Crusher and Feed Grinder

$23.95

Shipped from Central Iowa

Grinds Corn on Cob, Shelled Corn, Kaffir Corn, Milo Maize, Wheat, Oats, Barley, Rye and Other Grain, Separately or Mixed

A big capacity, fast grinding Mill. Puts grain in right condition to get most nutriment possible from it. Frame is extra heavy casting, designed to withstand six times working strain. Heavy angle steel legs with cross braces. Extra long bearings lined with long wearing babbitt. Large oil wells. Heavy steel main shaft, 1¼-inch on the No. 1 mill and 1½-inch on the No. 2 mill.

Spiral, concave cob breakers of hard chilled iron bolted to the frame. Cob crushers secured to shaft by safety break pin. Breakers start work; crushers complete grinding.

No. 1 Mill should be operated with from 4 to 7 horse power; No 2 with 7 to 12 horse power; running at 400 to 700 revolutions per minute, according to power

No. 1 will grind from 10 to 35 bushels and No. 2 from 20 to 60 bushels per hour, depending on the power, speed, kind of grain and its condition, whether dry or damp, and also whether grinding fine or coarse.

The **Crowfoot Burrs** used in this mill will outgrind and outwear ordinary burrs and are especially good for oats because they cut up the hulls.

Prices include balance wheel, two sets of burrs and lag screws for fastening. If so ordered we will fit 8-inch mill with 8 by 6-inch or 12 by 6-inch pulley; and 10-inch mill with 10 by 6-inch, 14 by 6-inch or 16 by 6-inch pulley for use with Fordson Tractor

When ordering burrs, give numbers of old ones.

287 E 3032—6-foot Double Sacking Elevator Ship weight, 75 pounds..**$16.80**

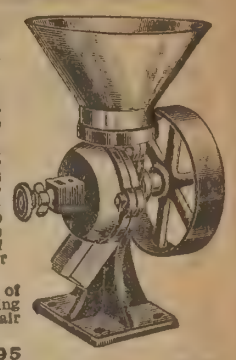
Mill for Grinding Small Grain

Such as Wheat, Rye, Oats and Corn

Here is one of the most popular Feed Mills made for grinding all kinds of grain such as shelled corn, oats and rye Can be operated with any engine or motor from one horse power up

Frame is cast in one piece and is solid and strong; lag screws are included Bearings are long and lined with high grade babbitt. The Crowfoot burrs are 5½ inches in diameter, ground perfectly true. These burrs can easily be adjusted for fine or coarse grinding. Capacity, from 6 to 20 bushels per hour, depending entirely on the power, kind of grain and its condition Should be run from 200 to 600 revolutions per minute Pulley is 12 inches in diameter, with 3-inch face. Flow of grain to burrs is regulated by opening or closing a slide in bottom of hopper.

Furnished complete with two pairs of burrs, one coarse and one fine. Shipping weights: Mill, 62 pounds; burrs, per pair 3¼ pounds



287 E 3000 ..... **$7.95**
287 E 3001—Extra Burrs Fine. **.90**

Shipped from Central Iowa

Big Four Sweep Mill Triple Geared

Grinds ear corn rapidly, either coarse or fine, also other small grains

Burrs make three revolutions to each round of the horses

Diameter of burrs, 16 inches; height, 3½ inches; made of white metal so hard that with ordinary care set should grind from 6,000 to 8,000 bushels of grain. With corn in fair condition and team making 3½ revolutions per minute, will grind 12 to 20 bushels per hour A hand lever at top allows tightening and loosening of burrs when hopper is full of grain. Made with coarse burrs for shelled corn and cob corn, and fine burrs for shelled corn and small grains. Coarse burrs furnished unless otherwise ordered. Shipping weights: mill, 600 pounds; burrs, 40 pounds.

$38.50 Shipped from Central Iowa

Buckeye Corn Sheller

$13.95

Entire top of Sheller is hinged so working parts can be inspected and adjusted

Just a few minutes at the Buckeye Corn Sheller and you have shelled corn to feed the poultry—or to mix and grind with the stock feed. How handy it will be every spring when you have bushels of corn to shell!

The Buckeye is one of the best built shellers we know of selling anywhere near our low price. It occupies but little space, yet it meets the requirements of medium size farms and poultry raisers. The heavy flywheel makes it easy to operate; shells clean without cracking the kernels. Pressure of rag iron against the ears is regulated by an adjustable spring so any size ears can be shelled clean. Fan cleans shelled corn. Frame of well seasoned select hardwood. Cold rolled steel shaft; all bearings carefully fitted. Capacity, 10 to 20 bushels per hour. For hand or power drive.

287 E 2736—Complete with fan and feed table. Shipping weight, 120 pounds.....**$13.95**
287 E 2738—Without fan and feed table. Shipping weight, 105 pounds.....**$12.90**
287 E 2734—8-inch pulley for power. Shipping weight, 12 pounds.....**89¢**

Shipped from Southern Wisconsin

Wilson Family Grist Mill

Every country home needs one of these little Grist Mills with removable hard metal burrs which are ground true and can be adjusted to grind to any degree of fineness. Heavy balance wheel makes it run easy. Will grind corn, wheat, rye, peas, salt, etc. Screws or bolts not included.

Shipping weights: Mill, 24 pounds; burrs, per pair, 3 pounds.

487 E 2932.....**$3.50**
87 E 2934—Extra Burrs. Per pair. **.75**

Portable Corn Crib

Made of heavy hardwood fence lath set 2 inches apart and bound with 5 strong galvanized wire cables. Single section cribs are 4 feet high; double section cribs consist of two sections, one above the other, making crib 8 feet high. Capacity figured on basis of 2 cu. ft. to bu. Also used as garden fencing.

Single Section Cribs

Article Number	Cap.	Diam.	Ship. Wt.	Each
287 E 2840	400 bu.	16 ft.	175 lbs.	$4.45
287 E 2841	500 bu.	18 ft.	200 lbs.	5.30

287 E 2846	1200 bu.	20 ft.	485 lbs.	11.85
287 E 2848	1500 bu.	22 ft.	540 lbs.	13.35

Shipped from Northern Illinois

$29.95 Two-Hole Hand or Power Corn Sheller

Hand or Power Sheller for general farm use. Frame is heavy hardwood, firmly fastened together. Shaft is heavy cold-rolled steel, and runs in iron bearings, bored through and bolted. Shelling wheels geared high to give good capacity. Feed spout directly over shelling wheel. Rag iron and springs adjustable to any size corn. Cob-carrier separates shelled corn from cobs, delivering the cobs at a distance from the foot of the sheller. The belt driven fan forces a strong blast of air through the falling shelled corn, which carries off all chaff, pieces of husk or bits of cob, so only clean corn is delivered to the basket or other container placed beneath the sheller.

When run by power the pulley on balance wheel shaft should make 300 revolutions per minute. Can be operated with any small engine. Capacity, 20 to 30 bushels per hour. Shipping weight, 250 pounds.

Complete with cob-carrier, fan, feed table, crank and 8-inch pulley.

287 E 2742.....**$29.95**

Shipped from Southern Wisconsin

Dandy Corn Sheller

89¢

Adjustable to large or small ears of corn. It is made of cast iron. Has spring tension with thumb nut, large sheller wheel. No bolts furnished. Shipping weights: 10 pounds and 4 ounces.

Chicago Feed Cutter

$19.25

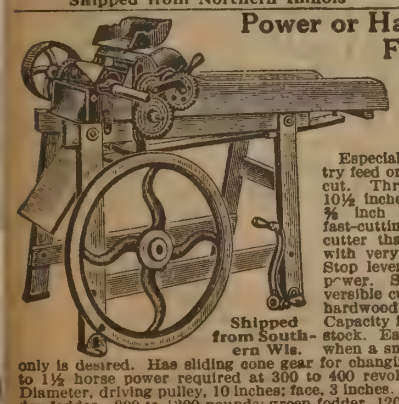
An easy running Cutter for a few head of Stock. Knife is tempered tool steel, and makes downward shearing cut. Adjustable to cut from ⅜ to 1½ inches, and geared to make 3 cuts to one turn of the crank. Main shaft is 1 1/16-inch cold rolled steel. Heavy balance wheel. Fluted roll feeds to knife. Capacity per hour, about 150 to 200 pounds of dry fodder; 300 to 400 pounds of green fodder. Shipping weight, 170 pounds.

287 E 6560.....**$19.25**

Shipped from Southern Wisconsin

Power or Hand Driven Feed Cutter

$38.50



Especially adapted for poultry feed on account of its fine cut. Three knives, length, 10½ inches. Cuts ⅛, ¼, or ⅜ inch lengths. Powerful fast-cutting feed and ensilage cutter that can be operated with very light safety lever. Stop lever pulley to run by power. Safety flywheel, reversible cutting bars. Heavy hardwood bolted Frame. Capacity for 10 to 20 head of stock. Easy to run by hand, when a small amount of feed only is desired. Has sliding cone gear for changing length of cut. 1 to 1½ horse power required at 300 to 400 revolutions per minute. Diameter, driving pulley, 10 inches; face, 3 inches. Capacity per hour, dry fodder, 800 to 1200 pounds; green fodder, 1200 to 2400 pounds. Pulley and crank included. Shipping weight, 300 pounds.

287 E 6568.....**$38.50**

Shipped from Southern Wis.

Hand Driven Feed Cutter

Shipped from Southern Wisconsin

Has heavy balance wheel which, with the shearing cut of knives make the machine very light running. Frame heavy hardwood, strongly bolted. Shaft is heavy, cold-rolled steel. The two knives are oil tempered tool steel and so constructed as to make a downward shearing cut. Feed rolls are large and driven by expansion gearing.

Safety lever stops feed roll instantly while the machine is running.

When both knives are used the cuts on smaller machine are ¼ inch, ⅜ inch or 1 inch in length. Cuts can be made twice as long by removing one of the knives.

Article Number	Length Knives Inches	Cut Inches	Cap. Fodder Per Hour: Dry	Cap. Fodder Per Hour: Green	Ship. Weight	Each

Thermodrink Fountain

Keeps Water Warm or Cold

$2.75 Works on same principle as a thermos bottle—keeps water warm or keeps it cold all day. No lamp necessary; just fill it with warm or cold water, according to the season, and the water will remain warm or cold for twelve hours. This is a big capacity Fountain and one of the best on the market. Made of heavy galvanized steel with strong bail for easy handling. Unusually well constructed; cone shaped top to prevent chickens roosting on fountain. Water is kept clean and pure; feeds down automatically as chickens drink. Height of 5-gallon size, 18 inches; diameter, 14½ inches. Shipping weights, 18, 24 and 27 pounds.

487 E 3807—2-gallon size.....**$2.25**
487 E 3808—3-gallon size..... **2.75**
187 E 3809—5-gallon size..... **3.15**

No-Waste Dry Mash Feeder

98¢

This well made Feeder will pay for itself in just a short time by preventing the waste of feed. Keeps the feed clean and off the floor. The feed compartment is 12 inches in diameter, large enough to take care of a good size flock. The disc plate with 14 feeding holes lies flat on the feed and settles down as the chickens eat. Chickens can not scratch feed out or waste it. Canopy top prevents chickens sitting or roosting on the feeder and protects feed from the hot sun and rain. Made entirely of heavy galvanized steel with loop for carrying. Total height, 11 inches. Shipping weight, 4½ pounds.

487 E 3818.....**98¢**

Dry Mash Wall Hopper

$1.65

Poultry feed is too valuable to waste, and always should be kept clean. Every poultry raiser will find one or more of these Wall Hoppers a profitable investment. Keeps the feed off the floor, keeps it sanitary, and entirely eliminates waste. The hopper is made extra large so it can not clog, and the bottom is curved sharply upward to throw the feed downward and forward against the wire grid within easy reach of the fowls. A strong wire flange with heavy cross wires extends across the feed outlet to prevent chickens from scratching out feed. The hopper is well made of heavy galvanized steel, and has a hinged front which may be let down over the feed outlet. This completely closes the hopper and keeps out mice and rats at night. It costs less to buy these hoppers than to continue wasting feed. Height, 17½ inches. Shipping weights, 6 and 12 pounds.

487 E 3768—Width, 12 inches.....**$1.65**
487 E 3769—Width, 24 inches..... **2.25**

Improved Oat Sprouter

$1.35

Green food is just as valuable to the poultryman as is good silage to the stockman or dairyman.

Laying hens as well as growing chicks must have green food at all times or they will fall far short of keeping in best condition. Sprouted oats provide an excellent green food for hens, increasing egg production. For chicks, it provides tender food that is easily digested and acts as a tonic and conditioner. With this improved Oats Sprouter, you can provide an abundance of this choice food the year round, and do it at very small cost. Trays are made of steel, heavily galvanized. Notice how rigidly the trays are supported one above the other. Lower tray serves as drip pan; upper trays are perforated. Easy to assemble; nothing to get out of order. Diameter of trays, 15¾ inches. Trays about 6 inches apart. Shipping weights, 8 and 15 pounds.

487 E 3764—With 4 trays.....**$1.35**
487 E 3765—With 8 trays..... **2.65**

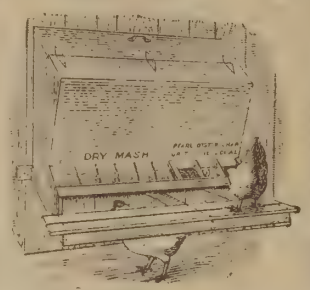
Large Fountain Heater

Holds 8 Gallons

$3.85

Large enough for a flock of seventy-five. Water feeds automatically to trough extending entirely around tank so a dozen or more chickens may drink at once. Keeps water at right temperature on coldest days and helps to take chill and dampness from poultry house. This means an increased egg yield in winter months. Heater section removable so top section may be used as fountain in summer. Made of heavy galvanized steel with fireproof galvanized bottom. Lamp has large brass burner; reservoir holds 3 pints. Total height, 24½ inches; diameter of heater, 15 inches; diameter of fountain, 12¼ inches. Shipping weight, 17 pounds.

487 E 3750.....**$3.85**



$10.50 Four-in-One Cafeteria

Four Feeds Always Ready

Fowls will choose the feed they need if they can get it. This Poultry Cafeteria gives them what they want, when they want it. Just fill the big compartments once a month or once a week for a large flock. Makes the safest possible place to store feed—and feed it at the same time. No sacks for rats and mice to gnaw; no spoiled feed. Made of heavy galvanized steel, complete with wood platform, hangers and hinged cover. Shipping weights, 65 and 100 pounds.

Trap Nests

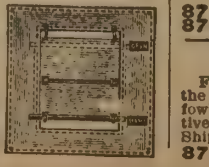
4 Nests **$3.90**

Some hens always are better layers than others. Weed out the poor layers and increase your profits. Make your time and your feed bring back the greatest returns in egg yield. The only sure way to know which are the best layers is to use Trap Nests. Our improved trap nests, made of galvanized steel throughout, are designed and built to meet the requirements of the big poultry raiser as well as those who have only a few chickens. The nests are built in sections of four; need no backs as they hang from staples against the wall. Easy to clean—simply take hold of section at bottom and pull out from wall and litter falls out. Each nest is 12 inches wide, 10 inches high at front, 19 inches high at back, and has trap door described below. Hens can not roost on sloping top. Shipping weight, 25 pounds.

287 E 3770—Section of 4 complete nests.....**$3.90**

Shipped from Western Illinois

Trap Nest Fronts



Galvanized steel; reinforced edges. Two shutters hung from top and hinged at center, drop as hen enters; other hens cannot get in. Also used to keep setting hens on nest. Width, 11 inches; height, 12 inches. Shipping weights, 2½ and 9 pounds.

87 E 3772—Each.....**$ .48**

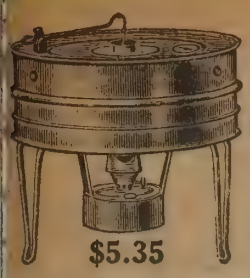
Little Setting Hen 50-Egg Incubator



$5.35

Built in our own factory especially for our customers who do not raise poultry on an extensive scale. Also just the thing for special hatchings on big poultry farms. So simple in construction and operation that anyone can get excellent results.

Made entirely of heavy galvanized steel—**not tin** as is so commonly used for smaller machines. Heated by hot air which is supplied by an oil burning lamp suspended from center of bottom. Three sturdy legs, V shaped for bracing. Double walled throughout with insulation to conserve the heat; regulated by a dependable water thermostat. Glass window at top permits reading temperature without opening machine. Size, 18 by 15½ inches high. Moisture pan. Directions included. Shipping weight, 18 pounds.

487 E 3721.....**$5.35**

Little Mother 50-Chick Sanitary Hover

$3.50 — May be Sent by Mail

Made almost entirely of heavy galvanized sheet steel; will withstand the most severe service. Heavy, durable cloth side curtains. Heat is supplied by an oil lamp which slides into an encased pocket, making it impossible for gases, smoke or soot to reach the little chicks. Heat goes directly into the heating drum which covers entire top of hover. Smoke and gases from the lamp go through the drum and are carried away by chimney. Size, 17 by 12½ inches high. Directions included. Shipping weight, 12 pounds.

487 E 3723.....**$3.50**

Special Combination Offer

487 E 3724—Special combination outfit: Little Setting Hen Incubator and Little Mother Hover. Shipping weight, 30 pounds.....**$8.45**

Poultry Shipping Coop

Hinged door in top. Removable ends. Capacity, 100 pounds of chickens. Substantially constructed of hardwood. Shipped knocked down. May be returned to the shipper at small expense. Length, 43 inches; width, 26½ inches; depth, 12 inches. Shipping weight, 35 pounds.

187 E 3884.....**$1.90**

187 E 3885—Galvanized iron feeding Trough; 36 inches long. Shipping weight, 3 pounds..**70¢**

Individual Shipping Coops

Keeps fowls in better plumage and protects them from draughts. Also saves on express charges. Made of very light, durable cedar. Solid sides and bottom, slatted top. Height, 21 inches. Shipped taken apart. Shipping weights: 6 and 9 pounds.

487 E 3857—For 1 fowl. **$ .85**
487 E 3858—For 3 or 4. **1.60**

Root and Vegetable Cutter

Cut up your beets, turnips, carrots, cabbage, potatoes and other vegetables and roots. Your chickens will then be able to eat much food they are now unable to eat. Cutter turns easily and cuts rapidly. Has stationary knives—will not choke. The food is cut in thin strips. Shipping weight, 45 pounds.

287 E 3086.....**$5.50**

Shipped from Southeastern Mich.

Poultry Tonic

Keeps hens in perfect condition—makes them lay more. Purifies the blood; builds the body; cuts moulting season in half. Helps prevent contagious diseases. Use it for cholera, roup, white diarrhoea and other ailments. One spoonful to gallon of drinking water. Shipping weight, per bottle, 2½ pounds.

Very smoothly finished and fitted. Honey in attractive Cases brings 1 to 2 cents per pound more than when shipped in rough, home made boxes. Leakproof, corrugated manila paper floor. Follower board keeps sections tight together. Front glass, 2 inches wide, fits in grooves Each case takes 24 scalloped sections, 4¼ by 4¼ by 1⅞ inches. Sold only in lots of ten complete cases. Shipped taken apart. Shipping weight, 10 cases, 40 pounds.

187 E 5792—10 cases.....**$5.85**

Boardman Entrance Feeder

18¢

To be placed in the entrance to the hive at one side. Very convenient for summer use, and is used extensively by queen breeders. The flow of feed can be regulated by stopping up the holes in the top of the Mason jar. Feeder consists of a wooden block with a hole in the top to receive a standard Mason fruit jar inverted. The feed is given to the bees gradually. The glass jar makes it possible to see which hives are out of feed. When empty, jar can be removed and another substituted. Feeder includes perforated cap but not Mason jar. Shipping weight, 2 pounds.

87 E 5724.....**18¢**

How to Order and Measure Metal Wheels

If you send us correct measurements we guarantee wheels to fit perfectly.

Send all measurements indicated at left. Measure from skeins only, not from your old wheels. Give exact sizes. Factory will allow for play. If you have no calipers cut a piece of cardboard as pictured above, to fit over part to be measured, then measure across slot. Do not measure around the skein, and be sure to measure from side to side of spindle, not from top to bottom, as skeins are often badly worn on the under side. Measure both front and rear axles.

Truck Body for Ford

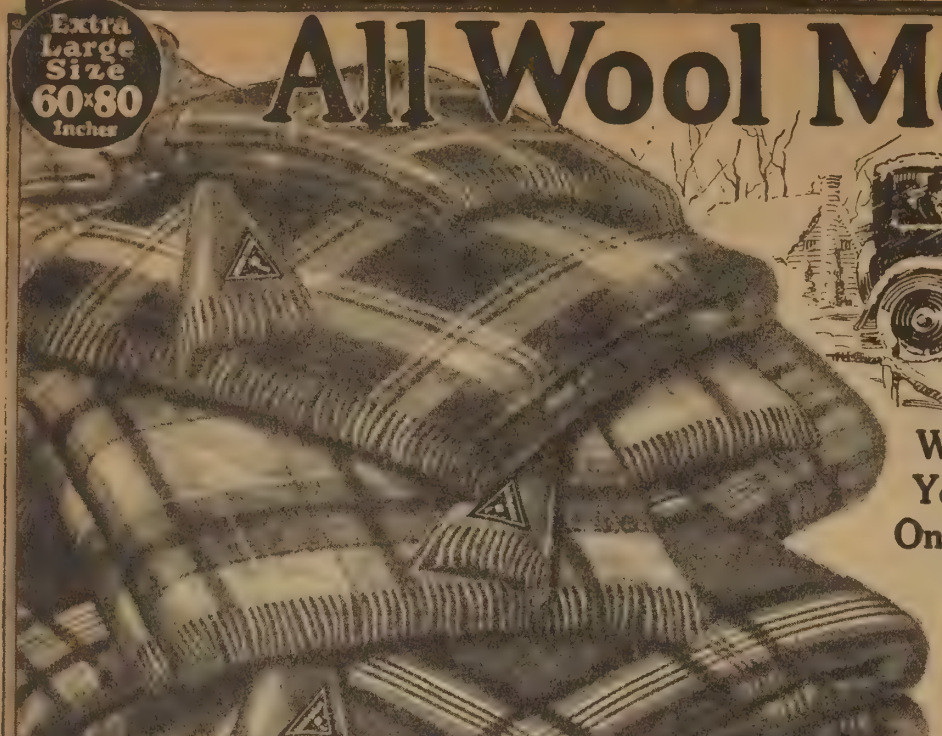
All Wool Motor Robes

Extra Large Size 60×80 Inches



Genuine MOTOR WEAVE Motor Robes

The Advertised Motor Robe

"A Special Weave for a Special Purpose"

When Cold Weather Comes You'll Be Glad You Bought One of These Splendid Robes

$6.50

At a Price That Means a Real Saving to You

You never thought it possible to secure a genuine All Wool Motor Robe like this at a price so low! Make no mistake; this is the famous Motor Weave Robe, the very same robe that formerly sold for about double the price we ask; the robe that experienced car owners agree is one of the finest on the market.

There's a soft warm feel about one of these handsome Motor Weave robes that just tells you the moment you finger it, that it's going to be snug and comfortable. The coldest weather can not penetrate its cozy warmth.

Where Could You Find a Better Value Than This Fine Quality All Wool Motor Robe?

No wonder, when we put such firm wool into its manufacture, that our customers say winter driving wrapped in a Motor Weave Robe is actually a delight. They are extra large, measuring full 60 by 80 inches. Use them for a couch or davenport cover in the home, or on the veranda or sleeping porch. They make splendid steamer robes and blankets, too.

Only because we sell Motor Weave in such tremendous quantities are we able to price them so low. Yet every robe must stand the strictest tests and inspection, just as if we were making only that one robe especially for you.

You'll readily understand why they sold for so much more when you see how much elegance and comfort they add to your car or home. There's a fluffiness of weave, and a beauty of texture you'll be proud to have your friends see. And no finer gift could be thought of for the friend who owns a motor car.

Made in a variety of beautiful colors—soft, rich plaids over harmonizing fields of rich dark green. Do not judge them by the low price—they are a far better quality than the price indicates. Order now and enjoy cold weather riding in comfort. Shipping weight, 4 pounds.

95 E 4821 ..... **$6.50**

$5.80

Rich Gray Plaid

It is not often that you find such a good fluffy Motor Robe selling for so low a price. This robe will keep you warm and comfortable on the coldest winter days. It has a very attractive appearance, too. A rich, variable field of gray plaids with red and green stripes worked in a beautiful pattern. The fringed edge also adds to the handsome appearance of this motor robe. And the size—54 by 76 inches—is ample to tuck in all around, insuring maximum warmth and comfort. It would be difficult to duplicate this robe elsewhere at this low price—it is a real bargain. Shipping weight, 4 pounds.

95 E 4807 ..... **$5.80**

$3.65

Our Special Low Price Motor Robe

This is one of our best values in Motor Robes. Do not let the extremely low price of this Motor Robe deceive you regarding the quality. When you buy this robe you will have a pleasant surprise in store. The beautiful plaids—white, green and red on gray—make it look as warm as it really is. And it has just that fluffy feel that adds comfort to warmth. The turned edges add strength and wearing qualities. The length—54 by 72 inches—is ample for tucking in. Shipping weight, 4 pounds.

95 E 5050 ..... **$3.65**

Fluffy and Warm

Pure Wool Motor Robe $10.00

No need to stay home because of the cold winter weather. This pure wool Robe will keep you warm when motoring, even in zero weather. The welcome warmth of this soft and fluffy pure wool robe makes winter driving more pleasant and comfortable. The dark gray back and beautiful plaid face in gray, red and white makes it a thing of beauty as well as warmth. The extra large size, 58 by 80 inches—and fringed edges add more comfort and beauty to this handsome robe. And the price is very reasonable. Shipping weight, 4 pounds.

95 E 4817 ..... **$10.00**

$7.30

Think of It! Genuine Wool Robe at This Price

All Wool Motor Robe

An all wool Motor Robe that makes winter driving a delight. It is full, firm and fluffy—with a soft warm feel which makes it snug and comfy. This robe is extra large, too, full 58 by 80 inches. You can wrap up in one of these big, generous motor robes and forget all about cold weather. Made in a beautiful plaid design—fancy green and buff overplaid. Fancy fringe on edges. This is a big value at our price. It also makes a splendid steamer robe, is very handy to have on an outing, and makes an excellent blanket for the home. Shipping weight, 5 pounds.

95 E 4815 ..... **$7.30**

Our Finest Motor Robe

There is a soft feel about Fur Robes that suggests warmth and comfort. And this one is particularly warm and comfortable. In fact, this is one of the finest fur robes that we have ever offered. Made in three beautiful styles: natural brown pony; dyed black pony and natural galloway. Size, 60 by 70 inches. This is a robe that you will want to use in the house as well as on a motor ride. You will be pleasantly surprised at the high quality of this robe. Shipping weight, each, 10 pounds.

$6.25

A Motor Robe That Wears Well

Fine Plush Motor Robe

Everyone knows the fine wearing qualities of plush Robes. This single plush robe can be draped and tucked around the body much better than double plush. It is finished in a beautiful plaid design, the colors blending perfectly. Heavy enough to keep out the coldest winds, yet not so heavy as to be uncomfortable. This robe in the car or around the home will bring comfort and warmth, even on the coldest days and nights. And the price like all other motor robes on this page, is exceptionally low for robes of such good quality. Size, 48 by 72 inches. Shipping weight, 4 pounds.

95 E 4875 ..... **$6.25**

New A Washable Robe

A Robe that makes winter driving a delight. It will keep you warm and comfortable even in the coldest weather. Genuine all wool—full, firm and fluffy. Extra large, too; full 60 by 80 inches. You can wrap up in one of these big, generous robes and forget all about cold weather. And then, it is washable. It has been specially treated so that it can be washed as many times as you wish—in lukewarm water—and the blanket will not shrink. The robe will always look like new. It is made of a beautiful heather mixture, with soft, rich overplaid of deep blue. It has a beauty of texture and finish found always in the finest quality robes.

At this value giving price you can use several—they make splendid steamer robes or blankets for the home. As gifts to men who drive, you could not please them better.

This is a big opportunity to secure a fine motor robe at a special bargain price. Size, 60 by 80 inches. Shipping weight, 4 pounds.

A Word About Prices

We wish our customers to realize the splendid bargains on this page. All wools and cotton fabrics have been advancing rapidly in price, yet, notwithstanding these tremendous advances we are able to offer you these exceptionally low prices. This is due to the fact that we bought our stock before the advance in price took effect, thus effecting a great saving for you. It is your opportunity.

Genuine L. C. Chase Blanket — $4.05 A Big Bargain

One of the Finest Horse Blankets at a Very Low Price

The name L. C. Chase has always stood for quality in Horse Blankets. They last longer, stand hard wear and give satisfactory service. This is no exception. A blanket designed to give the maximum of service. It is made of very good quality, extra heavy materials, large part wool. Extra well made and finished. Warmth and comfort and long wear are assured in this high grade blanket, which completely covers the horse from neck to tail. The low price is unusual for a blanket of this kind—it is only because we purchased at a big saving that we are able to name such a low price. By ordering now you will have what every one agrees is one of the best horse blankets on the market, and at an extremely low price. The coloring is beautiful, soft, rich. dark, blue with red border stripes. At this low price you should have several. You cannot do better than to equip all your horses with these splendid blankets—and they are also very useful on camping out trips, or around the house. Size, 80 by 84 inches. Shipping weight, 8 pounds.

95 E 4570 ..... **$4.05**

$5.48 — $5.00 Heavy Waterproof Duck

It is not wise to keep your horses uncovered in stormy weather—especially when such Covers as these may be had for so low a price. The duck used in these covers is known as 12-ounce sail duck, very durable and closely woven. The waterproofing is a special chemical process by which every fiber of the cloth is rendered water repelling. Cover finished in deep tan color, resembling army khaki. Attractive in appearance and will stand hard wear. Extra strong hame leathers with line rings; leather trace carriers with strap reinforced breast piece. Line pocket and adjustable front straps. Judging from the large quantity we sell, they give excellent service, and we consider them good values. Considering both price and quality, you could not do better.

95 E 4340—With cover to head **$5.48**
95 E 4341—With cover over hame **5.00**

Black Oiled Duck Rain Covers

A fine, black oiled drill Rain Protector, reaching to head. It is the same style cover as described in 95 E 4340 but made up from heavy, durable, black oiled duck. The cost is indeed small for such an excellent horse protector. With trace straps and line rings. Length, 90 inches. Shipping weight, each, 5¾ pounds.

95 E 4400—Cover to head **$4.65**

The material and workmanship is good and the price is very reasonable. Also, the horse is well protected from cold and stormy weather—which is the best economy of all. Made of standard quality cotton drill, water repelling. With hame leathers, trace straps, adjustable front strap and line rings. Length, 63 inches. Shipping weight, 4½ pounds.

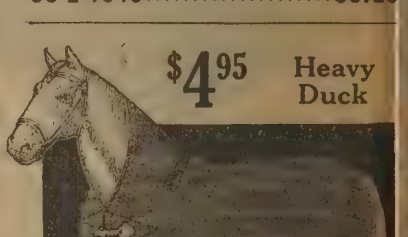
95 E 4410—Cover to hame **$4.15**

$6.25 Plaid Wool

We can not recommend this plaid wool Blanket too highly. We have been selling it every year for about ten years—and it is always of the same exceptional quality. This year it is an unusually fine value at our very low price. The rich colors give it a very handsome appearance. Buckle and front strap fastener. Extra large size, 84 by 90 inches. Shipping weight, 8 pounds.

95 E 4649 ..... **$6.25**

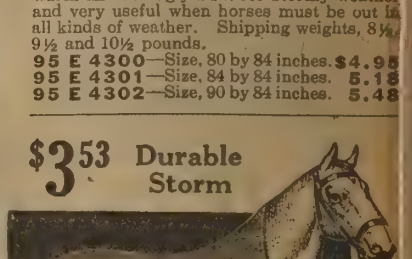
$4.95 Heavy Duck



This Blanket is made of heavy duck lined with fancy kersey. Adjustable front fastener; gore for neckpiece; 10-row stitched. Has hame leathers and trace holders. It is warm and strongly built for stormy weather and very useful when horses must be out in all kinds of weather. Shipping weights, 8½, 9½ and 10½ pounds.

95 E 4300—Size, 80 by 84 inches. **$4.95**
95 E 4301—Size, 84 by 84 inches. **5.15**
95 E 4302—Size, 90 by 84 inches. **5.48**

$3.53 Durable Storm



This Blanket should meet the expectations of the most careful buyer. The heavy, durable canvas material is closely woven and will wear well. Kersey lined. Considering the good qualities of this storm blanket, the low price is a real opportunity. Size, 80 by 84 inches. Shipping weight, 7 pounds.

95 E 4310 ..... **$3.53**

Again! We Have Kept Our Harness Prices Low

Trace Hang-Up Hooks in most convenient position. Can not unhook by accident. Wide leather safe adds to appearance of harness and comfort of horse.

Heavy 3-Ply Traces of choice harness leather. Each stitch locked inside of trace—can not pull out. Wide leather liner in trace carrier means double wear and better appearance.

Quick, easy adjustment. Patent buckle absolutely smooth on both sides. Comfortable for horse. Nothing to catch tail or lines. Heavy folded breeching with wide layer gives strength to spare.

Play Safe!

If you have kept in touch with the leather market, we don't need to tell you why harness prices have been going up. But we want you to know why, in spite of this, we have kept our harness prices low.

First of all, we make our own harness and buy our materials direct from the producers—you know what that means in savings. By keeping in close contact with tanneries over the country and constantly studying the leather market, we buy when prices are most favorable. Almost all of these savings are given to you in the form of lower prices. That is the secret of our growing harness business—better harness for less money. It also is the secret of our present very low harness prices.

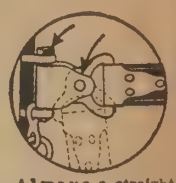
All Harness Listed on This Page Without Collars and Hitch Reins

Buy Now!

Get your new Harness now. Later on, you'll be greatly pleased with the saving you made and the keen satisfaction you get from owning a brand new set of harness; a harness you'll be glad to swing across the backs of your horses. No more irritating delays! No more worry while your team tugs through the stiff, hard pulls!

You couldn't find a better time than right now to buy harness from Montgomery Ward & Co. Although our prices are lower than you would expect to find them today, remember that we have rigidly maintained our high standards of quality and workmanship. When you buy your harness here you get harness that looks good and is as good as it looks—all the way through.

Ring Crown Bridle fits any shape head without twist or bind to any strap. Weight of bridle carried on extra wide 1⅝-inch crown means greatest possible comfort to the horse.



Always a straight pull on the traces; never any twist regardless of height of single tree. Jointed clip connection provides free movement up and down and side to side.

Long Spread Straps with Adams wood roller. Roller easily removed to put in line. Line can not twist; roller takes all wear. Every harness on this page has these spreaders.

Ward's Special All Purpose Breeching Harness for Field and Road

We call this our Special All Purpose Breeching Harness because we have studied the needs of our customers and followed their suggestions in building it. It is well made of select harness leather to stand a lot of hard heavy work. Not over decorated, but tastefully trimmed for best appearance. The check up strap, with snaps at each end, adds greatly to the looks of the harness for road work; for field work, you can remove the check up straps and hook the reins over the hames.

Bridles—Heavy ⅞-inch cheek with nose band and adjustable bit strap; wide folded adjustable crown; doubled and stitched combination front and winker brace; sensible blinds; round reins with gag swivels and check up straps. **Lines**—1⅛ inches by 18 feet; patent buckles and spring snaps. **Traces**—Heavy 3-ply (1½ or 1¾-inch) by 6 feet with wide safe at front; jointed clip attachment for bolt hames; 8-link heel chain sewed in; bellybands folded with leather filler and layer. **Pads**—4½ inches wide, heavy doubled and stitched harness leather with solid brass bridges and brass spots; 1¼-inch reversed skirts with patent buckle. **Back and Hips**—1⅛-inch back strap to hame with wear leather; 1⅛-inch hip straps made to reverse into breeching, with solid brass patent buckles; wide leather safe under trace hooks. **Breeching**—Heavy folded with leather filler and 1⅛-inch layer; 1⅛-inch side straps single reversed; lazy straps or trace carriers with ⅞-inch billets and wide liners. **Breast Straps**—Heavy 1½-inch by 4½ feet with snaps and metal slides. **Martingales**—Heavy 1½-inch doubled and stitched around loop at front with patent buckles; ⅞-inch collar straps. **Hames**—Japanned black steel with 1¾-inch brass ball tops, bolt style; fit 18 to 22-inch collars. **Hame Straps**—Bottom, 1 by 21 inches; top, 1 by 27 inches. **Spreaders**—¾-inch with Adams wood rollers. **Trimming**—Japanned black, brass spots and brass buckles on hip and back straps and pad skirts; brass spots on bridles and back pads.

Will fit horses up to 1500 pounds. Shipping weight, per set, about 85 pounds.

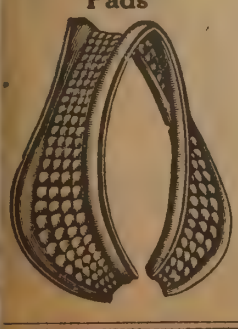
Our Standard Sweat and Collar Pads

Yellow Sweat Pads



The construction of this Sweat Pad reveals excellent wearing qualities. It fits the horse's neck snugly thus preventing the natural movement of the collar from causing irritation. You will be entirely satisfied with this pad. It is our most popular sweat pad, made of the highest quality cotton covering, old gold in color, stuffed with a composite stuffing. Is 5-row quilted and fastens with 4 hooks. Has a 12-inch draft. Made of the best grade of material and the workmanship is of the best.

Order sweat pads 1 inch longer than horse's collar. Shipping weight, about 2½ pounds.

95 E 2145—Sizes, 18 and 19 inches. Each.....**57¢**

95 E 2149—Size, 25 inches. Each.....**73¢**

Superior Sweat Pad

Made of long staple felt, carried through burlap by slender needles, thus perforating the fabric and making a durable and sanitary pad. Also whipped over edges, insuring the wearing qualities as well as preventing edges from fraying out. Highly recommended for work where lighter pad is necessary. About 10 inches wide, with 4 hooks. Sizes, 18 to 25 inches. Ship. weight, ¾ pound.

95 E 2153—Sizes, 18 and 19 inches. Each.....**51¢**

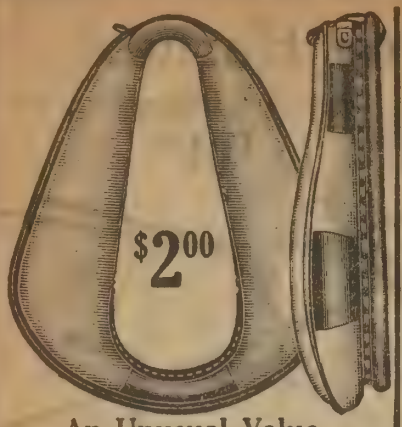
Put Ward's Collars on your horses—they fit. See Page 704



An Unusual Value

Draft, about 17½ inches

We never have sold a more serviceable Collar at a price so low. For years, we have featured this collar as an exceptional value. For plowing and general farm work where a high priced collar is not always desired, this well made collar is sure to give satisfaction.

The face and back are made of an extra heavy grade of white duck closely woven to present a smooth surface for the shoulders. The back is reinforced with wear leathers at the hame chafes and line rings to insure lasting wear. Throat reinforced with heavy leather. Pad of pressed sole leather. Heavy split leather rim, thong stitched. Outer seam machine sewed. Collar has buckle and billet top. Shipping weight, about 8 pounds.

State size wanted.

THINK of having a horse collar that will really fit four different horses! A collar instantly adjustable to four perfect fitting sizes! In the spring when the horse is fat, adjust the collar to the size required. As the horse gets thin, shorten the collar to fit—no sweat pads to bother with—no chance for sores or galls. One collar for each harness is all you need—not a collar for every horse.

The Greatest Collar Improvement Ever Made!

SEE HOW simple it is! Nothing complicated. Simply change the pegs on the collar pad from one set of holes to another. Shorten or lengthen the collar any time, anywhere. Nothing could be more practical.

The sole leather pad is reinforced on top with two sheets of drawn steel through which the pegs are riveted. Nothing but smooth leather under the pad—no rivets to work loose and dig into flesh. The pad is flexible, easily bent to fit any neck. The face, back and rim are stitched together to form the broad, flexible four-size bands across the top so each collar fits thick or thin necks without binding or looseness.

Better Made Collars

Double reinforced at the throat—four layers of leather at this point. Reinforcing wear leathers at hame chafes. Outer seams thong stitched and machine sewed. Rim seam thong stitched. Heavily padded with clean, fine cut rye straw and shaped to fit the shoulder from the very start—no breaking in. Padding stops at top of draft; collar can not sweeny because there is no pressure at upper neck—just a snug fit.

How could we make it better!

Choose from three different qualities and five different size ranges.

1 Buff and Black—Back and rim of buff leather, known by harness men as buckskin strap leather, noted for wear. Face of good quality smooth black leather. A good, low priced collar!

2 Black and Russet—Back and rim of heavy black collar leather of select quality. Face of heavy select russet collar leather. A splendid collar for farm work and general teaming.

3 All Russet Leather—Face, back and rim of extra heavy choice russet collar leather, very smooth. No better collar made! Wears like iron. Built for those who want the best because it's cheapest in the long run. Stands hard usage.

30 Days' Trial

Here is the offer that proves our confidence in the Four-Size collar. Order today one or as many as you need. See how perfectly they fit the shoulders. See how comfortably they rest on the horses' necks. See why they can not gall, and why sweat pads are never needed. **Use them for 30 days!** Then—if you want to—send them back at our expense and we will refund your money.

Our Favorite — $14.95

Leather Covered Horn

A fine saddle for general use around the farm. One of our biggest sellers, and a value that we fully recommend. Suitable for small men, young men, and large sized boys.

Notice our price for this saddle. It has been reduced and we think it is now about as low as it is ever going to be. We suggest that if you are figuring on buying a saddle for your boy this is a mighty good bargain.

Tree—13½-inch Morgan Steel Fork. Leather covered horn, rigging securely fastened to tree.
Skirts—20 inches long, lined with felt.
Seat—Full seat, leather bound cantle.
Stirrup Leathers—1½ inch, double at buckle end, fenders, 7 by 13 inches.

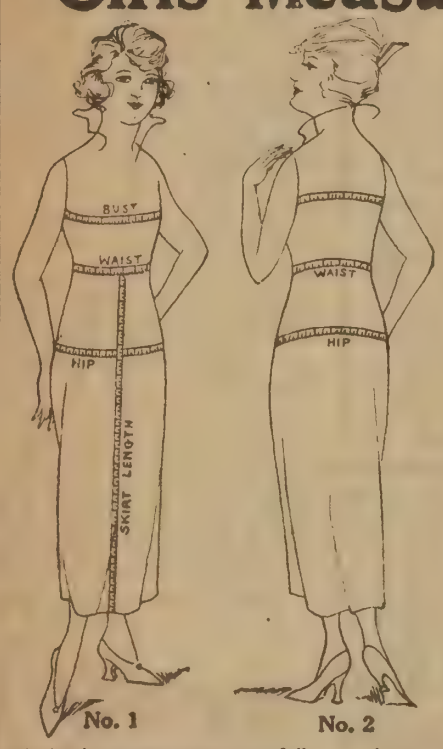
Always State Size Wanted

A Few Simple Measurements Enable Us To Fill Your Orders for Clothing Quickly and Correctly

Have someone take your measurements for you. Do not endeavor to measure yourself. Do not have the tape measure drawn too tightly; just enough to fit comfortably. Be sure it does not slip out of position while measurements are being taken.

Be sure to send us correct figures, plainly written.

Women's, Misses' and Girls' Measurements



No. 1 No. 2

Bust: Have the tape measure placed around the fullest part of bust, well up under the arms, over shirtwaist or dress. Do not take this measurement too tight and do not allow tape measure to slip down in back. Make no allowance whatever. See No. 1.

Waist: Have the tape measure placed around the waist at smallest part of waist over your corset. See No. 1 and No. 2.

Hips: Have the tape measure placed around the hips about 7 inches below your natural waist line over your skirt. Do not allow tape measure to slip up or down. See No. 1 and No. 2.

Front Length of Skirt: Have this measurement taken by placing tape measure at natural waist line in front and continue down to whatever length skirt is desired. See No. 1.

Length of Dress: Measure from collar seam straight down back to bottom of hem.

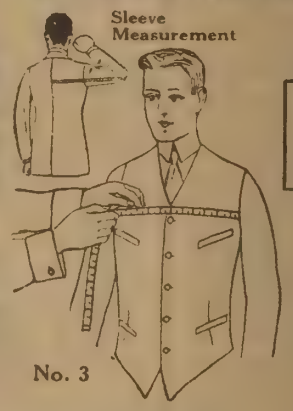
Girls' Sizes in Years: To find your daughter's correct size, take her bust measurement carefully—see above—and state size wanted as shown in table:

Sizes, years	7	8	10	12	14
Average bust measure, inches	30	31	32	33	34
Average length, inches	27	28	32	36	42

Men's, Young Men's and Youths' Measurements

Chest: Have the tape measure placed all around the body over chest close up under the arms and over shoulder blades in the back. Have measurements taken over vest as illustrated in No. 3. When ordering suits, **state height and weight.**

Sleeve: Place hand and arm in position as illustrated in the top picture. Have tape measure placed on center seam in back and continue around elbow to wrist for the length wanted.

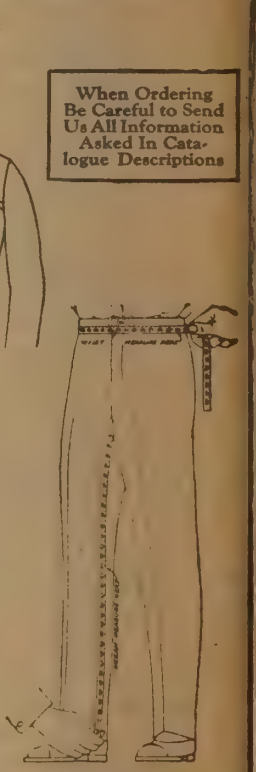


No. 3

When Ordering Be Careful to Send Us All Information Asked In Catalogue Descriptions

Waist: Have the tape measure placed all around your waist just above hips. See first measurement illustrated in No. 4.

Inseam: Have tape measure placed close up in crotch and continue down the leg to the desired length as shown in No. 4. The above measurements should be taken over trousers and tape measure should not be drawn too tightly. When ordering trousers or overalls, state waist and inseam measurements, **also height and weight.**



No. 4.

Boys' Sizes in Years:

Sizes, years	5	6	7	8	9
Chest, inches	24	24¾	25½	26¼	27
Sizes, years	10	11	12	13	14
Chest, inches	27¾	28½	29¼	30	30¾
Sizes, years	15	16	17	18	
Chest, inches	31½	32¼	33	34	

Give Sizes As Follows When Ordering

Blouses: State bust measure.

Girls' Coats: Order by age only. See description.

Misses' and Juniors' Coats: State age and bust measure. See description.

Women's Coats: State bust measure.

Girls' Dresses: State age. Order by age only, corresponding to 30 to 34-inch bust measure. See description.

Junior Misses' Dresses: Order by age only, corresponding to 33 to 39-inch bust measure. See description.

Women's and Misses' Dresses: State bust, waist, hip measures and back length from back of neck to bottom of hem.

House Dresses, Kimonos and Aprons: State bust measure.

Women's Sweaters: Add 2 or 3 inches to bust measure taken over dress. Even number sizes only, 34 to 46.

Underwear, Knit and Muslin: For Union Suits, Vests and Shirts, state bust measure. Drawers, waist measure.

Back Lace Corsets: Take waist measure tightly over corset and subtract 2 inches to allow for the lacing.

Front Lace Corsets and Topless Corsets: Take waist measure tightly over corset and subtract 1 inch.

Misses' and Women's Skirts: State waist and hip measure, also front length.

Misses' and Women's Raincoats: State bust measure.

Girls' Raincoats: State age usually taken for. See description.

Women's and Misses' Suits: State actual bust, waist and hip measurements and front length of skirt, also height and weight.

Maternity Garments: See description of garments.

Suits—Men's, Young Men's or Youths': State chest measure, sleeve measure, waist measure and inseam measure; also height and weight.

Overcoats—Men's, Young Men's or Youths': State chest measure taken over vest; also height and weight.

Trousers: State waist measure and inseam measure; also height and weight.

Coats: State chest measure taken over vest; also height and weight.

Vests: State chest measure.

Mackinaws: State chest measure.

Overalls: State waist measure and inseam measure; also height and weight.

Overall Jackets: State chest measure.

Outing Coats: State chest measure taken over clothing to be worn beneath outing coat.

Raincoats: State chest measure taken over vest; also height and weight.

Rubber Raincoats and Oiled Slicker Clothing: State chest measure; also height and weight.

Boys' Suits: State age and chest measure; also height and weight.

Boys' Knickerbockers: State age and waist measure.

Boys' Coats: State age and chest measure.

Boys' Mackinaws: State age and chest measure.

Boys' Overalls: State age; also height and weight.

Boys' Overall Jackets: State age; also height and weight.

Men's Sweaters: Add 2 or 3 inches to chest measure taken close up under the arms over shirt, or state one size larger than coat size. Sweater sizes run in even numbers, 34 to 46.

Shirts: See each description.

How to Measure for Gloves

Draw tape measure around over the knuckles (as shown in picture to the left) not too tight, and not including the thumb. To this measurement add ¼ inch for dress gloves and ½ inch for work gloves, which gives your correct size. Women's unlined kid glove sizes: 5½, 5¾, 6, 6¼, 6½, 6¾, 7, 7¼, 7½, 7¾, 8. Women's silk fabric and lined glove sizes: 5½, 6, 6½, 7, 7½, 8, 8½. Men's dress glove sizes: 7, 7½, 8, 8½, 9, 9½, 10, 10½. Men's work glove sizes: 7½, 8, 8½, 9, 9½, 10, 10½, 11. Children's gloves: Order by age. Be sure to state if child is large or small for age.

For Babies' Bonnets

Measure the head as illustrated by placing tape measure around the head and face, beginning at the arrow point shown in picture, which is on the neck just below the ear and continues around the face to point on opposite side. This shows size of bonnet to order.

Every Article Shown in This Catalogue Is Listed on the Blue Pages, 369-380

How to Measure for Hats and Caps

For Children, Boys and Men

Measure as shown and compare the number of inches your head measures with this scale of hat sizes, and send us the hat size you wear.

Children's hat sizes: 6½ to 6¾. Boys' hat sizes: 6½ to 7. Men's hat sizes: 6¾ to 7⅞.

Head Measure Size	Corresponding Hat Size	Head Measure Size	Corresponding Hat Size
19 inches	6⅛	21⅝ inches	7
19⅜ inches	6¼	22 inches	7⅛
19¾ inches	6⅜	22⅜ inches	7¼
20⅛ inches	6½	22¾ inches	7⅜
20½ inches	6⅝	23⅛ inches	7½
20⅞ inches	6¾	23½ inches	7⅝
21¼ inches	6⅞	23⅞ inches	7¾

Other Measurements

Čechoslovácky

Jest možno Vám psáti česky neb slovácky jestli jest to pro Vás pohodlné. Vaše psaní a objednávky dostanou tu stejnou pozornost jako by byly psány anglicky.

Prohlédněte si dobře obrázek a popis v katalogu, od každé věci co si objednáte. Udejte číslo, barvu a velikost a pošlete dosti peněz i na poštovné, jestli objednávka má být poslaná po poště.

Deutsch

Im Falle es leichter ist fuer Sie, koennen Sie uns auf deutsch schreiben. Ihre Bestellungen werden abenso sorgfaeltig ausgefuehrt wie die auf Englisch abgefassten. Wir bitten, immer genau zu achten auf die Abbildung und Beschreibung von jedem Gegenstand den Sie bestellen wollen. Geben Sie die Nummer, Groesse und Farbe an und legen Sie Ihrer Bestellung genug Geld bei, sowie auch den Betrag der Frankierungs kosten, falls die Bestellung mit der Post gehen soll.

Español

Usted puede escribiros en Español si le es más conveniente. Contestaremos sus cartas,y sus órdenes recibirán la misma cuidadosa atención que recibirian si fueran escritas en Inglés.

Suplicamos a Ud. estudiar cuidadosamente las ilustraciones y descripciónes en nuestro catálogo, de cada artículo que Ud. ordene. Sirvase mencionar el número del artículo, tamaño y color en su órden, y envienos dinero suficiente para cubrir el costo total de las mercaderias, incluyendo franqueo, si su órden es para enviarse por correo.

Français

Vous êtes libre de nous écrire en français, si vous trouvez cela plus facile. Vos commandes recevront la même soigneuse attention que celles qui sont ecrites en anglais.

Veuillez étudier dans notre catalogue l'iliustration et la description de chaque article que vous désirez commander. Designez l'article par son nom, son numéro et son prix et indiquez la couleur et vos mesures, si cela est nécessaire. Votro commande doit être accompagnée d'une somme suffisante pour couvrir le prix de la marchandise et aussi l'affranchissement, si la commande doit être expédiée par la poste.

Hollandsch

U kan ons in de Hollandsche taal schrijven, indien dit gemakkelijker voor u iš. Alle bestellingen worden zorgvuldig uitgevoerd, onverschillig of deze in de Engelsche of in een andere taal geschreven ziju.

Ieder artikel in onzen catalogus is duidelijk beschreven en geillustreerd. Geef nummer, maat en kleur op den bestelbrief aan en zend ons het totaal bedrag der bestelling, frankeeringskosten inbegrepen, indien de bestelling per post moet worden gezonden.

Italiano

Ci potrete scrivere in Italiano se questa vi riesce piu' facile. Risponderemo le vostre lettere e i vostri ordini riceveranno la medessima attenzione come se fossero scritti in inglese.

Vi preghiamo di studiare attentivamente le illustrazione e descrizione nel catalogo di ogni articolo che ordinate. Menzionate il numero dell'articolo, grandezza e colore nel vostr'ordine, e mandateci sufficiente moneta per coprire l'ammontare della merce incluso le spese postale, se il vostr'ordine deve essere spedito in questa maniera.

Norsk

De kan skrive til os paa Norsk, om det falder lettere for Dem. Vi vil svare Deres breve og bestillinger med den samme nøiagtighed, som om de var skrevne paa Engelsk.

Venligst se nøie paa illustrationen og læs forklaringen i katalogen af hver artikel, De ordrer. Opgiv artikel nummer, størrelse og kulør naar bestillinger sendes, og indlæg nok penge til at betale total beløbet af varerne, iberegnet porto, om Deres bestillinger skal sendes pr. post.

Polskie

Postage, 14¢ extra

Circus Tent

Seven Gay Colored Flags—Animal Decorations

What fun you will have with this Circus Tent. Set it up in the corner of a room, on the porch or, in nice weather, out on the lawn. You can put it up yourself—it takes just a few seconds. Keep all of your toys in it—make it your playroom. You can stand up in it, as it is about 4 feet high and 4 feet wide. Made of heavy tan paper with wood supports. A large colored elephant and camel are printed on either side of entrance. On the top are flags in bright colors. Folds flat when not in use. You and your friends can have a regular circus every day if you own this fine tent. And when the show is over you can play house in the tent if you want to. The elephant and camel on the tent will guard dolly while you are away.

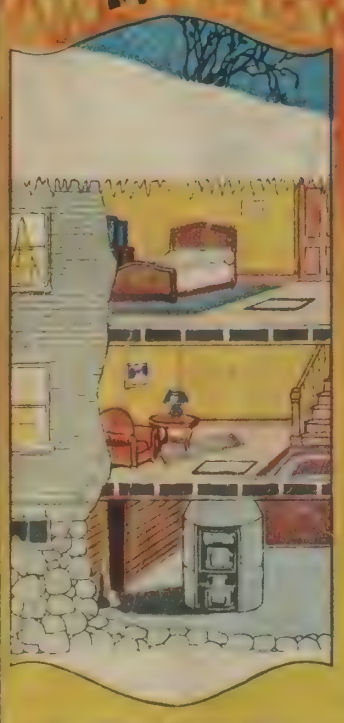
A Bigger, Heavier Pipeless Furnace

at No Advance in Price $65 5-Room Size



The Windsor Pipeless Furnace heats your whole house with only one fire. The heat rises through the floor registers, bringing to every room perfect circulation. Every part of the house is equally comfortable—a big advantage.

WE have not raised our furnace prices even though metal costs keep going up. You can still buy this High Quality Pipeless Furnace for less than is often asked for one heating stove—and it will heat your whole house.

The Windsor Pipeless Furnace is made of extra heavy materials. Will heat your house perfectly and with the least expense because it gets all the heat out of your coal. You can easily install it yourself. Made in five sizes. Shipped from centrally located warehouses to save you freight. Ward's 48-hour service insures you against delays. See Pages 662 and 663 for complete information.

What Our Furnace Customers Say

"The 20-inch Windsor Pipeless Furnace I purchased from you has given me entire satisfaction. Plenty of heat any place in my 6-room two-story house. Before buying, I looked at different makes of furnaces and found I could save $65 to $90 by buying a Windsor which is of better material and weight."
Charles G. Moots,
Nelson, Illinois.

"The Windsor Pipeless Furnace that I bought at Ward's is certainly all you claim for it. I figure I saved $120 on this furnace. Gives us all the heat there is in the coal. If I were buying another furnace, it would be a Windsor Pipeless. We have had fine success with ours."
I. J. Augustine,
Cedar Rapids, Iowa.

Ward's Finest, Heaviest Enameled Range

$5.00 Down and Five Dollars a Month

Is All You Need to Pay to Put This Fine Range to Work in Your Kitchen

Use Easy Payment Order Blank No. 2 on Page 719

This Range Can Be Shipped 300 Miles for About $4.00

One of the Biggest, Heaviest Ranges Made Built for Service

Your stove troubles are over the day you put this **Admiral Blue Enameled Range** in your kitchen. A big, fine range, strongly constructed yet so good looking that any woman would be proud to own it. Burns either coal or wood and heats up very quickly for a range of its size. Cooks and bakes perfectly with less fuel because **you use all the heat.** Will stand the hardest usage.

You never need to blacken this range. All exposed surfaces are either blue enamel, shiny nickel plate or white enamel. And the enamel is more than a surface coat—it is part of the metal itself, and with reasonable care will last for many years. To clean it, just wipe it with a damp cloth.

The heat indicator in the oven door helps you get good baking results. Left side of stove is swelled to create greater draft. You can regulate the sliding damper to suit your cooking—a **Windsor Feature.** The warming oven is just the right height for the average woman. The 28-quart reservoir will supply plenty of warm water.

Features of Construction

Body—Extra heavy, high grade cast iron. Joints closely fitted to prevent wasting heat. Takes 7-inch pipe.

Cooking Top—49 by 26 inches, including reservoir. Two cyclonic lids, three regular lids and one reducing lid. Highly polished. Requires no blacking. Height, 30½ inches.

Oven—Unusually large; 20 inches wide, 20 inches deep, 13 inches high. Nickeled drop door with white enamel panel. Heat indicator in the center of door.

Fire Box—Size for coal, 18 by 9 by 5½ inches. Burns 21-inch wood with end linings removed. Strong duplex grate for burning coal or wood. Doors full nickel plated.

Warming Closet—Convenient and roomy. With drop doors down is 23 inches deep. Nickel door frames with blue enamel panels. Heavy, nickeled brackets. Full white enamel splasher and back guard.

Reservoir—Handmade of heavy pure copper, tinned on inside. Will not rust or leak. Heats by contact and holds 28 quarts of water.
